**The Synaptic Gospel** Christopher D. Rodkey, 2012-01-06 In this book Christopher D Rodkey asks how the brain worships and responds by engaging ideas from neurological science philosophy ritual theory and religious education From this exploration two new paradigms for pastoral ministry emerge First Rodkey proposes a pan generational principle advocating an empathy based approach for fostering faith communities a principle that is radically inclusive to all generations Second Rodkey argues that worship and religious education should converge to include a shared goal of teaching individuals to live liturgically In *The Synaptic Gospel* Rodkey argues that living and thinking liturgically are learned behaviors that may be promoted through pan generational worship The book concludes with a special emphasis on practical suggestions for youth ministry *The Synaptic Gospel* will prove to be a useful theoretical tool for pastors religious educators youth ministers church music professionals and seminary students

**International Handbook of the Religious, Moral and Spiritual Dimensions in Education** Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 In today's pluralistic world many cultures feel a shift in the relationship of people with religious traditions A corresponding movement is a resurgence of interest in human spirituality This Handbook presents the views of education scholars who engage these concepts every day in a collection of essays reflecting the international state of the discipline Out of these rises a vision for the emergence of a just and peaceful world

*Metacognition, Worldviews and Religious Education* Shirley Larkin, Rob Freathy, Jonathan Doney, Giles Freathy, 2019-07-03 Religious Education RE holds a unique place within the state education system Yet the teaching of RE has often been criticised for its tendency to present simplified and stereotypical representations of religions Bringing together the theory of metacognition with RE curriculum content this book offers a coherent and theoretically supported approach to RE and beyond that is applicable to a range of subjects and students of various age groups *Metacognition Worldviews and Religious Education* seeks to support teachers in creating a new and exciting classroom approach With a focus on putting children and teachers worldviews back on the RE agenda and developing awareness of these through metacognitive processes it includes Tables frameworks and checklists to make it easy for teachers to adapt the approach to their own context Concrete examples of how the approach can work in the classroom including case studies from teachers Call out boxes for teachers and others to reflect on their own practice and to consider their own beliefs and values in relation to teaching and learning Co authored by three researchers from Exeter University and one experienced advanced skills RE primary school teacher this book explains in a jargon free way the theories of metacognition and worldviews which underpin the creation of a unique learning environment making it an essential read for students experienced teachers researchers in RE and anyone interested in taking a thinking skills approach

to pedagogy     Does Religious Education Matter? Mary Shanahan, 2016-07-28 In the current climate and in an age of increasing hostility towards religion and the study of religion religious education is a much debated area Bringing together an interdisciplinary team of contributors from the USA Britain and Ireland and Australia representing a variety of religious perspectives Does Religious Education Matter provocatively demonstrates that it is vital that religious education is presented as it really is a valuable and rich resource that when taught and engaged with appropriately stimulates essential qualities for global and responsible citizenship critical thinking tolerance respect and mutual understanding     *The Brain and Educational Connections* Bridget Connor, 2014-07-22 The Brain and Educational Connections is based on current studies from neuroscientists and research in the field of psychology and education This book also presents sound educational theories and practices as they relate to important research findings This book is written for teachers administrators and those interested in providing stimulating and nurturing environments for children to become enthusiastic life long learners Scientific research helps identify and affirm for those in education good teaching strategies Research shows conclusively that learning and therefore teaching is holistic Therefore education must address the emotional psychological and social needs of the child if it is to be considered successful This book provides compelling thought provoking and relevant materials that will renew readers dedication to teaching and lend credence and support to new and creative educational practices     *Teaching the Bible in the Church* John Bracke, Karen Tye, 2003-01-01 This interdisciplinary conversation combines educational theory with Bible scholarship to help teachers of the Bible move beyond conveying information to revealing the transformative power of the scripture     **Sticky Learning** Holly J. Inglis, 2014-11-01 Despite the introduction of new technologies for classrooms many seminary courses still utilize primarily auditory methods to convey content Course outcomes may include opportunities for learners to demonstrate knowledge and skills gained but may not include opportunities for learners to begin to embed knowledge and skills into their long term memory Educators are engaging with neuroscientists to reshape classroom practices content delivery curriculum design and physical classroom spaces to enhance students learning and memory primarily in elementary and secondary education Why not in seminary education An overview of how learning occurs in our brain what the different types of memory are and how memory is created serves as a framework for suggesting pedagogical tools These brain friendly tools are specifically applied to individual academic disciplines enabling instructors to make concrete modifications in the structure and content of what is taught making learning more sticky Inglis s synopsis of the use of neuroscience in the classroom and suggested action is followed by a collaborative dialogue with Kathy L Dawson and Rodger Y Nishioka Dawson and Nishioka provide practical commentary regarding the successful implementation of Inglis s proposed approach As a group Inglis Dawson and Nishioka create a text that extends pedagogical innovation in inspiring but practical ways     **The Principles of Physical, Intellectual, Moral, and Religious Education** William Newnham, 1827     On Holy Ground: The Theory and Practice of Religious Education Liam Gearon, 2013-07-18 Religion has

had notable and renewed prominence in contemporary public and political life Religious questions have also been freshly examined in philosophy and theology the natural sciences the social sciences psychology phenomenology politics and the arts These fields reflect complex multi disciplinary understandings of religion some hostile some accommodating For religious education this has all contributed to its own international renaissance Religious education in ensuring it is contemporary shares with these fields the same criticality the same distance between the study of religion and the religious life Yet what are the grounds of this modern religious education Through a systematic historical and contemporary cross disciplinary analysis answering this question is the ambitious task of the book Chapters include philosophy theology and religious education the natural sciences and religious education the social sciences and religious education psychology spirituality and religious education phenomenology and religious education the politics of religious education the aesthetics of religious education The central problem of all modern religious education remains this what are the grounds of religious education when religious education is no longer grounded in the religious life in the life of the holy Although this primarily appears to be an epistemological problem it soon becomes a moral and existential one The book will be of key interest to teachers theorists and researchers working in religious education      *Foundational Issues in Christian Education* Robert W. Pazmiño, 2008-09 Updated and revised this book explores the essential foundations of Christian education that educators draw upon in their thought and practice      **Religious and Theological Abstracts** ,1994      [Religion in Education](#) William K. Kay, Leslie J. Francis, 1997      *Religious Education* ,1924      **The Logic of the Spirit in Human Thought and Experience** Keith J White, Dana R Wright, 2015-02-26 In March 2012 a small consultation convened on the campus of Princeton Theological Seminary where James E Loder Jr had served for forty years as the Mary D Synnott Professor of the Philosophy of Christian Education Members from the Child Theology Movement had begun to read Loder s work and they wanted to go further So they invited former students of Loder s to meet with them for conversations about things that really mattered to them and to Loder human beings and especially children the church s witness to the gospel of Jesus Christ and discerning the work of Spiritus Creator in the postmodern world The conversations proved rich and rewarding and some would even say they took on a life of their own serious scholarship set to the music of the Spirit s communion creating artistry forming new relationships inspiring new ideas and sustaining all of it amid much laughter joy and hope These essays taken from the papers delivered at the consultation are offered as a means of extending that conversation inspired by Loder s interdisciplinary practical theological science and his discernment of the      **Authorised Report of the Church Congress** Anonymous, 2023-10-13 Reprint of the original first published in 1875      *Contemporary Challenges for Religious and Spiritual Education* Arniika Kuusisto, Terry Lovat, 2017-10-02 From being on the margins of scholarly debate for much of the past century and a half religion is being recognized once again as an area of concern for scholars politicians and public policy makers and thus the role of religious and spiritual education has taken on a new importance Apart from its socio political

ramifications the place of religiousness and spirituality in the make up of individuals has been given renewed prominence through updated brain science and neuroscientists regularly refer to elements of this brain science in terms such as spiritual intelligence and even mystical consciousness This book explores many of the new directions being taken in the field of religious and spiritual education as new developments challenge the priorities of formal education and open up new avenues for incorporating religion and spirituality into the modern curriculum It asks whether the educational aims of teachers should be focused on specifically personal development or whether religious education should be used to develop understanding of more global and social issues such as citizenship conflict and ethics The book also addresses neuroscientific insights which suggest a need to engage with cognition and emotion in order to create a rich learning environment something to which a particularly contested subject area like religion and spirituality is well placed to contribute This book was originally published as a special issue of the Journal of Beliefs Values      **Signs of Science** Dale J. Pratt, 2001 Signs of Science Literature Science and Spanish Modernity since 1868 traces how Spanish culture represented scientific activity from the mid nineteenth century onward The book combines the global perspective afforded by historical narrative with detailed rhetorical analyses of images of science in specific literary and scientific texts As literary criticism it seeks to illuminate similarities and differences in how science and scientists are pictured as cultural history it follows the course of a centuries long dialogue about Spain and science      **The book of health, by sir R.
