*American Televangelism and Participatory Cultures* Denis J. Bekkering, 2018-10-12 This book examines unintended participatory cultures and media surrounding the American televangelists Robert Tilton and Tammy Faye Bakker Messner It brings to light heavily ironic fan followings print audio and video projects public access television parodies and other comedic participatory practices associated with these controversial preachers from the 1980s onwards For Tilton's ministry some of these activities and artifacts would prove irksome and even threatening particularly an analog video remix turned online viral sensation In contrast Bakker Messner's campy fans gay men attracted to her ludicrous tragedy would provide her unexpected opportunities for career rehabilitation Denis J Bekkering challenges supply side religious economy and branding approaches suggestions of novelty in religion and new media studies and the emphasis on sincere devotion in research on religion and fandom He also highlights how everyday individuals have long participated in public negotiations of Christian authenticity through tongue in cheek play with purported religious fakes

*The Practicing Congregation* Diana Butler Bass, 2004-09-01 The conventional wisdom about mainline Protestantism maintains that it is a dying tradition irrelevant to a postmodern society unresponsive to change and increasingly disconnected from its core faith tenets In her provocative new book historian and researcher Diana Butler Bass argues that there are signs that mainline Protestant churches are indeed changing finding a new vitality intentionally grounded in Christian practices and laying the groundwork for a new type of congregation *The Practicing Congregation* tracks these changes by looking at the overall history of American congregations noting the cultural trends that have sparked change and providing evidence of how mainline churches are reappropriating traditional Christian practices The signs of life that Bass identifies lead the reader beyond the crumbling liberal vs conservative dualities to a more nuanced and fluid understanding of the shape of contemporary ecclesiology and faithfulness In so doing she helps readers understand tradition in new ways and creates an alternative path through the culture wars that today arrest the energies of most denominations Invigorated by stories from Bass's own experience *The Practicing Congregation* provides a hopeful and exciting vision for the church The imaginative retraditioning she identifies and celebrates will guide pastors and other leaders on this pilgrimage of creating church and convincingly counter the naysayers that long ago gave up on the viability of the mainline church
