Religious Situation 1968:

The Religious Situation Donald R. Cutler, 1968 *The Religious Situation: 1968* Donald R. Cutler, 1968 *The Religious Situation. 1968-1969*, 1968 *The Religious Situation. 1968-*, 1968 **The Grammar of Social Relations** Louis Schneider, This collection of the writings of Louis Schneider an exceptionally gifted sociologist of religion the history of ideas provides a sensitive but rigorous view of the place of ideas in social life Divided according to the principal areas in which Schneider conducted research history of social thought principles of social theory sociology of religion are essays on evolution styles of research and moral choice in human relations His knowledge of systems of thought dialectical functional and phenomenological was peerless The unifying theme in his work is the place of cultural formations in social structures as a result his writings are alive with persons no less than systems *A Religious History of the American People* Sydney E. Ahlstrom, 2004-01-01 This classic work winner of the 1973 National Book Award in Philosophy and Religion and Christian Century's choice as the Religious Book of the Decade 1979 is now issued with a new chapter by noted religious historian David Hall who carries the story of American religious history forward to the present day Praise for the earlier edition An unusual and praiseworthy book It takes a modern almost anthropological view of history in which worship is a part of a web of culture along with play love dress and language B A Weisberger Washington Post Book World The most detailed most polished of the works in its tradition Martin E Marty New York Times Book Review An intellectual delight that one does not so much read as savor America The definitive one volume study by the leading authority Christianity Today No one writing or thinking hereafter about America's past will be able to ignore Ahlstrom's magisterial account of the religious element American Historical Review *African American Religious Studies* Gayraud S. Wilmore, 1989 This anthology provides a coherent interdisciplinary theoretical base for students of African American religious studies and will assist in the design of programs and courses for lay theological education and training To this end the editor has assembled material from Old and New Testament studies theology church history pastoral counseling worship and social action Bibliography of Japanese New Religious Movements Peter B Clarke, 2013-12-16 Containing some 1500 entries this new bibliography will be widely welcomed for its comprehensive brief and for the sub section profiling principal NRMs converging history beliefs and practices main publications branches worldwide and membership *African-American Religion* Timothy Earl Fulop, Albert J. Raboteau, 1997 African American religions encompass a broad spectrum of beliefs practices This book brings together in one forum the most important essays on the development of these traditions to provide an overview of the field its most important scholars Cycles of Faith Robert S. Ellwood, 2003 Can the histories of the great religious traditions help us to predict their futures Are broad common patterns discernable within the developments of Hinduism Chinese religion Buddhism Christianity and Islam In Cycles of Faith noted historian of religion Robert Ellwood makes the case that the five largest world religions all move through the stages of Apostolic Imperial Devotional Reformation and Folk Religion Cycles of Faith is a completely

revised edition of Ellwood's 1988 book *The History and Future of Faith* Ellwood's readable text can provide a useful theoretical framework to many classes in religious studies *Sociological Amnesia* Alex Law, Eric Royal Lybeck, 2016-03-03

The history of sociology overwhelmingly focuses on the winners from the classical canon Marx Durkheim and Weber to today's most celebrated sociologists This book strikingly demonstrates that restricting sociology in this way impoverishes it as a form of historically reflexive knowledge and obscures the processes and struggles of sociology's own making as a form of disciplinary knowledge *Sociological Amnesia* focuses on singular contributions to sociology that were once considered central to the discipline but are today largely neglected Chapters explore the work of illustrious predecessors such as Raymond Aron Erich Fromm and G D H Cole as well as examining exceptional cases of reputational revival as in the case of Norbert Elias or Gabriel Tarde Through understanding the obstacles of recognition faced by female sociologists like Viola Klein and Olive Schreiner and public intellectuals like Cornelius Castoriadis the volume considers the reasons why certain kinds of sociology are hailed as central to the discipline whilst others are forgotten In so doing the collection offers fresh insights into not only the work of individual sociologists but also into the discipline of sociology itself its trajectories forgotten promises and dead ends *All Faithful People* Theodore Caplow, Howard M. Bahr, Bruce A. Chadwick, Dwight W. Hoover, 1983-10-17

All Faithful People was first published in 1983 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In 1924 Robert and Helen Lynd went to Middletown Muncie Indiana to study American institutions and values The results of their work are the classic studies *Middletown* 1929 and *Middletown in Transition* 1937 In the late 1970s a team of social scientists returned to Middletown to gauge the changes that have taken place in the fifty years since the Lynds' first visit The *Middletown III* Project by replicating the earlier work in some cases by using the same questions provides an unprecedented portrait of a small American town as it adapts to changing times Its first report *Middletown Families* was published by Minnesota in 1982 This book explores the role of religion in the life of Middletown Using the Lynds' magnificent cache of empirical data as a base social scientists on the *Middletown III* Project attempted to gauge how religious beliefs and practices have changed For the most part their findings show that the current perception of a trend toward a more secular society is not true In Middletown religion seems to be more important than ever *All Faithful People* also covers the history of Middletown's churches the differences between the town's Protestants and Catholics religious participation among young people and the role in Middletown life of private devotions and public rituals In conclusion the authors of *All Faithful People* evaluate Middletown as a representative community They attempt to explain the myth of the death of organized religion and briefly compare religion in America to religion in other Western countries Fifty years after the Lynds' first made Middletown famous a team of social scientists returned to find out how American values have changed This their second report focuses on religion What does religion mean to Middletown today Has America become a secular society Those are some of the

questions discussed in *All Faithful People* The Sociology and Politics of Development Baidya Nath Varma, 2010-11-26
Originally published in 1980 this work answers the crucial question of how social change should be guided in the developing countries Professor Varma begins by posing the problems of the general scope of modernization and the general criteria used in the modernization process He examines carefully some of the models that have been used for this purpose in the past providing extensive summaries of the views on modernization of theorists in various social science disciplines including sociology politics economics and anthropology and stresses the importance of these views in guiding policy decisions The book concludes with a comparison of the development processes of the United States the Soviet Union China Japan and India

Faith Without Dogma Franco Ferrarotti, 1993-01-01 We live in a time of high Church membership but low Church attendance Franco Ferrarotti arguably the most important sociologist of religion alive captures the source of this paradox in the title of his new book *Faith without Dogma* For it is belief that propels membership while the absence of dogma results in a reticence to accept hierarchical direction from above or beyond Basing much of his analysis on the postwar struggles within Roman Catholicism Ferrarotti views the demand for religious renewal and revival as part and parcel of the emergence of broad social agendas agendas to which not even the Roman curia could remain impervious The former easy relationships between Church and State especially authoritarian states in Europe and Latin America gave way to a critical defense of individual rights within a context of a broadened vision of Christian doctrine In addition to issues involved in internal affairs of religion Ferrarotti explores a series of developments that have changed for all time the nature of Church survival The critical element one that goes beyond specific doctrinal accommodations is the new primary connection of Church to people rather than Church to State This came about through the widespread acceptance of science and technology as frames of intellectual reference the emergence of secularization as mediating religious claims and the creation from the Enlightenment to the Postmodern eras of civil religions The volume concludes with a set of chapters on the nature of sacred events and objects the emergence of new varieties of prayer and concludes with a chapter on the relationship of ideology to theology prepared especially for the English language edition of *Faith without Dogma* This is a book likely to attract a broad audience among religionists and culturologists as well as social scientists **An Introduction to Psychology of Religion** Robert W. Crapps, 1986 Developed in almost thirty years of classroom experience this book is designed to introduce students and other readers to the psychological study of religion Robert W Crapps deals with the major questions and figures that have dominated the psychological study of religion over the past century dividing the discussion into four parts Two chapters in part one suggest the problems and possibilities for the psychological study of religion in light of the nature of religion and the scientific method Part two sketches the contributions to the study of religion of three intellectual currents in contemporary psychology psychoanalysis behaviorism and humanistic psychology part three explores the relationship between religion and human development while part four directs attention to religious lifestyles and that weave differentiated parts of human

experience into a cohesive whole Publisher description *Beyond Belief* Robert N. Bellah,1991-06-11 *Beyond Belief* collects fifteen celebrated broadly ranging essays in which Robert Bellah interprets the interplay of religion and society in concrete contexts from Japan to the Middle East to the United States First published in 1970 *Beyond Belief* is a classic in the field of sociology of religion **Farewell to Innocence** Allan Aubrey Boesak,2015-05-01 While we acknowledge that all expressions of liberation theology are not identical we must protest very strongly against the false divisions that some make between black theology in South Africa and black theology in the United States between black theology and African theology and between black theology and Latin American liberation theology But moving away from the illusioned universality of western theology to the contextuality of liberation theology is a risky business one that cannot be done innocently In the search for theological and human authenticity in its own situation black theology does not stand alone It is but one expression of this search going on within many different contexts Until now the Christian church had chosen to move through history with a bland kind of innocence hiding the painful truths of oppression behind a facade of myths and real or imagined anxieties This is no longer possible The oppressed who believe in God the Father of Jesus Christ no longer want to believe in the myths created to subjugate them It is no longer possible to innocently accept history as it happens silently hoping that God would take the responsibility for human failure The theology of liberation spells out this realization For the Christian church it constitutes in no uncertain terms farewell to innocence **The Politics of Myth** Robert Ellwood,1999-09-02 At the same time they themselves tended toward individualistic views of the power of myth believing that the world of ancient myth contained resources that could be of immense help to people baffled by the ambiguities and superficiality of modern life BOOK JACKET **Black and Mennonite** Hubert L.
