Healthy People 2000 Review ,1999 **Reports and Documents** United States. Congress, Compendium of HHS Evaluations and Relevant Other Studies ,1990 **The Relevance of Ethnic Factors in the Clinical Evaluation of Medicines** S.R. Walker,C. Lumley,N. McAuslane,2012-12-06 For a research based pharmaceutical company to be successful in the 1990s it must have a strategic plan for the global development of new chemical entities Global development can be defined as an attempt to reach all major markets as rapidly as possible and for many companies these will include the United States Japan Germany France Italy UK and Canada which together represent approximately 85% of the pharmaceutical market in the developed world The mutual acceptance of foreign clinical data would reduce the time and resources required to develop a new medicine for the international market by eliminating the requirement for the routine repetition of clinical studies in local populations In Japan this has been largely based on the belief that genetic differences in responsiveness may result in a different benefit risk assessment for a new medicine while requests in Europe and the United States for local data relate mainly to methodological and cultural considerations The importance of this issue has been recognised internationally as it was one of the topics discussed at the International Conference on Harmonisation in Orlando October 1993 and it is currently on the programme for ICH3 which will be convened in Yokohama in Japan in November 1995 Fellow Creatures Christine M. Korsgaard,2018-06-18 Christine M Korsgaard presents a compelling new view of humans moral relationships to the other animals She defends the claim that we are obligated to treat all sentient beings as what Kant called ends in themselves Drawing on a theory of the good derived from Aristotle she offers an explanation of why animals are the sorts of beings for whom things can be good or bad She then turns to Kant's argument for the value of humanity to show that rationality commits us to claiming the standing of ends in ourselves in two senses Kant argued that as autonomous beings we claim to be ends in ourselves when we claim the standing to make laws for ourselves and each other Korsgaard argues that as beings who have a good we also claim to be ends in ourselves when we take the things that are good for us to be good absolutely and so worthy of pursuit The first claim commits us to joining with other autonomous beings in relations of moral reciprocity The second claim commits us to treating the good of every sentient creature as something of absolute importance Korsgaard argues that human beings are not more important than the other animals that our moral nature does not make us superior to the other animals and that our unique capacities do not make us better off than the other animals She criticizes the marginal cases argument and advances a new view of moral standing as attaching to the atemporal subjects of lives She criticizes Kant's own view that our duties to animals are indirect and offers a non utilitarian account of the relation between pleasure and the good She also addresses a number of directly practical questions whether we have the right to eat animals experiment on them make them work for us and fight in our wars and keep them as pets and how to understand the wrong that we do when we cause a species to go extinct Decisions and Orders of the National Labor Relations Board United

States. National Labor Relations Board, 2014 Classified Index of National Labor Relations Board Decisions and Related Court Decisions, 2005 Critical Company Law Lorraine Talbot, 2007-08-03 Dr Talbot traces the history of the fundamental principles of English company law including the doctrine of separate corporate personality director's duties minority protection and the doctrine of ultra vires from both a black letter and contextual perspective Relevant aspects of the Companies Act 2006 are thoroughly examined Drawing on the influence of American law and scholarship the book considers the ideas which have informed corporate governance in England It includes a case study of mutual building societies march to the market and corporate identity The hybrid approach adopted in the text provides a contextual and critical framework in which to understand company law as well as a broad picture in black letter law terms The aim is to invigorate what many students and academics consider a dry subject by uncovering the social factors which continue to inform this area of law and the political nature of the law itself Dr Talbot maintains that modern company law is shaped by three main factors economics ideology and existing law The state of the law at any one time is determined by the constantly shifting relationship between these factors

Intermediate Quantities Philip Peterson, 2020-07-24 This title was first published in 2000 Intermediate quantifiers express logical quantities which fall between Aristotle's two quantities of categorical propositions universal and particular Few many and most express the most commonly referred to intermediate quantifiers but this book argues that an infinite number can be understood through a deeper examination of the logical nature of all intermediate quantifiers Presenting and analyzing the logical and linguistic features of intermediate quantifiers in a fashion typical of traditional logic Philip L Peterson presents an account integrating the logic and semantics of intermediate quantifiers with the two traditional quantities by traditional methods Having introduced the basic idea of how to approach the task in the first chapter with heavy emphasis on the linguistic meanings and ordinary uses of English intermediate quantifier expressions Peterson then undertakes the task of completely integrating the three basic intermediate quantities into traditional logic in the following chapter

Hunt,2019-09-27 Cornelius Van Til s Doctrine of God and Its Relevance for Contemporary Hermeneutics seeks to answer the question What does Van Til have to do with hermeneutics It is argued that some of the most relevant concerns in the field of contemporary hermeneutics are similar to those addressed by Van Til in the area of apologetics Van Til s approach involved a self conscious consistency between method and theology proper in order to reason according to the Christian worldview found in Scripture Just as one s apologetic method should be consistent with the theology revealed in the Bible so also should one s hermeneutic This work not only argues that Van Til has an important place in the hermeneutical discussion but also demonstrates his place in terms of the main contours in his doctrine of God In doing so certain influences on evangelical hermeneutics are considered according to consistency with theology proper Lastly a Van Tillian hermeneutic is applied to the often debated issue concerning the New Testament use of the Old Testament **Agriculture, Rural Development, and Related Agencies Appropriations for 1979** United States. Congress. House. Committee on Appropriations. Subcommittee on Agriculture, Rural Development, and Related Agencies,1978 **Christian Origins and the Establishment of the Early Jesus Movement** Stanley E. Porter,Andrew W. Pitts,2018-08-07 Christian Origins and the Establishment of the Early Jesus Movement explores the events people and writings surrounding the founding of the early Jesus movement in the mid to late first century The essays are divided into four parts focused upon the movement s formation the production of its early Gospels description of the Jesus movement itself and the Jewish mission and its literature This collection of essays includes chapters by a global cast of scholars from a variety of methodological and critical viewpoints and continues the important Early Christianity in its Hellenistic Context series
