MARTIN E. MARTY WITH JONATHAN MOORE

Religion And The Common Good

Andre Gagne, Spyridon Loumakis, Calogero A. Miceli

Religion And The Common Good:

The Common Good and Christian Ethics David Hollenbach, 2002-08 The Common Good and Christian Ethics rethinks the ancient tradition of the common good in a way that addresses contemporary social divisions both urban and global David Hollenbach draws on social analysis moral philosophy and theological ethics to chart new directions in both urban life and global society He argues that the division between the middle class and the poor in major cities and the challenges of globalisation require a new commitment to the common good and that both believers and secular people must move towards new forms of solidarity Politics, Religion, and the Common Good Martin E. Marty, Jonathan Moore, 2000-03-10 The future of America in many ways depends upon an understanding of the proper role of religion in our shared life as a republic Discussions and debates on the topic have too often generated noise platitudes stereotypes name calling and the distortion of vitally important issues instead of constructive conversation among citizens until now Of all the voices commenting about American religion today none is more credible or better known than that of historian Martin E Marty A respected scholar author editor and media commentator he has perhaps better than anyone else in the field a deep grasp on the complex issues surrounding public religion Human Rights, Virtue and the Common Good Ernest L. Fortin, 1996-12-19 Volume Three of Ernest Fortin Collected Essays discusses the current state of Christianity especially twentieth century Catholic Christianity and the problems with which it has had to wrestle in the midst of rapid scientific progress profound social change and growing moral anarchy In this volume Fortin discusses such topics as Christianity and the liberal democratic ethos Christianity science and the arts Ancients and Moderns papal social thought virtue and liberalism pagan and Christian virtue and the American Catholic church and politics The One and the Many Martin E. Marty, 1997 E pluribus unum no longer holds Out of the many have come as many claims and grievances all at war with the idea of one nation undivided The damage thus done to our national life as too few Americans seek a common good is Martin Marty's concern His book is an urgent call for repair and a personal testament toward resolution A world renowned authority on religion and ethics in America Marty gives a judicious account itself a rarity and a relief in our day of uncivil discourse of how the body politic has been torn between the imperative of one people one voice and the separate urgings of distinct identities racial ethnic religious gendered ideological economic Foreseeing an utter deadlock in public life with devastating consequences if this continues he envisions steps we might take to carry America past the new turbulence While the grand story of oneness eludes us and probably always will Marty reminds us that we do have a rich ever growing and ever more inclusive repertory of myths symbols histories and most of all stories on which to draw He pictures these stories with their diverse interpretations as part of a conversation that crosses the boundaries of groups Where argument polarizes and deafens conversation is open ended guided by questions allowing for inventiveness fair play and dignity for all It serves as a medium in Marty s broader vision which replaces the restrictive difficult and perhaps unattainable ideal of community with the looser more workable idea of

association An association of associations is what Marty contemplates and for the spirit and will to promote it he looks to eighteenth century motifs of sentiment and affection convergences of intellect and emotion that develop from shared experience And as this book so eloquently reminds us America however diverse is an experience we all share Goods Catherine Keller, Elias Ortega-Aponte, 2015-12-01 In the face of globalized ecological and economic crises how do religion the postsecular and political theology reconfigure political theory and practice As the planet warms and the chasm widens between the 1 percent and the global 99 what thinking may yet energize new alliances between religious and irreligious constituencies This book brings together political theorists philosophers theologians and scholars of religion to open discursive and material spaces in which to shape a vibrant planetary commons Attentive to the universalizing tendencies of the common the contributors seek to reappropriate the term in response to the corporate logic that asserts itself as a universal solvent In the resulting conversation the common returns as an interlinked manifold under the ethos of its multitudes and the ecology of its multiplicity Beginning from what William Connolly calls the palpable fragility of things Common Goods assembles a transdisciplinary political theology of the Earth With a nuance missing from both atheist and orthodox religious approaches the contributors engage in a multivocal conversation about sovereignty capital ecology and civil society The result is an unprecedented thematic assemblage of cosmopolitics and religious diversity of utopian space and the time of insurrection of Christian socialism radical democracy and disability theory of quantum entanglement and Religion and the Common Good Brian Stiltner, 1999-07-28 The term Ocommon planetarity of theology fleshly and political goodO has often been ill defined or undefined in political philosophical and theological discourses Brian Stiltner seeks to repair this deficit in his study Religion and the Common Good He explores the meaning of the common good and the prospects for pursuing it in a liberal society Focusing on the conceptions of common good in liberalism and communitarianism the former stressing individual rights and social tolerance the latter stressing a communityOs shared history and social practices Stiltner argues that the two theories are not as irreconcilable as they seem that they can be combined into a Ocommunal liberalism O Stiltner provides an outline of the twentieth century Catholic common good theory as an example of such a synthesis A fascinating study Religion and the Common Good will be an invaluable volume for Defining the Common Good Peter N. scholars of social ethics religion theology philosophy and political science Miller, 1994-06-16 The theme of this book is the crisis of the early modern state in eighteenth century Britain The revolt of the North American colonies and the simultaneous demand for wider religious toleration at home challenged the principles of sovereignty and obligation that underpinned arguments about the character of the state These were expressed in terms of the common good necessity and community concepts that came to the fore in early modern European political thought and which gave expression to the problem of defining legitimate authority in a period of increasing consciousness of state power The Americans and their British supporters argued that individuals ought to determine the common good of the community A

new theory of representation and freedom of thought defines the cutting edge of this revolutionary redefinition of the basic relationship between individual and community The Oxford Handbook of Religion and American Education Michael D. Waggoner, Nathan C. Walker, 2018-08-01 From the founding of Harvard College in 1636 as a mission for training young clergy to the landmark 1968 Supreme Court decision in Epperson v Arkansas which struck down the state s ban on teaching evolution in schools religion and education in the United States have been inextricably linked Still today new fights emerge over the rights and limitations of religion in the classroom The Oxford Handbook of Religion and American Education brings together preeminent scholars from the fields of religion education law and political science to craft a comprehensive survey and assessment of the study of religion and education in the United States The essays in the first part develop six distinct conceptual lenses through which to view American education including Privatism Secularism Pluralism Religious Literacy Religious Liberty and Democracy The following four parts expand on these concepts in a diverse range of educational frames public schools faith based K 12 education higher education and lifespan faith development Designed for a diverse and interdisciplinary audience this addition to the Oxford Handbook series sets for itself a broad goal of understanding the place of religion and education in a modern democracy The Wiley Blackwell Companion to Religion and Ecology John Hart, 2017-03-24 In the face of the current environmental crisis which clearly has moral and spiritual dimensions members of all the world's faiths have come to recognize the critical importance of religion's relationship to ecology The Wiley Blackwell Companion to Religion and Ecology offers a comprehensive overview of the history and the latest developments in religious engagement with environmental issues throughout the world Newly commissioned essays from noted scholars of diverse faiths and scientific traditions present the most cutting edge thinking on religion s relationship to the environment Initial readings explore the ways traditional concepts of nature in Christianity Judaism Islam Buddhism and other religious traditions have been shaped by the environmental crisis Readings then address the changing nature of theology and religious thought in response to the challenges of protecting the environment Various conceptual issues and themes that transcend individual traditions climate change bio ethics social justice ecofeminism and more are then analyzed before a final section examines some of the immediate challenges we face in caring for the Earth while looking to the future of religious environmentalism Timely and thought provoking Companion to Religion and Ecology offers illuminating insights into the role of religion in the ongoing struggle to secure the future well being of our natural world With a foreword by Ecumenical Patriarch Bartholomew I and an Afterword by John Cobb "Public Religion" and the Pancasila-based State of Indonesia Benyamin Fleming Intan, 2006 Public Religion and the Pancasila Based State of Indonesia An Ethical and Sociological Analysis analyzes the public role of religion in Indonesian society from the pre independence period to the end of Suharto's New Order government It offers constructive suggestions regarding how Indonesian religion can play a significant role within the framework of Pancasila Indonesia's national ideology Based on a Christian Muslim dialogue it is only within

the realm of civil society that Indonesian religion will be able to promote the ideas of democracy tolerance and human rights in Indonesian public affairs In short far from being anti pluralist Indonesian religion evolves as a liberating force in the life of society nation and state Religion in Diverse Societies Pauline Kollontai, Sue Yore, 2024-11-11 Religion in Diverse Societies Crossing the Boundaries of Prejudice and Distrust contributes to existing cutting edge research on the constructive way in which religion can support the promotion of respect dignity and justice for all people considered as essential features in shaping sustainable diverse and peaceful societies Through a combination of theoretical perspectives and theological analysis applied to real life contexts the diverse contributions examine the role of religion in helping to achieve this and thereby challenge the attitudes and practices that create walls of prejudice and distrust This timely volume provides a critical discussion of the complex role of religions in the public and political spheres in a range of global contexts and furthers the inter religious international and interdisciplinary understanding of how religion can contribute to promoting and helping create inclusive and diverse societies Business and Religion Nicholas Capaldi, 2005 The Global Impact of Religious Violence Andre Gagne, Spyridon Loumakis, Calogero A. Miceli, 2016-10-25 Acts of terror are everywhere Not one day goes by without hearing about the latest suicide bomb in Baghdad knife stabbing in Germany or shooting spree in France or in the United States A Christian extremist preacher claims that homosexuals deserve to die because he considers their lifestyle to be sinful groups like ISIS perpetrate genocide against religious minorities and call for global jihad against infidels Buddhist monks in Myanmar persecute the Rohingya for fear that the Muslim minority destroy their country and religion All these actions seem to be somehow religiously motivated where the actors claim to act in accordance with their beliefs In the midst of this spiral of violence seen across traditions and geographical locations there is a pressing need to understand why people act as such in the name of their faith The Global Impact of Religious Violence examines why individuals and groups sometimes commit irremediable atrocities and offers some solutions on how to counter religiously inspired violence

Fundamental Rights, Religion and Human Dignity Javier Martínez-Torrón, Li-ann Thio, 2024-12-02 This collection examines theoretical and practical issues concerning the relationship between freedom of religion or belief and other fundamental rights in the context of secular States from the perspective of human dignity As the Universal Declaration of Human Rights made clear human dignity constitutes the foundation of human rights among which freedom of thought conscience and religion occupies a prominent place As a consequence of the inter cultural debate that is ongoing in contemporary Western societies which are increasingly pluralistic the concept of human dignity faces important challenges in terms of what it requires The five chapters included in the first part of this book discuss some of these conceptual challenges such as the implications of common good constitutionalism for the understanding of human dignity and the role of religious freedom from the perspective of Western experiences and legal thinkers The chapters in Part II explore particular questions involving human dignity and the relationship between freedom of religion or belief and other human rights for

example how to build bridges between religious freedom and other fundamental freedoms when people make conflicting legitimate choices Taken together the book offers an insightful range of perspectives on some contemporary challenges raised by the exercise of religious freedom in societies that claim to be based on respect for human dignity and human rights The volume will be a valuable resource for academics researchers and policy makers working in the areas of Law and Religion Human Rights Law Constitutional Law and International Relations Rawls and Religion Daniel A. Dombrowski, 2001-05-24 Employs the political philosophy of John Rawls to address controversies involving politics and Is This God's Country? Robert Audi, 2024 Why think America is God's country What is a religion Religion as an engine of law making Ethics and democracy why should a religious nation tolerate irreligion Public education why shouldn t public education endorse the religious values of the nation Religion democracy and economic liberty why can t owners of a business run it as they like Healthcare in America why should government be allowed to override religious preferences The civic responsibilities of citizens do unto others a moral and religious standard Can we integrate morality politics and religion Civil discourse as a challenge for citizens and government Can America be Christian Battleground: Religion Daniel L. Smith-Christopher, 2008-12-30 Is there a controversial issue in the contemporary world that does not involve religion Whether it s a debate over the beginning of life or on sexuality and family life or on the stewardship of humans over the environment almost all of the most contentious matters that impact today s society involve people s deeply held religious beliefs Battleground Religion helps clarify these complex topics by examining how various religious beliefs and practices impact current political social and cultural debates Each of the approximately 100 entries examines a hot button issue from war and peace to the culture wars and discusses in a balanced and objective way the points of view on these topics from all parts of the religious spectrum Students will come away from Battleground Religion with a better understanding of the issues that they will be encountering for years to come Each entry includes a bibliography or resources for further information

The Oxford Handbook of Religion and Ecology Roger S. Gottlieb,2006-11-09 The last two decades have seen the emergence of a new field of academic study that examines the interaction between religion and ecology Theologians from every religious tradition have confronted world religions past attitudes towards nature and acknowledged their own faiths complicity in the environmental crisis Out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of God the Sacred the Earth and human beings The proposed handbook will serve as the definitive overview of these exciting new developments Divided into three main sections the books essays will reflect the three dominant dimensions of the field Part one will explore traditional religious concepts of and attitudes towards nature and how these have been changed by the environmental crisis Part II looks at larger conceptual issues that transcend individual traditions Part III will examine religious participation in environmental politics

The Political Problem of Religious Pluralism Thaddeus J. Kozinski, 2012-07-10 In contemporary

political philosophy there is much debate over how to maintain a public order in pluralistic democracies in which citizens hold radically different religious views The Political Problem of Religious Pluralism deals with this theoretically and practically difficult issue by examining three of the most influential figures of religious pluralism theory John Rawls Jacques Maritain and Alasdair MacIntyre Drawing on a diverse number of sources Kozinski addresses the flaws in each philosopher s views and shows that the only philosophically defensible end of any overlapping consensus political order must be the eradication of the ideological pluralism that makes it necessary In other words a pluralistic society should have as its primary political aim to create the political conditions for the communal discovery and political establishment of that unifying tradition within which political justice can most effectively be obtained Kozinski s analysis though exhaustive and rigorous still remains accessible and engaging even for a reader unversed in the works of Rawls Maritain and MacIntyre Interdisciplinary and multi thematic in nature it will appeal to anyone interested in the intersection of religion politics and culture The Palgrave Handbook of Religion and State Volume I Shannon Holzer, 2023-10-11 The Palgrave Handbook of Religion and State Volume I Theoretical Perspective deals with the relationship between Religion and its long history that has played out throughout time and across the globe Countries in Africa the Middle East and Europe approach the subject of religion and the state in various ways While the word religion to westerners usually brings Christianity to mind in Japan it is Shintoism and Buddhism Volume II offers chapters on the relationship of both Shintoism and Buddhism to the Japanese state It is very easy to see how the deeply traditional Japanese citizens may come into conflict with the strictly secular Japanese state It also contains chapters about mosque and state as well as synagogue and state

Adopting the Melody of Phrase: An Mental Symphony within Religion And The Common Good

In a global consumed by screens and the ceaseless chatter of fast communication, the melodic beauty and emotional symphony created by the published term usually disappear into the background, eclipsed by the persistent noise and interruptions that permeate our lives. But, situated within the pages of **Religion And The Common Good** a stunning literary value full of natural thoughts, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that interesting masterpiece conducts visitors on an emotional trip, well unraveling the concealed songs and profound impact resonating within each cautiously constructed phrase. Within the depths of the poignant evaluation, we shall discover the book is key harmonies, analyze its enthralling publishing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
