Religious Resurgence Richard T. Antoun, Mary Elaine Hegland, 1987 Religious Resurgence Richard T. Antoun, Mary Elaine Hegland, 1987 **The Resurgence of Religion** David S. Zeidan, 2018-11-13 This book is a comparative study of basic themes in Christian and Islamic fundamentalist discourses analyzing and comparing texts from a wide variety of fundamentalist leaders and movements looking for family resemblances and significant differences in order to better understand the contemporary phenomenon of religious resurgence After placing fundamentalisms in a theoretical framework the study looks at selected themes important to fundamentalists noting resemblances and differences These themes include their anti secularist stance their theocentric worldviews their reliance on inerrant sacred scriptures and their attitudes to politics government state and democracy The study also looks at the fundamentalist view of the world as a perennial battlefield between the forces of good and those of evil in the realm of ideologies as well as politics and the legitimization of violence Routledge Handbook of Religion and Politics Jeffrey Haynes, 2016-01-13 From the United States to the Middle East Asia and Africa religion continues to be an important factor in political activity and organisation The second edition of this successful handbook provides the definitive global survey of the interaction of religion and politics Featuring contributions from an international team of experts it examines the political aspects of all the world's major religions including such crucial contemporary issues as religious fundamentalism terrorism the war on terror the clash of civilizations the Arab Spring and science and religion Each chapter has been updated to reflect the latest developments and thinking in the field and new chapters such as Postsecularism and international relations and Securitization and Secularization The two pillars of state regulation of European Islam have been added to ensure the book is a comprehensive and up to date resource Four main themes addressed include World religions and politics Religion and governance Religion and international relations Religion security and development References at the end of each chapter have been overhauled to guide the reader towards the most up to date information on various topics This book is an indispensable source of information for students academics and the wider public interested in the dynamic relationship between politics and religion Social Theory and Religion James A. Beckford, 2003-08-21 Many aspects of religion are puzzling these days This book looks at ways of improving our understanding of religious change by strengthening the links between social theory and the social scientific study of religion It clarifies the social processes involved in constructing religion and non religion in public and private life Taking illustrations of the importance of these boundaries from studies of secularisation religious diversity globalisation religious movements and self identity James A Beckford reviews the current state of social scientific knowledge about religion **The Musical World of Halim El-Dabh** Denise A. Seachrist, 2003 Egyptian born composer Halim El Dabh has studied with the giants of 20th century musical composition and conducting including Leopold Stokowski Irving Fine and Leonard Bernstein In the late 1950s El Dabh worked with electronic music pioneers Otto Luening and Vladimir Ussachevsky at the Columbia

Princeton Electronic Music Center He was commissioned by choreographer and modern dance innovator Martha Graham to write the music for Clytemnestra and Lucifer Although this biography focuses on his career from his arrival in the US in 1950 to his retirement from the faculty of Kent State University in 1991 his life in Egypt its influence on him musically and his creative life after retirement is also covered In March 2002 El Dabh presented a concert of his electronic and electro acoustic works and three concerts of his orchestral chamber music in collaboration with the Bibliotheca Alexandrina String Orchestra at the Bibliotheca Alexandrina the famous Library of Alexandria of antiquity The accompanying CD features excerpts of this programme Understanding Religious Conversion Lewis Ray Rambo,1993-01-01 Looking at a wide variety of religions this work offers an exploration of religious conversion The phenomena is approached from a variety of disciplines including psychology sociology theology and anthropology **Pioneers of Islamic Revival** Ali Rahnema,1994 Pioneers of Islamic Revival examines the political environments lives and works of those diverse nineteenth and twentieth century Muslim thinkers who believed that Islam was capable of providing practical solutions to the problems of the modern world

Indigenous Peoples And Religious Change Peggy Brock,2005 Ten historians and anthropologists analyse religious change as it was experienced by Indigenous Peoples in and around the Pacific and southern Africa in the nineteenth and twentieth centuries *Islam, Peace and Social Justice* A Christian van Gorder,2014-05-29 Islam Peace and Social Justice examines the ways in which Islamic cultures have dealt with issues of social justice historically and culturally With unwavering objectivity the author helps readers of any faith to gain a nuanced and accurate understanding of the challenges that we face in contemporary multifaith engagements Dr van Gorder offers a comprehensive and sympathetic Christian insight into Islam The contentious issues of social justice that are encountered in this broad yet intricate studyinclude the concept of Jihad poverty political oppression human rights genocide racism sexual injustice homophobia and environmental degradation The challenges are real and the problems are vast partnerships and solutions must be found peopleof faith Muslim Jewish and Christian must find ways to work together to address these shared challenges This work exposes misrepresentations and stereotypes about Islamic views of social justice that abound in Europe and North America The author encourages a deeper appreciation of how themes of social justice resound through Islamic texts and have been expressed both in the contemporary and historical life of various and diverse Islamic communities worldwide Global Social Movements

Continuum,2004-11-01 Articles by Sarah Ashwin Upendra Baxi Jim Beckford Cynthia Cockburn John Forrester Paul Havemann Paul Lubeck John Mattausch Ronaldo Munck Peter Newell Deborah Stienstra and Steven Yearley Fatal Future? Richard M. Pearlstein,2004-04-01 Annotation This groundbreaking book examines the evolution of terrorism in the context of the new global disorder **Social Welfare and Religion in the Middle East** Rana Jawad,2009-07-29 The original analysis in this book presents a new and comprehensive narrative of social welfare in the Middle East through an examination of the role of religious welfare Social Science and the Cults John A. Saliba,2019-03-20 This book first

published in 1990 brings together descriptive comparative and theoretical materials on cults and sects in Western culture focusing on literature published since 1970 A historical section links the rise of the new movements to similar past phenomena in Western culture Other sections examine the methodology of studying religious movements and the various theories which have been brought to explain them current studies on traditional sects that are sometimes compared to the new religions and many studies of individual contemporary cults *Religious Actors and International Law* Ioana

Cismas,2014-07-17 This book assesses whether a new category of religious actors has been constructed within international law Religious actors through their interpretations of the religion s they are associated with uphold and promote or indeed may transform potentially oppressive structures or discriminatory patterns This study moves beyond the concern that religious texts and practices may be incompatible with international law to provide an innovative analysis of how religious actors themselves are accountable under international law for the interpretations they choose to put forward The book defines religious actors as comprising religious states international organizations and non state entities that assume the role of interpreting religion and so claim a special legitimacy anchored in tradition or charisma Cutting across the state non state divide this definition allows the full remit of religious bodies to be investigated It analyses the crucial question of whether religious actors do in fact operate under different international legal norms to non religious states international organizations or companies To that end the Holy See Vatican the Organization of Islamic Cooperation and churches and religious organizations under the European Convention on Human Rights regime are examined in detail as case studies The study ultimately establishes that religious actors cannot be seen to form an autonomous legal category under international law they do not enjoy special or exclusive rights nor incur lesser obligations when compared to their respective non religious peers Going forward it concludes that a process of two sided legitimation may be at stake religious actors will need to provide evidence for the legality of their religious interpretations to strengthen their legitimacy and international law itself may benefit from religious actors fostering its legitimacy in different cultural contexts **Muslim View Of Christianity (a)**

Irfan A. Omar,2010 *State Power and Politics in the Making of the Modern Middle East* Roger Owen,2002-04-12 This book continues to serve as an excellent introduction for new comers to the modern history and politics of a region that is usually portrayed as mysterious unpredictable and violent *Religion and Politics* John T. S. Madeley,2019-07-15 This title was first published in 2003 This subject area of this work cross cuts conventional sub disciplinary boundaries in the study of comparative politics Connections between religion and and politics can be identified in all of the thematic areas covered by the articles within **The Sociology of Religion** George Lundskow,2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion s practioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either

try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one. Many use real life examples only superficially to illustrate concepts. Lundskow's approach is the opposite: students will learn the facts of religion in its great diversity, all the most interesting and compelling beliefs and practices, and then learn relevant concepts that can be used to explain empirical observations. The book thus follows the logic of actual research: investigate and then analyze, rather than approaching concepts with no real bearing on how religion is experienced in society. This approach, using provocative examples and with an eye toward the historical and theoretical, not to mention global experience of religion, will make this book a success in the classroom. The author envisions a substantive approach that examines religion as it actually exists in all its forms, including belief, ritual, daily living, identity, institutions, social movements, social control, and social change. Within these broad categories, the book will devote particular chapters to important historical moments and movements, leaders, and various individual religions that have shaped the contemporary form and effect of religion in the world today.

Religion in Global Civil Society Mark Juergensmeyer, 2005-11-03. The world's religions are becoming increasingly globalized. One can no longer equate particular faiths with corresponding geographic locations. Islam is as much a south or southeast Asian religion as it is a middle eastern one. And Christianity is growing by leaps and bounds in Africa, Asia, and Latin America, while it declines in Europe. In addition to these major population shifts, small communities of adherents of every religion are scattered across the globe, where they mingle with and adapt to local cultures. What are we to make of this new religious world? The Oxford Handbook of Global Religions offers a comprehensive look at world religious societies in their contemporary global diversity. Comprising 60 essays, each by a leading scholar, the volume focuses on communities rather than beliefs, symbols, or rites. Communities in the diaspora and at the periphery are covered as well as the central geographic regions of all the major living religious traditions. It is organized into six sections: the Indic cultural region, the Buddhist, Confucian, the Jewish, Christian, and Muslim regions, and the African cultural region. In each section, an introductory essay discusses the social development of that religious tradition historically. The other essays cover the basic social facts: the community's size, location, organizational and pilgrimage centers, authority figures, patterns of governance, major subgroups, and schisms, as well as issues regarding boundary maintenance, political involvement, role in providing cultural identity, and encounters with modernity. The world's religious communities are more diverse than ever before, and there is no other volume that covers the tremendous variety of faith communities discussed in this Handbook. This volume will be indispensable to anyone interested in contemporary religion.
