Williams,2013 This work seeks to explore the contemporary challenge of government in multicultural societies drawing together a wide range of contributors to examine how ethnic difference could better understood and mediated by modern nation states Divided into three sections the book centres round the notion that changing patterns of migration bring escalating obstacles to integration or assimilation In the first section contributors focus on the theory that immigrants are the actors that catalyze contemporary multicultural dilemmas within states with a particular focus on diaspora and how a diaspora community may differ in some ways from other kinds of immigrant community Section two identifies key factors in shaping ethnic identity before moving on to examine the state of the debate over whether identity can be changed or manipulated The contributors to this section provide valuable insights into the catalysts and causes of ethnic division and tension by showing factors in the development of ethnic identity In the third section the focus turns to strategies for mediating multicultural challenges and managing internal diversity in multicultural society offering structural and institutional solutions with evidence of application in specific cases and country contexts Offering a comprehensive overview of this pressing issue and drawing on a wide range of case studies this work will be of interest to students and scholars of migration political sociology race and ethnic studies   South Asian Christian Diaspora Knut A. Jacobsen,Selva J. Raj,2008 The South Asian Christian diaspora is largely invisible in the literature about religion and migration This is the first comprehensive study of South Asian Christians living in Europe and North America presenting the main features of these diasporas their community histories and their religious practices The authors present a great variety of Christian traditions The South Asian Christian Diaspora is pluralistic both in terms of religious adherence cultural tradition and geographical areas of origin This book gives justice to this pluralism and presents a multiplicity of cultures and traditions typical of the South Asian Christian diaspora Issues such as the institutionalization of the religious traditions in new countries identity the paradox of belonging both to a minority immigrant group and a majority religion the social functions of rituals attitudes to language generational transfer and marriage and family life are all discussed   THEORY OF INDIAN DIASPORA: DYNAMICS OF GLOBAL MIGRATION Dr. Madhu Tyagi,2017-01-01 In recent years the term diaspora has been more frequently used to characterise peoples existing away from their homelands Khachig To lo lyan editor of the journal Diaspora asserts that the term that once described Jewish Greek and Armenian dispersion now shares meanings with a larger semantic domain that includes words like immigrant expatriate refugee guest worker exile community overseas community and ethnic community Generally speaking then this mosaic of Indian identities abroad is presented as the mirror of India itself India is diverse and so too are its migrants It is acknowledged that Indian migrants abroad tend to reproduce their own religions family patterns and cultures as much as possible One is the prefix Indian And the other is the term dia spora The implication of the first is that there is a single India with its people who are somehow united under one flag This is far from obvious India has been described as a nation and its fragments or an invented nation
