*Religion and Literature* Robert Detweiler,David Jasper,2000-01-01 Featuring a selection from over 80 key texts this anthology aims to help the reader to understand the common origins of religious expression and of literature The texts included cover classical literature the Bible English and European classics and contemporary works      *The Translatability of the Religious Dimension in Shakespeare from Page to Stage, from West to East* Jenny Wong,2018-05-29 This interdisciplinary study traverses the disciplines of translation studies hermeneutics theater studies and sociology Under the power turn or political turn in translation studies the omission and untranslatability of religious material are often seen as the product of censorship or self censorship But the theology of each individual translating agent is often neglected as a contributing factor to such untranslatability This book comprehensively traces the hermeneutical process of the translators as readers and the situational process and semiotics of theater translation Together these factors contribute to an image of translated literature that in turn influences the literature s reception While translation theorists influenced by the current sociological turn view social factors as determining translation activities and strategies this volume argues that the translator s or the dramatist s theology and religious values interact with the socio cultural milieu to carve out a unique drama production Often it is the religious values of the translating agents that determine the product rather than social factors Further the translatability of religious discourse should be understood in a broader sense according to the seven dimensions proposed by Ninian Smart rather than merely focusing on untranslatability as a result of semantic and linguistic differences      *Literature, Religion, and East/West Comparison* Anthony C. Yu,2005 This book pays critical homage to the eminent comparatist of Chinese and Western literature and religion Anthony C Yu of The University of Chicago Broadly comparative cross cultural and interdisciplinary in scope the volume consists of an introductory essay on Yu s scholarly career and thirteen additional essays on topics such as literary texts and traditions of varying provenance and periods ranging from ancient Greece medieval Europe and nineteenth and twentieth century England and America to China from the classical to modern periods The disciplines and areas of research that the essays draw into constructive engagement with one another include comparative literature religion and literature history of religions or comparative religion religion and social thought and the study of myth Eric Ziolkowski is Professor and Head of the Department of Religious Studies at Lafayette College      *Religion and Literature: History and Method* Eric Ziolkowski,2019-12-16 Religion and literature is the study of interrelationships between religious or theological traditions and literary traditions both oral and written with special attention to religious or theological underpinnings of influences upon and reflections in individual texts oral and written or authors oeuvres Religion and Literature History and Method by Eric Ziolkowski considers the origins and history of and methods employed in that scholarly enterprise focusing on the dual construals of literature in religious studies as a body of sacred writings and as

**Children's Book** Anton A. Bucher, Gerhard Büttner, Elisabeth E. Schwarz, 2018-01-01 Can children theologize without substantial requirements Initially the movement of child theology accentuated children s original theological creativity But in the last years several authors point out that children need theological food in order to originally theologize One of the most appropriate medium are children s books This volume presents the lectures of the international symposium Children s books Nurture for children s theology Proven experts demonstrate empirically studied strategies in order to stimulate children s theological reasoning be it about God Jesus as the savior death the soul Christmas and many other theological topics more This reader presents the state of the art in theologizing with children stimulated by children s books Religion, Children's Literature, and Modernity in Western Europe, 1750-2000 Jan de Maeyer, 2005 In this book some 25 scholars focus on the

relationship between religion children's literature and modernity in Western Europe since the Enlightenment c 1750 They examine various aspects of the phenomenon of children's literature such as types of texts age of readers position of authors design and illustration The role of religion in giving meaning both in a substantive sense as well as through the institutionalised churches is studied from an interdenominational point of view Judaism Roman Catholicism Protestantism and Anglicanism Finally the contribution of pedagogy and child psychology in the interaction between modernity religion and children's literature is also discussed Various articles give a broad overview of the tensions between aesthetics and ethics and the demand for cultural autonomy in the development of children's literature Children's bibles and missionary stories played an important part in the growing diversification of children's literature as did the publication of illustrated reviews for children Remarkable differences are highlighted in the involvement of religious societies and institutions episcopally approved publishing houses and supervisory bodies in the publication distribution and supervision of children's literature This volume adopts a comparative approach in exploring the underlying religious ideological and cultural dimensions of children's literature in modern society      *Towards a Christian Literary Theory* L. Ferretter, 2002-12-17 Most modern literary theory is explicitly anti theological This book states the case for a contemporary literary theory whose principles derive from Christian theology Ferretter argues that it remains rationally and ethically legitimate to use theological language in literary theory despite the objections to such a theory posed by deconstruction Marxism and psychoanalysis He concludes with an assessment of how such a theory can be formulated and used in contemporary cultural analysis      **Introduction to the U.S. Latina and Latino Religious Experience** Hector Avalos, 2021-10-01 Latinos Latinas are the largest minority in the United States but the field of U S Latino Latina studies is still in its infancy This work represents the first single volume ever published on the U S Latino Latina religious experience an area that is even less explored A carefully selected group of experts examines the major sub groups of Latinos Latinas including Mexican Americans Puerto Ricans and Cuban Americans along with some of the lesser studied groups such as Dominicans and Central Americans In addition the volume includes important thematic chapters on the role of art film health care literature music politics and women's influence in the U S Latino Latina religious experience      *Foucault and Religion* Jeremy Carrette, 2002-09-11 Foucault and Religion is the first major study of Michel Foucault in relation and response to Religion Jeremy Carrette offers us a challenging new look at Foucault's work and addresses a religious dimension that has previously been neglected We see that prior to Foucault's infamous unpublished volume in the History of Sexuality on the theme of Christianity there is a complex religious sub text which anticipates this final unseen work Jeremy Carrette argues that Foucault offers a twofold critique of Christianity by bringing the body and sexuality into religious practice and exploring a political spirituality of the self He shows us that Foucault's creation of a body theology through the death of God reveals how religious beliefs reflect the sexual body questions the notion of a mystical archaeology and exposes the political technology of confession Anyone interested in

understanding Foucault's thought in a new light will find this book a truly fascinating read     A Companion to African American Literature Gene Andrew Jarrett, 2013-02-25 Through a series of essays that explore the forms, themes, genres, historical contexts, major authors, and latest critical approaches, *A Companion to African American Literature* presents a comprehensive chronological overview of African American literature from the eighteenth century to the modern day. Examines African American literature from its earliest origins through the rise of antislavery literature in the decades leading into the Civil War to the modern development of contemporary African American cultural media, literary aesthetics, and political ideologies. Addresses the latest critical and scholarly approaches to African American literature. Features essays by leading established literary scholars as well as newer voices.
