contradiction of idealism and materialism of subjectivism and objectivism which belongs to the inmost nature of religion But the sacraments are nothing without Faith and Love Hence the contradiction in the sacraments carries us back to the primary contradiction of Faith and Love The essence of religion its latent nature is the identify of the divine being with the human but the form of religion or its apparent conscious nature is the distinction between them God is the human being but he presents himself to the religious consciousness as a distinct being Now that which reveals the basis the hidden essence of religion is Love that which constitutes its conscious form is Faith Love identifies man with God and God with man consequently it identifies man with man faith separates God from man consequently it separates man from man for God is nothing else than the idea of the species invested with a mystical form the separation of God from man is therefore the separation of man from man the unloosening of the social bond By faith religion places itself in contradiction with morality with reason with the unsophisticated sense of truth in man by love it opposes itself again to this contradiction Faith isolates God it makes him a particular distinct being love universalises it makes God a common being the love of whom is one with the love of man Faith produces in man an inward disunion a disunion with himself and by consequence an outward disunion also but love heals the wounds which are made by faith in the heart of man Faith makes belief in its God a law love is freedom it condemns not even the

Christian Faith as Religion Paul E. Capetz, 2011-05-26 Christian Faith as Religion investigates the theologies of John Calvin and Friedrich Schleiermacher with respect to the questions What is Religion and What is Christian Religion The author argues that the classical and liberal exemplars of Protestant theology are best compared when these two questions are thoroughly examined and calls into question the contention of neo orthodox theologians Karl Barth and Emil Brunner that Schleiermacher's theological use of the category religion signifies a departure from the tradition of the Reformation He offers a revised comparative framework that discloses the material and formal similarities between Calvin and Schleiermacher with respect to their employment of the categories religion and revelation and allows the historical theologian to delineate the trajectory that accounts for both continuity and discontinuity in the transition from classical to modern Protestant theology This allows the systematic hermeneutical question of a contemporary Protestant theology informed by the historical and philosophical study of religion to be taken up anew

Why Philosophy Matters for the Study of Religion - and Vice Versa Thomas A. Lewis, 2015 Work in philosophy of religion is still strongly marked by an excessive focus on Christianity and to a lesser extent Judaism almost to the exclusion of other religious traditions Moreover in many cases it has been confined to a narrow set of intellectual problems without embedding these in their larger social historical and practical contexts Why Philosophy Matters for the Study of Religion and Vice Versa addresses this situation through a series of interventions intended to work against the gap that exists between much scholarship in philosophy of religion and important recent developments that speak to religious studies as a whole This volume takes up what in recent years has often been seen as a fundamental reason for excluding religious ethics and philosophy of religion from religious studies their explicit normativity Against this presupposition Thomas A Lewis argues that normativity is pervasive not unique to ethics and philosophy of religion and therefore not a reason to exclude them from religious studies Lewis bridges more philosophical and historical subfields by arguing for the importance of history to the philosophy of religion He considers the future of religious ethics explaining that the field as a whole should learn from the methodological developments associated

with recent work in comparative religious ethics and comparative religious ethics should no longer be conceived as a distinct subfield The concluding chapter engages broader post 9 11 arguments about the importance of studying religion arguing that prominent contemporary notions of religious literacy actually hinder our ability to grasp religion s significance and impact in the world today

Elements of the Science of Religion: Ontological, being the Gifford lectures delivered before the University of Edinburgh in 1898 Cornelis Petrus Tiele,1899

Schleiermacher on Religion and the Natural Order Andrew Dole,2010 Friedrich Schleiermacher 1768 1834 is best known as the father of liberal Protestant theology largely on the strength of his massive work of systematic theology *The Christian Faith* In this book Andrew Dole presents a new account of Schleiermacher s theory of religion Dole argues that Schleiermacher integrates the individualistic side of religion with a set of claims about its social dynamics and that this takes place within a broader understanding of all events in the world as the product of a universal law governed causal nexus

The World's Religions Peter Clarke,Friedhelm Hardy,Leslie Houlden,Stewart Sutherland,2004-01-14 Gives an account of the history the theological basis the practice and the current state of the study of religion and religions throughout the world Combines a clear and non technical style of presentation with a structure and range of contributions which reflect the richness and complexity of religion itself of the religions of the world and the study of religions Comprehensive index bibliographies and suggestions for further reading Intriguing philosophical questions are raised about the nature of religion and the qualities needed for studying it Times Higher Education Supplement Excellent book remarkably successful impressive as much for the sheer scale of the undertaking as for its consistent standard of analysis It is a fine achievement which will serve both as a very suitable textbook for students and a reliable guide to the state of scholarship in the History and Study of Religions Heythrop Journal
