A Christian America Restored Robert Glenn Slater, 2019-08-13 Protestant evangelical Christian schools are the fastest growing segment of American private school education Despite their notable individual autonomy these schools have retained a consistent belief system and mission over several decades Private religious schools can be traced to our nation's earliest origins Why is it that these unique educational institutions arose in twentieth century America and have continued to thrive A Christian America Restored seeks to delve into the beginnings of private Christian schools and discovers that while they are relatively new on the educational landscape of America their roots are actually quite deep connecting with the ongoing dreams of our nation's conservative evangelicals

Between Church and State James W. Fraser, 2000-09-02 Today the ongoing battle between religion and public education is once again a burning issue in the United States Prayer in the classroom the teaching of creationism the representation of sexuality in the classroom and the teaching of morals are just a few of the subjects over which these institutions are skirmishing James Fraser shows that though these battles have been going on for as long as there have been public schools there has never been any consensus about the proper relationship between religion and public education Looking at the most difficult question of how private issues of faith can be reconciled with the very public nature of schooling Fraser paints a picture of our multicultural society that takes our relationship with God into account

Education Reform Craig S. Engelhardt, 2013-04-01 Education Reform proposes and defends an alternate paradigm of public education It challenges secular education as a failed educational model and proposes an alternate model with far reaching potential It reveals how secular schools have insufficient resources to support the public s educational interests while religious schools within a plural public education system have the superior capacity to nurture citizens with the moral intellectual and civic qualities of good citizenship The fulcrum upon which Engelhardt s argument rests is the recognition that beliefs and values of a religious nature not only provide motivating frameworks for individual life but also they naturally provide core sources of meaning understanding and motivation for education efforts Whereas secular schools avoid these ideological resources they potentially suffuse the curriculum climate and community of religious schools to increase their educational success Thus this book argues that the move to a plural public education system in which families are free to choose either secular or publicly supportive religious schools will advance the educational interests of America This argument is developed in three parts The first entails a multi chapter analysis of education history to discern the relationship between religion and the public s education goals By tracing ways in which religion is a key resource for curricular meaning parent buy in rational thought individual morality public unity and academic inspiration it correlates school secularization with many of our current education problems Part two engages criticisms that may arise from this reform proposal such as concerns regarding autonomy deliberative skills equity and public cohesion Part three illumines superior ways in which religious schools can address the public s educational concerns The

book concludes by proposing ideas and principles to guide the development of an American plural public education system that allow the public to draw from the strengths of religious schools without secularizing them in the process or breaching church state boundaries **A History of the Foundations of Catholic Education** ,Dr. Ant,2022-05-04 St John Neumann established the parochial school system in the United States of America The Roman Catholic school system has been the pioneer of the national organized educational system in our country as well as the standard of success in pedagogy In AD 1950 there were more than eleven thousand Catholic elementary schools in America sadly there are only around twelve hundred still functioning The title of this work serves as a hallmark and a means of exaltation for the contributions made by the Roman Catholic Church in the field of education *Homeschool* M.
