The Sociology of Religion George Lundskow, 2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion's practitioners in religious and non religious settings The

textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one. Many use real life examples only superficially to illustrate concepts. Lundskow's approach is the opposite: students will learn the facts of religion in its great diversity, all the most interesting and compelling beliefs and practices, and then learn relevant concepts that can be used to explain empirical observations. The book thus follows the logic of actual research: investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society. This approach, using provocative examples and with an eye toward the historical and theoretical, not to mention global experience of religion, will make this book a success in the classroom. The author envisions a substantive approach that examines religion as it actually exists in all its forms, including belief, ritual, daily living, identity, institutions, social movements, social control, and social change. Within these broad categories, the book will devote particular chapters to important historical moments and movements, leaders, and various individual religions that have shaped the contemporary form and effect of religion in the world today.

Manifesto of the Critical Theory of Society and Religion (3 Vols.) Rudolf Siebert, 2010-08-16. The Manifesto develops further the Critical Theory of Religion intrinsic to the Critical Theory of Society of the Frankfurt School into a new paradigm of the Psychology, Sociology, Philosophy, and Theology of Religion. Its central theme is the theodicy problem in the context of late capitalist society and its globalization.

Christian Metal Marcus Moberg, 2015-02-26. Christian metal has always defined itself in contrast to its non-Christian secular counterpart, yet it stands out from nearly all other forms of contemporary Christian music through its unreserved use of metal's main musical, visual, and aesthetic traits. Christian metal is a rare example of a direct combination between evangelical Christianity and an aggressive and highly controversial form of popular music and its culture. **Christian Metal History: Ideology, Scene** is the first full exploration of the phenomenon of Christian metal music, its history, main characteristics, development, diversification, and key ideological traits from its formative years in the early 1980s to the present day. Marcus Moberg situates it in a wider international evangelical cultural environment, accounts for its diffusion on a transnational scale, and explores what religious meanings and functions Christian metal holds for its own musicians and followers. Engaging with wider debates on religion, media, and popular culture, **Christian Metal History: Ideology and Scene** is a much needed resource in the study of religion and popular music.

Cosmologies of Suffering Agita Lüse, 2009-01-14. The edited volume elaborates on a range of themes that emerged during a workshop of the 8th biennial of the European Association of Social Anthropologists in Vienna in 2004. Among these themes are the paradoxical permanence of transition in post-communist countries, the accompanying persistence of social suffering, and the structural conditions that give rise to it. A final theme focuses on the resources that people mobilize to cope with suffering and trauma. Ways of coping manifest a stance towards agency shared by sufferers from diverse post-communist regions, such as ethnically divided Croatia, politically and economically unstable Zimbabwe, relatively more peaceful countries such as Hungary, Poland, and Slovenia, and

finally two religiously unique areas in Siberia Russia Ethnographic accounts from these diverse settings testify that agency has often involved relinquishing reliance on one's self and turning towards a power higher than the self whether this is conceptualized through the lens of transcendence religion or cosmology **Beyond Modernity** Artur Mrowczynski-Van Allen, Teresa Obolovitch, Pawel Rojek, 2016-10-11 Post secularism is the fundamental evidence of the end of modernity Modernity as sleeping reason in Francisco Goya's painting realizes that although it thought that it was awake it was producing monsters We try to analyze post secular philosophy from the point of view of Russian religious thought We believe that such philosophers as Vladimir Soloviev Pavel Florensky Sergey Bulgakov Nikolai Berdyaev Georges Florovsky and Semen Frank may be helpful for understanding and overcoming post secular order Their unique views on the relations between religion and philosophy science and social life are apparently missing in the current Western debates It seems to us that Russian religious philosophy becomes surprisingly up to date and attractive in the contemporary world We hope that the present volume will be a significant step forward in the inclusion of the heritage of Russian religious philosophy in contemporary debates *Finding God Among our Neighbors, Volume 2* Kristin Johnston Largen, 2017-02-01 For too many students Christian theology is learned in isolation from other religions traditions With this the second volume of her important work Kristin Johnston Largen returns to expand the systematic theology she began in the original volume Largen places the work of Christian theology soundly within the interreligious dialogue that is the defining feature of our time In doing so she prepares students of theology for the task of understanding and articulating their Christian beliefs in the context of a religiously and culturally diverse world In the original volume Largen focused her work on three loci God Creation and Humanity In this second volume she expands the project to include salvation the Church and the Holy Spirit As before each locus is set within the broader context of interreligious dialogue by considering how the varied beliefs of the world's religious traditions inform our understanding of our own tradition This volume explores indigenous religions Sikhism Confucianism and Daoism in particular Pilgrimage and Healing Jill Dubisch, Michael Winkelman, 2022-08-09 Bikers converge at the Vietnam Veterans Memorial in Washington D C Thousands flock to a Nevada desert to burn a towering effigy And the hopeless but hopeful ill journey to Lourdes as they have for centuries Although pilgrimage may seem an antiquated religious ritual it remains a vibrant activity in the modern world as pilgrims combine traditional motives such as seeking a cure for physical or spiritual problems with contemporary searches for identity or interpersonal connection That pilgrimage continues to exercise such a strong attraction is testimony to the power it continues to hold for those who undertake these sacred journeys This volume brings together anthropological and interdisciplinary perspectives on these persistent forms of popular religion to expand our understanding of the role of the traditional practice of pilgrimage in what many believe to be an increasingly secular world Focusing on the healing dimensions of pilgrimage the authors present case studies grounded in specific cultures and pilgrimage traditions to help readers understand the many therapeutic resources pilgrimage provides

for people around the world The chapters examine a variety of pilgrimage forms both religious and non religious from Nepalese and Huichol shamanism pilgrimage to Catholic journeys to shrines and feast days to Nevada s Burning Man festival These diverse cases suggest a range of meanings embodied in the concept of healing itself from curing physical ailments and redefining the self to redressing social suffering and healing the wounds of the past Collectively and individually the chapters raise important questions about the nature of ritual in general and healing through pilgrimage in particular and seek to illuminate why so many participants find pilgrimage a compelling way to address the problem of suffering They also illustrate how pilgrimage exerts its social and political influence at the personal local and national levels as well as providing symbols and processes that link people across social and spiritual boundaries By examining the persistence of pilgrimage as a significant source of personal engagement with spirituality Pilgrimage and Healing shows that the power of pilgrimage lies in its broad transformative powers As our world increasingly adopts a secular and atheistic perspective in many domains of experience it reminds us that for many spiritual quest remains a potent force

Christian Prophecy Niels Christian Hvidt, 2007-04-19 Throughout the Hebrew Bible God guides and saves his people through the words of his prophets When the prophets are silenced the people easily lose their way What happened after the incarnation death and resurrection of Christ Did God fall silent The dominant position in Christian theology is that prophecy did indeed cease at some point in the past if not with the Old Testament prophets then with John the Baptist with Jesus with the last apostle or with the closure of the canon of the New Testament Nevertheless throughout the history of Christianity there have always been acclaimed saints and mystics most of them women who displayed prophetic traits In recent years the charismatic revival in both Protestant and Catholic circles has once again raised the question of the place and function of prophecy in Christianity Scholarly theological attitudes toward Christian prophecy range from modest recognition to contempt Mainstream systematic theology both Protestant and Catholic has mostly marginalized or ignored the gift of prophecy In this book however Niels Christian Hvidt argues that prophecy has persisted in Christianity as an inherent and continuous feature in the life of the church Prophecy never died he argues but rather proved its dynamism by mutating to meet new historical conditions He presents a comprehensive history of prophecy from ancient Israel to the present and closely examines the development of the theological discourse that surrounds it Throughout though there is always an awareness of the critical discernment required when evaluating the charism of prophecy The debate about prophecy Hvidt shows leads to some profound insights about the very nature of Christianity and the church For example some have argued that Christianity is a perfect state and that all that is required for salvation is acceptance of its doctrines Others have emphasized how God continues to intervene and guide his people onto the right path as the full implementation of God s salvation in Christ is still far away This is the position that Hvidt forcefully and persuasively defends and develops in this ambitious and important work

Music, Theology, and Justice Hyun-Ah Kim, Christina Labriola, Michael O'Connor, 2017-07-31 Music does not make itself It is made by people

professionals and amateurs singers and instrumentalists composers and publishers performers and audiences entrepreneurs and consumers In turn making music shapes those who make it spiritually emotionally physically mentally socially politically economically for good or ill harming and healing This volume considers the social practice of music from a Christian point of view Using a variety of methodological perspectives the essays explore the ethical and doctrinal implications of music making The reflections are grouped according to the traditional threefold ministry of Christ prophet priest and shepherd the prophetic role of music as a means of articulating protest against injustice offering consolation and embodying a harmonious order the pastoral role of music creating and sustaining community building peace fostering harmony with the whole of creation and the priestly role of music in service of reconciliation and restoration for individuals and communities offering prayers of praise and intercession to God Using music in priestly prophetic and pastoral ways Christians pray for and rehearse the coming of God's kingdom whether in formal worship social protest concert performance interfaith sharing or peacebuilding Whereas temperance was of prime importance in relation to the ethics of music from antiquity to the early modern period justice has become central to contemporary debates This book seeks to contribute to those debates by means of Christian theological reflection on a wide range of musics including monastic chant death metal protest songs psalms and worship music punk rock musical drama interfaith choral singing Sting and Daft Punk

Pagan Family Values S. Zohreh Kermani, 2013-07-29 An intriguing important and often entertaining look at an under studied aspect of new religions Highly recommended Douglas E Cowan author of *Cyberhenge* Modern Pagans on the Internet For most of its history contemporary Paganism has been a religion of converts Yet as it enters its fifth decade it is incorporating growing numbers of second generation Pagans for whom Paganism is a family tradition not a religious worldview arrived at via a spiritual quest In *Pagan Family Values* S Zohreh Kermani explores the ways in which North American Pagan families pass on their beliefs to their children and how the effort to socialize children influences this new religious movement The first ethnographic study of the everyday lives of contemporary Pagan families this volume brings their experiences into conversation with contemporary issues in American religion Through formal interviews with Pagan families participant observation at various pagan events and data collected via online surveys Kermani traces the ways in which Pagan parents transmit their religious values to their children Rather than seeking to pass along specific religious beliefs Pagan parents tend to seek to instill values such as religious tolerance and spiritual independence which will remain with their children throughout their lives regardless of these children's ultimate religious identifications S Zohreh Kermani teaches Religious Studies part time at Youngstown State University In the *New and Alternative Religions* series

Music in the Apocalyptic Mode, 2023-04-03 In this volume the first panoramic study of music in the apocalyptic mode an international and trans disciplinary array of scholars and composers explore the resonance of the ancient biblical Revelation of John across the centuries in musical works as diverse as *El Cant de la Sibil·la* the *Dies Irae* cantatas and oratorios by Bach and Telemann Wagner's *Der Ring des Nibelungen* Schoenberg's

Cattoi, C. Moreman, G. C. Harcourt, 2015-04-01 This volume offers a sample of reflections from scholars and practitioners on the theme of death and dying from scholars and practitioners ranging from the Christian tradition to Hinduism Lacanian psychoanalysis while also touching on the themes of the afterlife and near death experiences **There is a Crack in Everything—Education and Religion in a Secular Age** K. H. (Ina) ter Avest, 2019-11-22 There are two constants in academic and theological discourse throughout history they are the debate around secularization and the dialogue concerning the intersection of religion and education Each age has had its debate about modernizing forces that drive concerns of impending secularization In this publication this theme is approached from perspectives of teachers of students of policy makers and situated in a politico historical context Aware of the fact that in today's plural societies one sacred canopy is non-existent anymore cracks of the sacred canopy canopies are described as well as the light that gets in the possible and challenging ways out are roughly sketched **Korea Journal**, 2007 American Book Publishing Record, 2005 **Historicizing "Tradition" in the Study of Religion** Steven Engler, Gregory Price Grieve, 2012-02-13 This collection of essays analyzes tradition as a category in the historical and comparative study of religion The book questions the common assumption that tradition is simply the passing down or imitation of prior practices and discourses It begins from the premise that many traditions are at least in part social fabrications often deliberately serving particular ideological ends Individual chapters examine a wide variety of historical periods and religions Congolese Buddhist Christian Confucian Cree Esoteric Hawaiian Hindu Islamic Jewish New Religious Movement and Shinto Different sections of the book consider tradition's relation to three sets of issues legitimation and authority agency and identity modernity and the West **El Teatro de Dios. Discurso sin pretensiones sobre la elocuencia cristiana** Thierry-Dominique Humbrecht, 2006
