**Religion and AIDS in Africa** Jenny Trinitapoli, Alexander Weinreb, 2012-08-16 The first comprehensive empirical account of how religion affects the interpretation prevention and mitigation of AIDS in Africa the world's most religious continent      *Readings in Sexualities from Africa* Rachel Spronk, Thomas Hendriks, 2020-02-04 Images and stories about African sexuality abound in today's globalized media Frequently old stereotypes and popular opinion inform these stories and sex in the media is predominately approached as a problem in need of solutions and intervention The authors gathered here refuse an easy characterization of African sexuality and instead seek to understand the various erotic realities sexual practices and gendered changes taking place across the continent They present a nuanced and comprehensive overview of the field of sex and sexuality in Africa to serve as a guide through the quickly expanding literature This collection offers a set of texts that use sexuality as a prism for studying how communities coalesce against the canvas of larger political and economic contexts and how personal lives evolve therein Scholars working in Africa the U S and Europe reflect on issues of representation health and bio politics same sex relationships and identity transactional economies of sex religion and tradition and the importance of pleasure and agency This multidimensional reader provides a comprehensive view of sexuality from an African perspective      **Public Religion and the Politics of Homosexuality in Africa** Adriaan van

Klinken, Ezra Chitando, 2016-04-14 Issues of same sex relationships and gay and lesbian rights are the subject of public and political controversy in many African societies today Frequently these controversies receive widespread attention both locally and globally such as with the Anti Homosexuality Bill in Uganda In the international media these cases tend to be presented as revealing a deeply rooted homophobia in Africa fuelled by religious and cultural traditions But so far little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them This is the first book with multidisciplinary perspectives on religion and homosexuality in Africa It presents case studies from across the continent from Egypt to Zimbabwe and from Senegal to Kenya and covers religious traditions such as Islam Christianity and Rastafarianism The contributors explore the role of religion in the politicisation of homosexuality investigate local and global mobilisations of power critically examine dominant religious discourses and highlight the emergence of counter discourses Hence they reveal the crucial yet ambivalent public role of religion in matters of sexuality social justice and human rights in contemporary Africa

*HIV / AIDS* Margaret U. D'Silva, Joy L. Hart, 2009-05-05 Stating that HIV AIDS is a colossal public health problem is a vast understatement Its effects extend to all reaches of the globe and its toll is enormous The most recent statistics on HIV infections people living with HIV AIDS and AIDS related deaths are jolting Current realities historical data and future projections clearly indicate that much more action is needed to prevent new infections and curb the effects of HIV AIDS Rather than a single global strategy for HIV AIDS prevention programs must be developed and implemented with an awareness of local regional national and international conditions Our hope for this book is that additional insight into HIV AIDS prevention can be garnered and the ideas generated here will spur new efforts and improve existing ones The chapters in this book explore how health communication researchers and practitioners continue to play critical roles in lessening the spread of HIV and the devastating impacts of HIV AIDS locally regionally and globally The book's three sections general prevention global context and specific contexts address a range of topics Chapters range from formative research to message construction and processing e.g. difficulties in communicating statistical information understanding risk messages address geographical regions from Africa and Asia to Central America and the Caribbean and examine specific contexts from university students to later life adults as well as African Americans and persons living with HIV AIDS Because there is currently neither a cure for HIV AIDS nor a vaccine to prohibit infection the concluding chapter reinforces the book's main premises behavior change as the key to prevention and health communication work as crucial to achieving such change

Botswana Part II of the book focuses on the Christian religion and comprises of four chapters Part III comprises of three chapters discussing other religious groups apart from Christianity Part IV addresses the role of culture and religion in HIV and AIDS response in Botswana With several attempts to mainstream HIV and AIDS in education both in schools and in tertiary institutions the book serves both the academic and research community at national and international levels It does not serve only those studying religion but all who address issues of HIV and AIDS from whatever field of study Religion and Sexuality in Cross-Cultural Perspective Stephen Ellingson, M. Christian Green, 2014-03-18 Issues of sexuality and gender are hotly contested in both religious communities and national cultures around the world In the social sciences religious traditions are often depicted as inherently conservative or even reactionary in their commitments to powerful patriarchal and pronatalist sexual norms and gender categories In illuminating the practices of religious traditions in various cultures these essays expose the diversity of religious rituals and mythologies pertaining to sexuality In the process the contributors challenge conventional notions of what is normative in our sexual lives **Religion and AIDS Treatment in Africa** Hansjörg Dilger, Thera Rasing, 2016-04-08 This book critically interrogates emerging interconnections between religion and biomedicine in Africa in the era of antiretroviral treatment for AIDS Highlighting the complex relationships between religious ideologies practices and organizations on the one hand and biomedical treatment programmes and the scientific languages and public health institutions that sustain them on the other this anthology charts largely uncovered terrain in the social science study of the Aids epidemic Spanning different regions of Africa the authors offer unique access to issues at the interface of religion and medical humanitarianism and the manifold therapeutic traditions religious practices and moralities as they co evolve in situations of AIDS treatment This book also sheds new light on how religious spaces are formed in response to the dilemmas people face with the introduction of life prolonging treatment programmes *Provoking Religion* Anthony Michael Petro, Petro, 2025 In the late twentieth century artists were on the front lines of the culture wars Leaders of the Christian Right in the U S made a national spectacle out of feminist and queer art blasting it as sacrilegious or pornographic and sometimes both On the bully pulpits of television and talk radio as well as in the halls of Congress conservatives denounced artists ranging from Robert Mapplethorpe and Judy Chicago to Marlon Riggs and David Wojnarowicz Conservatives alarmed by shifting sex and gender norms collided with progressive artists who were confronting sexism homophobia and racism In *Provoking Religion* Anthony Petro offers a compelling new history of the culture wars that places competing moralities of gender and sexuality alongside competing visions of the sacred The modern culture wars he shows are best understood not as contests pitting religious conservatives against secular activists but as a series of ongoing historical struggles to define the relationship between the sacred and the political Through captivating case studies of subversive artists *Provoking Religion* illuminates the underside of the culture wars revealing how progressive artists and activists rendered from those most apparently profane aspects of human life the stuff of conservatives worst nightmares their

own haunting visions of the sacred

**AIDS and American Apocalypticism** Thomas Lawrence Long, 2012-02-01 Since public discourse about AIDS began in 1981 it has characterized AIDS as an apocalyptic plague a punishment for sin and a sign of the end of the world Christian fundamentalists had already configured the gay male population most visibly affected by AIDS as apocalyptic signifiers or signs of the end times Their discourse grew out of a centuries old American apocalypticism that included images of crisis destruction and ultimate renewal In this book Thomas L Long examines the ways in which gay and AIDS activists artists writers scientists and journalists appropriated this apocalyptic rhetoric in order to mobilize attention to the medical crisis prevent the spread of the disease and treat the HIV infected Using the analytical tools of literary analysis cultural studies performance theory and social semiotics **AIDS and American Apocalypticism** examines many kinds of discourse including fiction drama performance art demonstration graphics and brochures biomedical publications and journalism and shows that while initially useful the effects of apocalyptic rhetoric in the long term are dangerous Among the important figures in AIDS activism and the arts discussed are David Drake Tim Miller Sarah Schulman and Tony Kushner as well as the organizations ACT UP and Lesbian Avengers

### **Religion and Development in Southern and Central Africa: Vol 1**

Amanze, James N., Masango, Maahe, 2019-12-09 This book is a result of a joint conference which was held from 18th-22nd July 2017 under the theme Religion, Citizenship and Development: Southern African Perspectives. The theme of the conference was adopted in order to underline the importance and significance of religion in the socio-economic development of people in the world generally and in Southern and Central Africa in particular. The papers in the book are divided into two volumes. Volume one consists of papers which directly discuss religion and development in one form or another. The second volume contains papers that discuss religion and other pertinent issues related to development. The papers are grouped into sub-themes for ease of reference. These include Citizenship and Development, Migration and Development, Disability and Development, Pentecostal Churches and Development, and Religion and Society. All in all, despite a divergence of sub-themes in volume two, all point to issues to do with the role of religion in development in Southern and Central Africa today.

**African Indigenous Religious Traditions in Local and Global Contexts** Ogungbile, David O., 2015-09-23 This volume honours one of the great scholars of our era, Professor Jacob Olupona. Although he has conducted significant portions of his career outside of Nigeria, he has not separated himself from his colleagues or from interests in religions in Nigeria and elsewhere in Africa. His publications and presentations offer the international scholarly community important critical insights into a range of religious activities, life ways and ideas originating in Africans and the African Diaspora. In spite of the diversity in the thoughts and opinions expressed and equally of the range of disciplines and topics contained in the book, one can say that the contributors have developed a shared concern about the role of African Indigenous Religious Traditions in the processes of development and the context within which it has developed or is taking place. The book guides us to a deep understanding and appreciation of how Africans in their varied situations grapple with existential problems through philosophical ruminations, complex ritual processes, cultivated memory and organized coping strategies. That all may live!
