The Origin of Religions B. K. Karkra, 2012 THE BOOK The book is an open eyed journey through the mystic world of faith It is an intellectually stimulating account of the birth of religions As animal for definite have no religions and intelligence is

the dividing line between man and animal it should be amply clear that religions have risen out the thinking faculty of man These are about God and His creation alright but not from God though human brain itself is a gift from God The book traces the story of religions from the earliest times and tries to reach to the core of all major belief systems of the world Towards the end it draws a sort of balance sheet of the religions to form an idea what good and bad these have done to the mankind An effort has also been made to have a peep into their future *The History of Religions* Ugo Bianchi,1975 **The Encyclopedia of World Religions** Robert S. The Heartbeat of Indigenous Africa R. Sambuli Mosha, 2002-12-24 Empowered by findings and insights from the wit and wisdom of the indigenous Chaga educational system Dr Mosha contends that an authentic educational program in Tanzania and elsewhere should be holistic in its unrelenting quest to educate the entire person body mind and spirit He provides a comprehensive description of the indigenous schooling process and its underlying fundamental virtues and then proposes that modern education should give equal emphasis to both the spiritual development of students as well as to their intellectual growth in knowledge science and technology Dr Mosha argues that for its own advantage and survival education has to prioritize moral consciousness and responsibility in its students in order to attain academic excellence Without a consistent moral living and moral action by all who teach and learn education eventually plunges into hopeless mediocrity It becomes the proverbial salt which loses its saltiness This book provides several unique contributions to the academy First it illustrates how the Chaga people of N Tanzania cherish everyday experience and every here and now situation as teachable moments teaching moments and learning moments It is also uniquely rich in its description of stories riddles proverbs and rituals as powerful tools of holistic education Thirdly the book breaks ground by comprehensively articulating specific indigenous virtues such as reverence self control silence and thoughtfulness courage diligence in work and communality This book therefor makes a unique contribution in the areas of Indigenous Knowledge Spirituality Education African American Studies African Studies Religious Studies Anthropology et cetera The author s stories personal experiences and thick descriptions are so fundamental that every reader will rediscover in this book similar experiences in his her own life
