Religion Love Or Hate:

Religion - Love Or Hate? David Kirshenbaum, 1974 The Oxford Handbook of Religion and Emotion John Corrigan, 2008-01-02 The academic study of religion recently has turned to the investigation of emotion as a crucial aspect of religious life Researchers have set out in several directions to explore that new terrain and have brought with them an assortment of instruments useful in charting it This volume collects essays under four categories religious traditions religious life emotional states and historical and theoretical perspectives In this book scholars engaged in cutting edge research on religion and emotion describe the ways in which emotions have played a role in Buddhism Christianity Judaism Islam and other religions They analyze the manner in which key components of religious life ritual music gender sexuality and material culture represent and shape emotional performance Some of the essays included here take a specific emotion such as love or hatred and observe the place of that emotion in an assortment of religious traditions and cultural settings Other essays analyze the thinking of figures such as St Augustine Soren Kierkegaard Jonathan Edwards Emile Durkheim and William James This collection offers a range of critical perspectives on the academic study of religion and emotion in the form of syntheses provocations and prospective observations that will inform the work of those already engaged in the field Taken together the writings included in this handbook serve as an ideal entry point for anyone wishing to familiarize themselves with the new academic study of religion and emotion **Faith, Hope, and Love** Troy DuJardin, M. David Eckel, 2022-07-22 These essays consider the three traditional theological virtues faith hope and love alongside their opposites doubt despair and hate from a scholarly perspective The volume includes contributions not just from philosophers of religion but also from psychologists sociologists and film and literature scholars to paint a complex and nuanced picture of these virtues both of how we might understand them and how we can hope to embody them ourselves While these virtues make up a core part of the Christian tradition the chapters here go far and wide in search of different cultural conceptions of these universal human concerns Inquiries are made into these virtues within Hindu Buddhist Jewish and Islamic thought alongside philosophers including Aristotle Hegel Kierkegaard Nietzsche Levinas and Murdoch The resulting tapestry is often beautiful sometimes horrific but always thoroughly human This text appeals to students and researchers working in these fields Chapter 9 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Untangling Terrorism from Religion: A Deeper Look into the Roots of Violent Extremism Sarwat Parvez, 2025-06-08 Terrorism has long haunted modern societies capturing the attention of governments media outlets and the public alike In the rush to explain the inexplicable many turn to religion as the root cause But this simplistic and often biased interpretation overlooks the true complexity behind acts of terror Terrorism is not born from faith alone it is deeply entangled with political social and psychological conditions No single religion has a monopoly on violence and framing terrorism as inherently religious only hinders our understanding and our ability to respond effectively

Religion of Life John G. Manly, 1875 Law and Religion in Public Life Nadirsyah Hosen, Richard Mohr, 2011-04-27 The book is unique in bringing together leading scholars and respected religious leaders to address contemporary issues in the relationship of law religion and the state The book highlights the interaction between secular law and religion with particular attention being given to the implications for law and society religious tolerance and freedom The book focuses on the practical and topical issues that have arisen in recent years in Australia As one of the most ethnically diverse countries in the world a pioneer of multicultural policies in immigration and social justice Australia is a revealing site for contemporary studies in a world afraid of immigration and terrorism issues that are affecting much of the globe

Revival of Religion's Sciences (Ihya Ulum ad-din) 1-4 Vol 2 Abi Hamed al Ghazali, 2010-01-01 Trauma, Religion and Spirituality in Germany during the First World War Jason Crouthamel, 2021-10-21 This book explores the impact of violence on the religious beliefs of front soldiers and civilians in Germany during the First World War The central argument is that religion was the main prism through which men and women in the Great War articulated and processed trauma Inspired by trauma studies the history of emotions and the social and cultural history of religion this book moves away from the history of clerical authorities and institutions at war and instead focuses on the history of religion and war from below Jason Crouthamel provides a fascinating exploration into the language and belief systems used by ordinary people to explain the inexplicable From Judeo Christian traditions to popular beliefs and superstitions German soldiers and civilians depended on a malleable psychological toolbox that included a hybrid of ideas stitched together using prewar concepts mixed with images or experiences derived from the surreal environment of modern combat Perhaps most interestingly studying the front experience exposes not only lived religion but also how religious beliefs are invented Front soldiers in particular constructed new subjective spiritual and religious concepts based on encounters with industrialized weapons the sacred experience of comradeship and immersion in mass death which profoundly altered their sense of self and the supernatural More than just a

coping mechanism religious language and beliefs enabled victims and perpetrators of violence to narrate concepts of psychological renewal and rebirth In the wake of defeat and revolution religious concepts shaped by the war experience also became a cornerstone of visions for radical political movements including the National Socialists to transform a shattered and embittered German nation Making use of letters between soldiers and civilians diaries memoirs and front newspapers Trauma Religion and Spirituality in Germany during the First World War offers a unique glimpse into the belief systems of men and women at a turning point in European history

Philosophical Provocations Colin McGinn, 2017-08-18 Pithy direct and bold essays that propose new ways to think about old problems spanning a range of philosophical topics In Philosophical Provocations Colin McGinn offers a series of short sharp essays that take on philosophical problems ranging from the concept of mind to paradox altruism and the relation between God and the Devil Avoiding the usual scholarly apparatus and embracing a blunt pithiness McGinn aims to achieve as much as possible in as short a space as possible while covering as many topics as possible Much academic philosophical writing today is long leaden citation heavy dense with qualifications and painful to read The essays in Philosophical Provocations are short direct and engaging often challenging philosophical orthodoxy as they consider issues in mind language knowledge metaphysics biology ethics and religion McGinn is looking for new ways to think about old problems Thus he writes about consciousness I

think we have been all wrong and goes on to suggest that both consciousness and the unconscious are mysteries Summing up his proposal on altruism he remarks My suggestion can now be stated somewhat brutally as follows human altruism is the result of parasitic manipulation He takes a moment to reflect I really don't know why it is good to be alive though I am convinced that the standard suggestions don't work McGinn gets straight to the point and states his position with maximum clarity These essays offer provocative invitations to think again Encyclopaedia of Religion and Ethics James Hastings, John Alexander Selbie, Louis Herbert Gray, 1911 Six thousand illustrations of moral and religious truths Cyclopaedia, John Bate, 1888 **Religious Telescope** ,1900 **The Bible for Young People** Henricus Oort, Abraham Kuenen, 1876 **The Bible for Young People: Narratives of the New Testament** Henricus Oort, 1876 **The Charismatic Community** Maria Massi Dakake, 2012-02-01 The Charismatic Community examines the rise and development of Shiite religious identity in early Islamic history analyzing the complex historical and intellectual processes that shaped the sense of individual and communal religious vocation The book reveals the profound and continually evolving connection between the spiritual ideals of the Shiite movement and the practical processes of community formation Author Maria Massi Dakake traces the Quranic origins and early religious connotations of the concept of *walayah* and the role it played in shaping the sense of communal solidarity among followers of the first Shiite Imam Ali b Abi Talib Dakake argues that *walayah* pertains not only to the charisma of the Shiite leadership and devotion to them but also to solidarity and loyalty among the members of the community itself She also looks at the ways in which doctrinal developments reflected and served the practical needs of the Shiite community the establishment of identifiable boundaries and minimum requirements of communal membership the meaning of women's affiliation and identification with the Shiite movement and Shiite efforts to engender a more normative and less confrontational attitude toward the non Shiite Muslim community *Politics and Religion in France and the United States* Alec G. Hargreaves, John Kelsay, Sumner B. Twiss, 2007-01-01 Religion and Politics in France and the United States compares the current status and views of Jews Christians and Muslims regarding political life in two states Longstanding traditions of laicity and of constitutional law frame discussions of political speech voting patterns and attempts to deal with demographic and cultural shifts characteristic of French and American societies Papers by leading scholars demonstrate the ways that historical experience sheds light on current events how it is for example that previous efforts to deal with religious difference affect current approaches to the display of religious symbols in state schools or how the struggles of minority groups for recognition affect voting patterns One question running throughout the volume is what can French and American policymakers and citizens learn from one another as they seek to deal with the challenges presented by contemporary life This book is suitable for advanced undergraduate and graduate students Religious Anarchism Alexandre J. M. E. Christoyannopoulos, 2009-10-02 Both religion and anarchism have been increasingly politically active of late This edited volume presents twelve chapters of fresh scholarship on diverse facets of the area where they meet religious anarchism The

book is structured along three themes early Christian anarchist pioneers including Pelagius Coppe Hungarian Nazarenes and Dutch Christian anarchists Christian anarchist reflections on specific topics such as Kierkegaardian indifference Romans 13 Dalit religious practice and resistance to race and nation religious anarchism in other traditions ranging from Wu Nengzi s Daoism and Rexroth s Zen Buddhism to various currents of Islam including an original Anarca Islamic clinic This unique book therefore furthers scholarship on anarchism on millenarian and revolutionary thinkers and movements and on religion and politics It is also of value to members of the wider public interested in radical politics and in the political implications of religion And of course it is relevant to those interested in any of the specific themes and thinkers focused on within individual chapters In short this book presents a range of innovative perspectives on a web of topics that while held together by the common thread of religious anarchism also speaks to numerous broader themes which have been increasingly prominent in the twenty first century

Death and Religion in a Changing World Kathleen Garces-Foley, 2006 Looking at how religious people approach death in the twenty first century this is a comprehensive study of the intersection of death and religion It describes how people from a variety of faiths draw on and adapt traditional beliefs and practices as they deal with death in modern societies
