Religious Ambiguity And Religious Diversity

Amir Dastmalchian

Religious Ambiguity And Religious Diversity:

Religious Ambiguity and Religious Diversity Robert McKim, 2001 This text argues that beliefs about religious matters ought to be held tentatively and with an awareness that these beliefs may be wrong It suggests a compromise that will preserve much of what matters to the various disagreeing communities *Religious Ambiguity and Religious Diversity*, 2001

On Religious Diversity Robert McKim, 2012-01-23 In *On Religious Diversity* Robert McKim distinguishes and examines a number of possible responses to the knowledge of diverse religious traditions that is available to all of us today There is no escaping the fact that the presence of competing traditions now confronts each of the traditions in a new and forceful way And there is widespread if inchoate recognition of genuine religious sensibilities and genuine religious seriousness in others How might and how should an awareness of other traditions affect a member of a particular religious tradition What attitudes should be taken to the beliefs and salvific prospects of members of other traditions McKim examines several proposed answers to these questions offering the deepest analysis to date of such options as exclusivism and inclusivism He argues that what look like well defined and discrete positions dissolve somewhat under scrutiny revealing significantly different possibilities McKim suggests where best to look for the most plausible answers and makes a case for the attractiveness of inclusivistic options He pays particular attention to the religiously ambiguous nature of our circumstances and to the implications of this ambiguity

Religious Perspectives on Religious Diversity, 2016-11-07 *Religious Perspectives on Religious Diversity* addresses fundamental and controversial questions raised by religious diversity What are members of religious traditions to say about outsiders their views and their salvific status And what are they to say about the religions of outsiders about say whether those religions are inspired or salvifically effective or worthwhile or legitimate Discussion of some Muslim Christian and Jewish perspectives is combined with more methodological work The authors of these ground breaking and original yet readable and accessible essays include established scholars and younger scholars whose reputation is growing Contributors are Imran Aijaz David Basinger Paul Rhodes Eddy Jerome Gellman Mohammad Hassan Khalil Eugene Korn Daniel A Madigan Robert McKim John Sanders and Diego R Sarri Cucarella Judaism Christianity and Islam s attitudes to other religions are thoughtfully examined in this collection both with fine historical sensibility as well as original constructive contributions from leading scholars in the field A series of helpful meta reflections follow on typologies in theology of religions the act of comparison between traditions and a plea for informed tolerance when difference is confronted A rare treat an edited collection that is of uniformly high quality throwing immense light on the subject It will help specialists and undergraduate students approaching the subject of religious pluralism Professor Gavin D Costa University of Bristol September 2016

[Religious Diversity and Religious Progress](#) Robert McKim, 2019-01-10 What is someone who has a perspective on religious matters to say about those who endorse other perspectives What should they say about other religions For example might some of their beliefs be true What stage are we human beings at in our religious

development Are we close to maturity religiously speaking so that most of the important religious ideas and innovations there will ever be have already appeared Or are we starting out in our religious evolution so that religious developments to date are merely the first rude efforts of a species in its religious infancy **Religious Diversity** Roger Trigg,2014-04-21

Religious Diversity examines whether believing in a religion's truth increases intolerance and how the existence and growth of multiple religions affects political societies **Religious Tolerance through Humility** David Basinger,2016-12-05

The acclaimed scholars contributing to this volume place under scrutiny a fascinating alternative proposal for a pathway to religious tolerance that serious consideration of religious diversity tends to reveal the weakness of support many have for their religious commitments and the humility produced tends to result in religious tolerance The authors illuminate the debate within philosophy about the way beliefs are supported the controversy between internalism and externalism and disagreement about how humility and tolerance are related Critical and supportive views are represented so that the main lines of agreement and disagreement rise to the surface and are mapped out for the first time The collection honours Philip Quinn who advocated the pathway so rigorously that the special attention given to his views focuses and deepens the critical discussion Original essays by some of the most respected contemporary intellectuals in this field make this collection especially attractive

On Religious Diversity Robert McKim,2012-03-06 Robert McKim's goal in *On Religious Diversity* is to distinguish and examine a number of possible responses to the knowledge of other religious traditions that are available to all of us today He argues that the issues raised will be very pressing throughout the century we have just begun *Religious Diversity in Contemporary Philosophy of Religion* Amir Dastmalchian,2010 **Introducing Philosophy of Religion** Chad Meister,2009-02-13

Does God exist What about evil and suffering How does faith relate to science Is there life after death These questions fascinate everyone and lie at the heart of philosophy of religion Chad Meister offers an up to date introduction to the field focussing not only on traditional debates but also on contemporary concepts such as the intelligent creator Key topics such as divine reality and the self and religious experience are discussed in relation to different faiths *Introducing Philosophy of Religion* offers a lucid overview of contemporary philosophy of religion introduces the key figures in the history of philosophy of religion explores the impact of religious diversity and pluralism examines the main arguments for and against the existence of God and the nature of the divine looks at science and issues of faith and reason explores how the different religions approach the concept of life after death The wealth of textbook features including tables of essential information questions for reflection summaries glossary and recommendations for further reading make the book ideal for student use Along with its accompanying Reader this is the perfect introductory package for undergraduate philosophy of religion courses Visit the book's companion website at www.routledge.com/textbooks/9780415403276 Features include an interactive glossary a timeline powerpoint slides on all the chapters chapter outlines lists of objectives for study A

Comparative Doxastic-Practice Epistemology of Religious Experience Mark Owen Webb,2014-08-18 This book takes a

theoretical enterprise in Christian philosophy of religion and applies it to Buddhism thus defending Buddhism and presenting it favorably in comparison Chapters explore how the claims of both Christianity and Theravada Buddhism rest on people's experiences so the question as to which claimants to religious knowledge are right rests on the evidential value of those experiences The book examines mysticism and ways to understand what goes on in religious experiences helping us to understand whether it is good grounds for religious belief The author argues that religious language in both Christian and Buddhist traditions is intelligible as factual discourse and so reports of mystical experience are true or false The book contends that those experiences can be fruitfully thought of as perceptual in kind and that they are therefore good prima facie grounds for religious belief in the absence of defeating conditions The work goes on to explore Christian and Buddhist testimony and how the likelihood of self-deception self-delusion imaginative elaboration and the like constitutes a defeating condition It is shown that this defeater has less scope for operation in the Buddhist case than in the Christian case and therefore Theravada Buddhism is better grounded This work will appeal to students and scholars of philosophy and philosophy of religion and those interested in the study of religious experience

Faith, Philosophy and the Reflective Muslim Z. Ali, 2013-05-07 Most modern literature on the rationality of religious belief is primarily written from Christian and Secular perspectives the introduction of a reflective Muslim perspective provides a fresh and alternative perspective This work aims to pioneer an engagement with contemporary philosophical scholarship from the perspective of a reflective Muslim

Realism and Religion Michael Scott, 2017-09-29 This book draws together a distinguished group of philosophers and theologians to present new thinking on realism and religion The religious realism antirealism debate concerns the questions of God's independence from human beings the nature of religious truth and our access to religious truths Although both philosophers and theologians have written on these subjects there has been little sustained investigation into these issues akin to that found in comparable areas of research such as ethics or the philosophy of science In addition the absence of any agreed approach to the problem underlines both the need for fresh thought on it and the fruitfulness of this area for further research The editors' introduction sets the context of the realism debate traces connections amongst the essays which follow and proposes lines for future development and enquiry The contributors present a variety of contrasting positions on key issues in the religious realism debate and each opens up new and important themes Gordon Kaufman Peter Lipton and Simon Blackburn provide the opening chapters and the context for the collection Alexander Bird John Hare Graham Oppy and Nick Trakakis Merold Westphal and John Webster explore topics that are central to the debate This volume of original essays will both introduce newcomers to the field and suggest new lines of research for those already familiar with it

Problems of Religious Luck Guy Axtell, 2020-07-07 To speak of being religiously lucky certainly sounds odd But then so does My faith holds value in God's plan while yours does not This book argues that these two concerns with the concept of religious luck and with asymmetric or sharply differential ascriptions of religious value are

inextricably connected It argues that religious luck attributions can profitably be studied from a number of directions not just theological but also social scientific and philosophical There is a strong tendency among adherents of different faith traditions to invoke asymmetric explanations of the religious value or salvific status of the home religion vis vis all others Attributions of good bad religious luck and exclusivist dismissal of the significance of religious disagreement are the central phenomena that the book studies Part I lays out a taxonomy of kinds of religious luck a taxonomy that draws upon but extends work on moral and epistemic luck It asks What is going on when persons theologies or purported revelations ascribe various kinds of religiously relevant traits to insiders and outsiders of a faith tradition in sharply asymmetric fashion I am saved but you are lost My religion is holy but yours is idolatrous My faith tradition is true and valued by God but yours is false and valueless Part II further develops the theory introduced in Part I pushing forward both the descriptive explanatory and normative sides of what the author terms his inductive risk account Firstly the concept of inductive risk is shown to contribute to the needed field of comparative fundamentalism by suggesting new psychological markers of fundamentalist orientation The second side of what is termed an inductive risk account is concerned with the epistemology of religious belief but more especially with an account of the limits of reasonable religious disagreement Problems of inductively risky modes of belief formation problematize claims to religion specific knowledge But the inductive risk account does not aim to set religion apart or to challenge the reasonableness of religious belief tout court Rather the burden of the argument is to challenge the reasonableness of attitudes of religious exclusivism and to demotivate the polemical apologetics that exclusivists practice and hope to normalize

The God Beyond Belief Nick Trakakis, 2006-11-03 This study of Professor William Rowe s defense of atheism on the basis of evil assesses the literature that has developed in response to Rowe s work closely examining two strategies mystery the idea that God may have reasons beyond our comprehension for permitting evil and theodicy explanations as to why God allows evil to flourish The book unearths difficulties in both concluding that the God of theism must be beyond belief

The Biographical Encyclopedia of Islamic Philosophy Oliver Leaman, 2015-07-16 Philosophy flourished in the Islamic world for many centuries and continues to be a significant feature of cultural life today Now available in paperback *The Biographical Encyclopedia of Islamic Philosophy* covers all the major and many minor philosophers theologians and mystics who contributed to its development With entries on over 300 thinkers and key concepts in Islamic philosophy this updated landmark work also includes a timeline glossary and detailed bibliography It goes beyond philosophy to reference all kinds of theoretical inquiry which were often linked with philosophy such as the Islamic sciences grammar theology law and traditions Every major school of thought from classical Peripatetic philosophy to Sufi mysticism is represented and entries range across time from the early years of the faith to the modern period Featuring an international group of authors from South East Asia the Indian Subcontinent the Middle East and North Africa Europe and North America *The Biographical Encyclopedia of Islamic Philosophy* provides access to the ideas and people comprising almost 1400 years

of Islamic philosophical tradition **Faith in Certain Terms** Olli-Pekka Vainio, 2023-11-10 This book considers how certainty and faith are related in the Christian faith It asks How certain can Christian believers be about their beliefs about God Should Christians doubt the assurance of their salvation The chapters provide a historical analysis of both certainty of faith and assurance from the early Church to modern times while also paying attention to confessional differences The author explores contemporary debates in analytic epistemology on the certainty and fallibility of our beliefs and argues for a fallibilist understanding of Christian faith The book also addresses some less discussed arguments that threaten the certainty of faith and offers an account of faith as cognitive practice It will be of interest to scholars of both theology and philosophy

Philosophies of Appropriated Religions Soraj Hongladarom, Jeremiah Joven Joaquin, Frank J. Hoffman, 2023-12-21 This book brings together different intercultural philosophical points of view discussing the philosophical impact of what we call the appropriated religions of Southeast Asia Southeast Asia is home to most of the world religions Buddhism is predominantly practiced in Thailand Vietnam Myanmar Singapore Laos and Cambodia Islam in Malaysia Indonesia and Brunei and Christianity in the Philippines and Timor Leste Historical data show however that these world religions are imported cultural products and have been reimagined assimilated and appropriated by the culture that embraced them In this collection we see that these appropriated religions imply a culturally nuanced worldview which in turn impacts how the traditional problems in the philosophy of religion are framed and answered in particular questions about the existence and nature of the divine the problem of evil and the nature of life after death Themes explored include religious belief and digital transition Theravada Buddhist philosophy religious diversity Buddhism and omniscience indigenous belief systems divine apology and unmerited human suffering dialetheism and the problem of evil Buddhist philosophy and Spinoza's views on death and immortality belief and everyday realities in the Philippines comparative religious philosophy gendering the Hindu concept of dharma Christian devotion and salvation during the Spanish colonial period in the Philippines through the writings of Jose Rizal indigenous Islamic practices in the Philippines practiced traditions in contemporary Filipino celebrations of Christmas role of place aspects in the appropriation of religions in Southeast Asia and fate and divine omniscience This book is of interest to scholars and researchers of philosophy of religion sociology of religion anthropology of religion cultural studies comparative religion religious studies and Asian studies *Evidence and Faith* Charles Taliaferro, 2005-02-21 Charles Taliaferro has written a dynamic narrative history of philosophical reflection on religion from the seventeenth century to the present with an emphasis on shifting views of faith and the nature of evidence The book begins with the movement called Cambridge Platonism which formed a bridge between the ancient and medieval worlds and early modern philosophy While the book provides a general overview of different movements in philosophy it also offers a detailed exposition and reflection on key arguments The scope is broad from Descartes to contemporary feminist philosophy of religion Written with clarity and verve this is a book that will appeal to professionals and students in the philosophy of

religion religious studies and the history of ideas as well as informed lay readers Disagreeing Virtuously Vainio, Olli-Pekka, 2017 Disagreement is inevitable particularly in our current context marked by the close coexistence of conflicting values and perspectives in politics religion and ethics How can we deal with disagreement ethically and constructively in our pluralistic world In Disagreeing Virtuously Olli Pekka Vainio presents a valuable interdisciplinary approach to that question drawing on insights from intellectual history the cognitive sciences philosophy of religion and virtue theory After mapping the current discussion on disagreement among various disciplines Vainio offers fresh ways to understand the complicated nature of human disagreement and recommends ways to manage our interpersonal and intercommunal conflicts in ethically sustainable ways

Yeah, reviewing a book **Religious Ambiguity And Religious Diversity** could mount up your close contacts listings. This is just one of the solutions for you to be successful. As understood, feat does not suggest that you have fabulous points.

Comprehending as capably as promise even more than new will manage to pay for each success. bordering to, the pronouncement as well as perception of this Religious Ambiguity And Religious Diversity can be taken as skillfully as picked to act.
