Secrets of the Holy Bible Last Prophets, 2011-04-13 This book uses both modern science and biblical references together without contradiction This book releases for the first time secret codes in the bible which disclose the approximate dates of all events in the book of Revelation which includes the dates of all seven seals and what they really are and the exact date the Antichrist and false prophets are due to arrive and what 666 really stands for in the ancient text This book also exploits hypocrisies of our society and explains biblical misconceptions and loop holes in the bible and shows the reader how far fetched you could make religion because of these loop holes This book also categorizes and groups together bible verses related to similar topics for your convenience and reference and most importantly this book documents with over 2 900 different bible verses what the bible really says **Black Churches and Local Politics** Fredrick C. Harris, Drew R. Smith, 2005-06-30 This book on black churches and urban politics uses case studies from various cities to examine the strategies and tactics of activist clergy and congregations These case studies illustrate how black activist clergy and congregations negotiate the political terrains of their respective cities The cases show that the political culture of a city whether that culture is shaped by machine politics a legacy of political protest racial and ethnic factionalism or a city whose power resides in the mayor's office rather than the city council chamber can influence the tactics of activist clergy and congregations These cases also show how strategies and tactics vary across congregations as well as within and across cities Not only do activist churches emphasize political empowerment or economic development their tactics to pursue their goals may take different forms They can form coalitions with other churches and or political organizations lobby public officials use personal appeals to persuade politicians or mobilize voters for candidates who support the congregation's agenda By taking stock of the strategies that activist black clergy and congregations adopt and the tactics they use to research their goals the cases in this book highlight nuances in black clergy and church activism that are captured beyond a single case or a focus on national politics The three sections of *Black Churches and Local Politics* examine the many ways that black activist clergy

and congregations voice their concerns in urban politics The tactics explored are the use of personal influence by activist ministers the formation of coalitions with churches and community organizations and pressure groups that lobby government institutions and leaders on behalf of minority communities The Christian Century ,1928 **Minutes, Roll of Delegates, Moderator's Address, Council Sermon, Reports, Statements of Mission Boards, Constitution and By-laws, Etc** ,1919 **A Syllabus of Comparative Government and National Ideals** William Whatley Pierson (Jr.),1919 *The Christian Work and the Evangelist* ,1908 *War Publications and Reports of the War Committee of the University of Illinois, 1917-1919* University of Illinois (Urbana-Champaign campus).
