## Reception Of Swift In Europe:

**The Reception of Jonathan Swift in Europe** Hermann J. Real, 2005-07-31 Jonathan Swift has had a profound impact on almost all the national literatures of Continental Europe The celebrated author of acknowledged masterpieces like *A Tale of a Tub* 1704 *Gulliver s Travels* 1726 and *A Modest Proposal* 1729 the Dean of St Patrick s Dublin was courted by innumerable translators adaptors and retellers admired and challenged by shoals of critics and creatively imitated by both novelists and playwrights not only in Central Europe Germany and Switzerland but also in its northern Denmark and Sweden and southern Italy Spain and Portugal outposts as well as its eastern Poland and Russia Hungary Romania and Bulgaria and Western parts from the beginning of the eighteenth century to the present day *Systematically Analysing Indirect Translations* James Luke Hadley, 2023-05-11 This volume applies digital humanities methodologies to indirect translations in testing the concatenation effect hypothesis The concatenation effect hypothesis suggests that indirect translations tend to omit or alter identifiably foreign elements and also tend not to identify themselves as translations The book begins by introducing the methodological framework to be applied in the chapters that follow and providing an overview of the hypothesis The various chapters focus on specific aspects of the hypothesis that relate to specific linguistic stylistic and visual features of indirect translations These features provide evidence that can be used to assess whether and to what extent the concatenation effect is in evidence in any given example The overarching aim of the book is not to demonstrate or falsify the veracity of the concatenation effect hypothesis or to give any definitive answers to the research questions posed Rather the aim is to pique the curiosity and provoke the creativity of students and researchers in all areas of translation studies who may never have considered indirect translation as relevant to their work *Britain and Italy in the Long Eighteenth Century* Rosamaria Loretelli, Frank O'Gorman, 2010-02-19 The essays in this collection range across literature aesthetics music and art and explore such themes as the dynamics of change in eighteenth century aesthetics time modernity and the picturesque the function of graphic ornaments in eighteenth century texts imaginary voyages as a literary genre the genesis of children s literature the Italian opera and musical theory in Frances Burney s novels Italian and British art theories and patterns of cultural transfers and of book circulation between Britain and Italy in the eighteenth century Collectively they epitomise the concerns and approaches of scholars working on the long eighteenth century at this challenging and exciting time In the absence of universally agreed overarching interpretations of the cultural history of the long eighteenth century these papers pave the way for the ultimate emergence of such explanations Authors discussed here include Margaret Cavendish David Russen Francis Hutcheson Reverend Gilpin Samuel Richardson Henry Fielding Laurence Sterne Dugald Stewart Dorothy Kilner Frances Burney Anna Gordon Brown Saverio Bettinelli Henry Ince Blundell Francesco Algarotti Ugo Foscolo and Francesco Domenico Guerrazzi *Translation in Anthologies and Collections (19th and 20th Centuries)* Teresa Seruya, Lieven D'hulst, Alexandra Assis Rosa, Maria Lin Moniz, 2013-08-29 Among the numerous discursive carriers through

which translations come into being are channeled and gain readership translation anthologies and collections have so far received little attention among translation scholars either they are let aside as almost ungraspable categories astride editing and translating mixing in most variable ways authors genres languages or cultures or are taken as convenient but rather meaningless groupings of single translations This volume takes a new stand makes a plea to consider translation anthologies and collections at face value and offers an extensive discussion about the more salient aspects of translation anthologies and collections their complex discursive properties their manifold roles in canonization processes and in strategies of cultural censorship It brings together translation scholars with different backgrounds both theoretical and historical and covering a wide array of European cultural areas and linguistic traditions Of special interest for translation theoreticians and historians as well as for scholars in literary and cultural studies comparative literature and transfer studies
