Religious Transformation In Western Society:

Religious Transformation in Western Society (Routledge Revivals) Harvie Ferguson, 2010-12-01 Originally published in 1992 this remarkable book challenges many of the assumptions governing the Sociology of Religion and the Sociology of Culture by arguing that Western religion is neither science nor morality it is the promise of happiness Learned and incisive it will be essential reading for students of religion culture and anyone interested in the character of Modernity Religious and Spiritual Practices in Western Society Dr. Anthony B. Atwam (PhD), 2025-01-22 Adopting an interdisciplinary approach between the sociology of religion and practical theology this book examines the dynamic changes in religious and spiritual practices in the West from the 1960s From this examination the book demonstrates that westerners are becoming spiritually hungry and there is also a general thirst for righteousness When people demand faithfulness and loyalty in marriages relationships and at the workplace that is a thirst for righteousness Furthermore these changes are also leading to a paradigm shift in the West in religion and spirituality contexts we are moving from the Christian Age to a new era which some scholars claim to be the New Age In politics there is a potential shift in world dominance from the West to the East however there is some notable resistance from some quarters in America but Europe including Britain theologically seems to be following and championing events leading to its own demise In the context of world missions the centre of world Christianity is shifting from the West to the global south Africa in particular There is also a potential societal apocalypse despite our scientific endeavours and finally cosmologically the coming of God's kingdom is imminent. The context in which these changes are occurring is the West Therefore this book is a great resource for policy makers students tutors Pastors the Church and people in Western nations The West is a mission field therefore this book is also a great resource for students institutions tutors missionaries and people in the global south Thus the discussion in the book contributes to our understanding of what is going on globally in the twenty first century Read this book to find out how these dynamic events affect you your family and society **Re-Forming the Body** MR Philip A Mellor, Philip A. Mellor Chris Shilling, Professor Chris Shilling, 1997-02-14 Enriches the conceptual arsenal for interdisciplinary analysis of political social and cultural change stimulates more nuanced thinking about the cultural and political legacy of the Reformation era manages both to clarify tensions surrounding cultural and social integration in the late 20th century while underscoring the real historical complexity of modern bodies American Journal of Sociology Through an analysis of successive re formations of the body this innovative and penetrating book constructs a fascinating and wide ranging account of how the creation and evolution of different patterns of human community are intimately related to the somatic experience of the sacred The book places the relationship between the embodiment and the sacred at the crux of social theory and casts a fresh light on the emergence and transformation of modernity It critically examines the thesis that the rational projects of modern embodiment have died and gone to cyberspace and suggests that we are witnessing the rise of a virulent effervescent form of the sacred which is

changing how people see and keep in touch with the world around them New Media and Religious Transformations in Africa Rosalind I. J. Hackett, Benjamin F. Soares, 2015-01-21 New Media and Religious Transformations in Africa casts a critical look at Africa's rapidly evolving religious media scene Following political liberalization media deregulation and the proliferation of new media technologies many African religious leaders and activists have appropriated such media to strengthen and expand their communities and gain public recognition Media have also been used to marginalize and restrict the activities of other groups which has sometimes led to tension conflict and even violence Showing how media are rarely neutral vehicles of expression the contributors to this multidisciplinary volume analyze the mutual imbrications of media and religion during times of rapid technological and social change in various places throughout Africa **Christian Language** and its Mutations David Martin, 2022-02-16 Christian Language and its Mutations explores how Christian language alters in various social cultural historical and religious contexts Having delineated the core language of Christianity David Martin analyses how it mutates in different historical and social contexts notably peace and war the arts particularly painting and music the sacred space the city and the sacred text the liturgy education and the global situation of Christianity and contemporary secular society evangelicalism rational religion Pentecostalism and Base Communities Presenting a unique perspective to show how and why Christianity alters according to context this book will prove insightful and accessible to students clergy and general readers alike David Martin is Honorary Professor in the Department of Religious Studies Lancaster University and Emeritus Professor of Sociology at the London School of Economics UK He is the author of some two dozen books including many landmark titles in the sociology of religion The Age of Insanity John F. Schumaker, 2001-08-30 The often misunderstood modern person syndrome is a disorder linked to the conditions of living in our contemporary society The author argues that the conditions of modernity have introduced new processes forces and cultural motivations that have major implications for all aspects of mental health and social well being While modernity offers unprecedented opportunities for personal enhancement and creative expression there is mounting evidence of a mental health crisis that demands the immediate attention of mental health professionals In order to address the new challenges that have arisen under conditions of modernity mental health professionals must rethink fundamental assumptions about the relationship between society and mental health as well as the impact of modern social concerns upon individual behavior and psychological well being This innovative approach to mental health seeks to explain a variety of psychological trends including the steep rise in depression the sharp increase in the prevalence of existential disorders and the emergence of consumption disorders By shedding light on the interaction between modernity and mental health Schumaker illuminates the emerging patterns of mental disturbance while also offering new and more effective intervention and prevention strategies

Reflections on Religious Individuality Jörg Rüpke, Wolfgang Spickermann, 2012-07-04 This volume will concentrate its search for religious individuality on texts and practices related to texts from Classical Greece to Late Antiquity Texts offer

opportunities to express one s own religious experience and shape one s own religious personality within the boundaries of what is acceptable Inscriptions in public or at least easily accessible spaces might substantially differ in there range of expressions and topics from letters within a sectarian religious group which at the same time might put enormous pressure on conformity among its members regarded as deviant by a majority of contemporaries Furthermore texts might offer and advocate new practices in reading meditating remembering or repeating these very texts Such practices might contribute to the development of religious individuality experienced or expressed in factual isolation responsibility competition and finally in philosophical or theological reflections about personhood or self The volume develops its topic in three sections addressing personhood representative and charismatic individuality the interaction of individual and groups and practices of reading and writing It explores Jewish Christian Greek and Latin texts Resilient Religion, Resilience and Heartbreaking Adversity Chris A.M. Hermans, Kobus Schoeman, 2023-01-05 A resilience theory on religion needs to answer four questions What defines the kind of adversity which is addressed in religion What is characteristic for processes of resilience in religion What defines resilient religion as outcome Which logic of inference epistemology based on our beliefs and experiences about reality binds these three elements together. The book starts with mapping the field of resilience theory on religion by addressing all four questions The need for thinking about Christian resilience and the God symbol is addressed and the need to be explicitly contextual with regard to resilience in South Africa Next three types practices of religious acting are related to experiences of resilience namely preaching narrating and discerning In the last chapters the focus is on the way stories help to express feelings of experiences of crises tragedy and trauma But also how stories can help heal the broken heart Prof Chris A M Hermans is extraordinary professor in practical theology and missiology at the University of the Free State South Africa He is emeritus professor in pastoral theology at Radboud University the Netherlands and emeritus professor in empirical study of religion as Radboud University the Netherlands Prof Kobus W J Schoeman is professor of practical Losing the Sacred Ritual and Liturgy David theology at the University of the Free State South Africa Torevell,2004-11-11 This book argues that the liturgical reforms initiated by the second Vatican Council may have seriously undermined contemporary Roman Catholic worship Drawing on important work by Durkheim Bauman Foucault Turner Duffy Flanagan and Pickstock David Torevell focuses on the most crucial element of Catholic worship the experience of the sacred and examines how it has been eroded since pre modern times largely due to the marginalisation of ritual expression and its consequences A devastating critique of the loss of the sacred in worship this striking interdisciplinary study is a call for revitalisation of Roman Catholic liturgy through a reform of the reform and the reclamation of the importance of the body in ritual expression **Predicting Religion** Grace Davie, Paul Heelas, Linda Woodhead, 2017-07-05 Religion in the contemporary west is undergoing rapid change In Predicting Religion twenty experts in the study of religion present their predictions about the future of religion in the 21st century predictions based on careful analysis of the contemporary

religious scene from traditional forms of Christianity to new spiritualities. The range of predictions is broad A number predict further secularization with religion in the west seen as being in a state of terminal decline. Others question this approach and suggest that we are witnessing not decline but transformation understood in different ways a shift from theism to pantheism from outer to inner authority from God to self as god and above all from religion to spirituality. This accessible book on the contemporary religious scene offers students and scholars of the sociology of religion and theology as well as interested general readers fresh insights into the future of religion and spirituality in the west Published in association with the British Sociological Association Study of Religion group in the Ashgate Religion and Theology in Interdisciplinary Perspective series

Spirituality Kees Waaijman, 2002 This textbook is a systematic guide to the extensive field of spirituality Kees Waaijman charts the multiform phenomenon of spirituality the spirituality of ordinary people the great spiritual traditions and the force of counter movements From the foundation of this survey he answers questions like What exactly is spirituality What forms can a scholarly approach take Finally the book provides methodic access to the study of spirituality focusing on the following questions Which are the different forms of spirituality and how can we describe them How can spiritual texts be given a reliable reading Which themes can be distinguished in the field of spirituality and what would be a meaningful way to address them What do we mean by spiritual guidance and what can we learn from it This textbook has no equal It is indispensable to scholars wishing to study the subject but also to others who want to learn about spirituality and Subjectivity Harvie Ferguson, 2000 Few concepts have come to dominate the human sciences as much as modernity yet there is very little agreement over what the term actually means Every aspect of contemporary human reality modern society modern life modern times modern art modern science modern music the modern world has been cited as a part of modernity s distinctive and all embracing presence But what is the exact nature of the reality to which the term modern refers Has not such a promiscuous ill defined concept come to obscure and confuse rather than clarify a genuine understanding of our experience Harvie Ferguson proposes a new view of modernity arguing that although it may variously be associated with the Renaissance the European discovery of the New World the Reformation the Industrial Revolution and many other significant ruptures with primitive or premodern society modernity fails as an idea if it only defines itself against what it replaced Instead he writes modernity finds its clearest definition through an exploration of subjectivity For the modern world there is no higher authority than experience No longer is the human world subordinate to a divine reality beyond the capacity of its own senses This idea finds its greatest expression in the philosophy of doubt originated by Descartes Doubt seemed the radical starting point from which to found a wholly modern philosophy that makes the distinction between subject and object but those who came after Descartes soon reached the limits of self discovery and became trapped in deepening levels of despair This despair in turn found expression in the concepts of self and other and eventually in a dialectic of ego and world which distinguishes and links together the most important social cultural and psychological aspects of modernity Moving

beyond these dualities of subject and object mind and body ego and world and replacing them with the triad of body soul and spirit Ferguson redraws the map of contemporary experience finding links with the premodern world that modernity s self founding concealed Melancholy and the Critique of Modernity Harvie Ferguson, 2005-08-10 The connections between the emergence of modern society and the experience of melancholy are explored through a comprehensive re examination of Soren Kierkegaard's rich and insightful writings **Sociology of the Sacred** Philip A Mellor, Chris Shilling, 2014-08-12 About time Two key experts in the field remind us of the significance and power of religion as bio political and bio economic Beverley Skeggs Goldsmiths University of London A welcome addition to a continuing body of work by two distinguished theorists of religion Grace Davie University of Exeter Mellor and Shilling cement their place at the pinnacle of the contemporary sociological theorisation of religion and the sacred If sociological work is going to have any future it is to be found in the inspiration and excitement of this sophisticated and intelligent book Keith Tester University of Hull This book is ambitious refreshing and rewarding It offers the best available analysis of the complex interlacing of the sacred religion secularization and embodied experience James A Beckford University of Warwick Drawing on classical and contemporary social theory Sociology of the Sacred presents a bold and original account of how interactions between religious and secular forms of the sacred underpin major conflicts in the world today and illuminate broader patterns of social and cultural change inherent to global modernity It demonstrates How the bodily capacities help religions adapt to social change but also facilitate their internal transformation That the sacred includes a diverse range of phenomena with variable implications for questions of social order and change How proponents of a post secular age have failed to grasp the ways in which sacralization can advance secularization Why the sociology of the sacred needs to be a key part of attempts to make sense of the nature and directionality of social change in global modernity today This book is key reading for the sociology of religion the body and modern culture Christianity for Seekers and Skeptics Clinton W. McLemore, 2024-11-14 What is the difference between belief and faith Are science and religion incompatible How much do we know about Jesus Why does God keep us so much in the dark How much can we trust the Bible especially when the New Testament is two thousand years old and the Old Testament even older Has Christianity helped or hindered civilization What about violence in the name of Christ Why does God allow suffering and tragedy Does religious faith even make sense Christianity for Seekers and Skeptics is for those in search of passionate faith that also holds up under careful scrutiny It is also for Christians who want better to understand the foundations of their faith and how to respond when others challenge it The author is an award winning psychologist who has taught at the college and university levels He has also taught in a doctoral clinical training program at a seminary This wide ranging volume reflects decades of multi disciplinary study It is a refreshingly honest approach to questions about Christian beliefs and how someone in the twenty first century can think critically and also have strong faith This is a no nonsense presentation of Christianity that tackles the hard questions head on **Dictionary of Christian**

communities In what ways are the post transitional dynamics of migration enacted and reframed by different generations of migrants How are the religious symbols and ritual practices of particular worldviews and traditions appropriated and re interpreted by migrant communities What role does religion play in facilitating or impeding post migratory settlement Religion Migration and Mobility engages these questions by drawing on a range of different traditions and research methods As such this book will be of keen interest to scholars working across the fields of religious studies anthropology cultural studies and sociology Transformations and Transfer of Tantra in Asia and Beyond István Keul,2012-01-27 The essays in this volume written by specialists working in the field of tantric studies attempt to trace processes of transformation and transfer that occurred in the history of tantra from around the seventh century and up to the present The volume gathers contributions on South Asia Tibet China Mongolia Japan North America and Western Europe by scholars from various academic disciplines who present ongoing research and encourage discussion on significant themes in the growing field of tantric studies In addition to the extensive geographical and temporal range the chapters of the volume cover a wide thematic area which includes modern Bengali tantric practitioners tantric ritual in medieval China the South Asian cults of the mother goddesses the way of Buddhism into Mongolia and countercultural echoes of contemporary tantric studies
