Religious Experience And Christian Faith:

The Varieties of Religious Experience William James, 2010-03-16 The Varieties of Religious Experience A Study in Human Nature Being the Gifford Lecture on Natural Religion Delivered at Edinburgh in 1901 1902 by William James LL D Etc CONTENTS Religion and Neurology Circumscription of the Topic The Reality of the Unseen The Religion of Healthy mindedness The Sick Soul The Divided Self and the Process of its Unification Conversion Saintliness The Value of Saintliness Mysticism Philosophy Other Characteristics Conclusions Postscript Index Reproduction of 1902 Edition **The Varieties of Religious Experience** William James, 1936 The Varieties of Religious Experience is certainly the most notable of all books in the field of the psychology of religion and probably destined to be the most influential one written on religion in the twentieth century said Walter Houston Clark in Psychology Today The book was an immediate bestseller upon its publication in June 1902 Reflecting the pluralistic views of psychologist turned philosopher William James it posits that individual religious experiences rather than the tenets of organized religions form the backbone of religious life James s discussion of conversion repentance mysticism and hope of reward and fears of punishment in the hereafter as well as his observations on the religious experiences of such diverse thinkers as Voltaire Whitman Emerson Luther Tolstoy and others all support his thesis James s characteristic humor his ability to put down the pretentious and to be unpretentious and his willingness to take some risks in his choices of anecdotal data or provocative theories are all apparent in the book noted Professor Martin E Marty A reader will come away with more reasons to raise new questions than to feel that old ones have been resolved *The Trustworthiness of Religious Experience* Elton Trueblood, 1963 **Religious Experience and Scientific Method** Henry Nelson Wieman, 1926 **Social Meanings of Religious Experiences** George Davis Herron, 1896 **Encountering Mystery** Dale C Allison, 2022-07-26 Despite widespread skepticism on the matter a significant number of people today have stories of religious experience moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions How should rationally minded people of faith respond What would your reaction be if someone told you that one night while sitting alone she saw through the window a brilliant light descend from the sky until it was so large that it filled the room and that it radiated a feeling of pure love And what would you say if a friend confided in you that he fell from a scaffold the other day and that he felt a pair of arms catch him so that he was miraculously uninjured even though he was alone By default in the secular age we are skeptical about anything mysterious or supernatural More likely than not most people would respond to the stories above with embarrassment and concern about the person s grasp of reality or they would attempt to explain them away through rational or scientific means But the truth is that religious experiences like these are not as uncommon as they seem although talking about such experiences is This is even the case in a faith tradition like Christianity despite the Bible s numerous accounts of miraculous happenings like the parting of a sea and the instantaneous healing of lepers In *Encountering Mystery* noted biblical scholar and theologian Dale

Allison makes the argument that stories of religious experience are meaningful and not to be marginalized in the church Pastors especially but all Christians have a moral prerogative to lovingly engage with such stories regardless of whether they themselves have had similar experiences Through a close look at phenomena such as moments of inexplicable terror or rapturous joy visions near death experiences of the afterlife encounters with angels heavenly voices and premonitions Allison shows how the ordinary practice of faith is not necessarily at odds with individual religious experience and is in many ways theologically compatible with it Above all he enjoins Christians to be honest about the persistence of religious experience in a secular age and to make space in the church for people who encounter mystery in their lives *Religious Experience* Tim Miles,1972-06-18

Understanding Religious Experiences J. Harold Ellens,2007-11-30 Today most people feel less interested in religion and more interested in spirituality If you ask what they mean they will tell you that organized religion tends to turn them off but nonetheless they feel a hunger in the heart that they cannot seem to fill They do not mean that they would rather have disorganized religion they mean that institutional religion does not seem to satisfy their spirits and feel there must be something more some better way of experiencing whatever that is for which they are hungry Much new experimentation is going on as a result Some of it is a search for the meaning to fill the soul and satisfy the spirit much of it is a search for meaning on the spiritual level itself Spirituality reaches always toward the question about the meaning of God the meaning of relationships with others the meaning of intimacy and the meaning of soul gratifying insights into truth Here Ellens carefully and sensitively explores the full range of our spiritual natures and the variety of spiritual experiences of which we are capable describing the way our souls and psyches work in our hunger and thirst for meaning He explains in an enlightening and unconventional way why and how every human desires to reflect upon learn and share a heartfelt experience of God and of others Readers will find in this book a description of the meaning of the biblical stories about spiritual experiences in

addition to descriptions of the kinds of spiritual experiences that ordinary people are having how they are achieving them and the ways in which they are filling their lives with meaning that goes beyond the horizons of material life The author paints this picture in such a way as to let us in on what biblically based authentic spirituality and spiritual experience really is and why it may or may not necessarily have anything to do with traditional institutionalized religion He carefully and vividly explains the notion of spirituality as it is illustrated in the Bible and discusses spiritual experiences such as prayer epiphany visions and other experiences He considers whether spirituality is mainly a connection with God with others or with both Readers hoping to get a better sense of what it means to be spiritual will have many of their questions answered in these pages

Christian Faith as Religion Paul E. Capetz, 2011-05-26 Christian Faith as Religion investigates the theologies of John Calvin and Friedrich Schleiermacher with respect to the questions What is Religion and What is Christian Religion The author argues that the classical and liberal exemplars of Protestant theology are best compared when these two questions are thoroughly examined and calls into question the contention of neo orthodox theologians Karl Barth and Emil Brunner that Schleiermacher's theological use of the category religion signifies a departure from the tradition of the Reformation He offers a revised comparative framework that discloses the material and formal similarities between Calvin and Schleiermacher with respect to their employment of the categories religion and revelation and allows the historical theologian to delineate the trajectory that accounts for both continuity and discontinuity in the transition from classical to modern Protestant theology This allows the systematic hermeneutical question of a contemporary Protestant theology informed by the historical and philosophical study of religion to be taken up anew

Confessing and Commending the Faith Alan P.F. Sell, 2006-09-01 Since Christianity is a way and not simply a theory commending the faith to others is an activity in which every Christian participates Confessing and Commending the Faith discusses the presuppositions which underlie the intellectual commendation of Christianity in the face of the philosophical challenges of the present day Following his earlier books John Locke and the Eighteenth Century Divines and Philosophical Idealism and Christian Belief Alan Sell proposes a way of proceeding with Christian apologetics in the twenty first century He discusses what Christians wish to proclaim asks whether these claims are reasonable and examines what is involved in the intellectual commendation of the Christian faith Confessing and Commending the Faith makes extensive use of the historical tradition of apologetics and brings this work to bear on contemporary questions such as the meaning use and reference of religious language and the question of transcendence in relation to history Alan Sell argues that if the intellectual commendation of Christianity's claim to truth is to be viable contemporary apologetics must draw upon reason revelation and experience to do

justice to Christianity's basic confession of Christ as Saviour and Lord

Phenomenological Approaches to Religion and Spirituality Essien, Essien D., 2021-01-29 There is an interesting knowledge trajectory that God remains incomprehensible not imperceptible This lends credence to the fact that religious study since the Enlightenment has dedicated itself almost entirely to the problem of reconciling the non existence of God in the physical world with his necessary existence in the metaphysical world When seriously examined it would be discovered that these two aspects are logically contradictory and this is a problem with no solution But interpreting God not as a physical being but as a phenomenological thing changes the nature of the problem enough that a solution emerges almost automatically In this phenomenological model the crux of the matter is that God does not exist but God is real Therefore it is imperative to return to experience and verifiability hence purging it of unexamined and often hidden assumptions *Phenomenological Approaches to Religion and Spirituality* brings together the different disciplines and research approaches to provide a comprehensive analysis of the phenomenology of God and spirituality as well as offering an effective epistemological apparatus capable of dealing with this concept The book employs multidisciplinary approaches from religious studies theology philosophy anthropology and other segments to dissect the subject matter for efficient evaluation and all inclusive findings While covering various aspects of religion such as the testaments of the Bible the church the religious experience and various aspects of spirituality this book is intended for theologians philosophers religious leaders policymakers academicians researchers students public institutions and agencies with a special interest in religious matters values knowledge and truth

Transformative Religious Experience Joshua Iyadurai, 2015-04-30 What makes a priest of one religion become a preacher of another religion How could a person embrace a religion suddenly that he or she had up to then opposed Why would young women risk their reputation and endanger their lives for the sake of newfound faith How could an alcoholic detest a sip of wine all of a sudden What drives an atheist to become an ardent worshiper of God How could an intelligent person relate to God as to an adult human being *Transformative Religious Experience* answers these questions with fascinating narratives of conversion These narratives together show how the transforming effects of conversion permeate the daily lives of converts in a multireligious context Joshua Iyadurai analyzes psychologically the mystical turning point in the conversion process and finds that the divine human encounter entails a cognitive restructuring a new set of beliefs values and desires replaces previously held religious beliefs values and desires By drawing insights from the fields of psychology sociology anthropology and theology Iyadurai develops an interdisciplinary step model from a phenomenological perspective to explain the conversion process that incorporates the religious practices and social psychological factors while giving a central place to religious experience

Religious Experience Craig Martin, Russell T. McCutcheon, 2014-09-11 Many regard religious experience as the essence of religion arguing that narratives might be created and rituals invented but that these are always secondary to the original experience itself However the concept of experience has come under increasing fire from a range of critics and theorists This Reader

presents writings from both those who assume the existence and possible universality of religious experience and those who question the very rhetoric of experience Bringing together both classic and contemporary writings the Reader showcases differing disciplinary approaches to the study of religious experience philosophy literary and cultural theory history psychology anthropology feminist theory as well as writings from within religious studies The essays are structured into pairs with each essay separately introduced with information on its historical and intellectual context The ultimate aim of the Reader is to enable students to explore religious experience as rhetoric created to authorize social identities The book will be an invaluable introduction to the key ideas and approaches for students of Religion as well as Sociology and Anthropology
