Religious Thought In The Nineteenth Century:

Religious Thought in the Nineteenth Century Bernard M. G. Reardon, 1966 Mr Reardon begins with a substantial introduction characterizing the age as a whole contrasting it with the previous century and assessing its permanent achievements The book is divided into two parts The first deals with twelve writers from continental Europe with an account of the chosen author's life work and opinions The second deals with British and American writers and again each of the twelve chapters is introduced by an essay of about 1500 words Mr Reardon gives special attention to the philosophical interpretation of religion and of Christianity in particular traditional dogma and ecclesiastical politics whether Roman Catholic or Protestant have been avoided and emphasis is given to ideas and interests that are characteristic of the period Not all the thinkers introduced e.g. Feuerbach Comte J S Mill are themselves Christians The result is a clear picture of the main currents of Western religious thought in the nineteenth century It is a century which the student of religion today is likely to find of great interest and to which many will feel a close affinity Publisher Religious Thought 19 Century

Nineteenth Century Religious Thought in the West Ninian Smart, 1988 Now available in paperback the successful three volumes of Nineteenth Century Religious Thought in the West provide a fresh appraisal of the most important thinkers of that time Some essays centre on major figures of the period others cover topics trends and schools of thought between the French Revolution and the First World War The contributors are among the leading scholars in their field and analyse not only what was said but also why it was said and explore what is of lasting value in it Contributions are sufficiently clear to be of use to students in religious studies and cognate disciplines but have enough

depth and detail to appeal to scholars *Movements of Religious Thought in Britain During the Nineteenth Century* John Tulloch, 2015-06-26 Excerpt from *Movements of Religious Thought in Britain During the Nineteenth Century* I have undertaken to give in a course of eight lectures some account of the Movements of Religious Thought in our country during the present century As the subject is in any view a large one and presents many aspects it is important at the outset to indicate its exact character and the limits within which I propose to treat it Our subject then is the Movements of Religious Thought not of Religion within the century Religion is a wide word with some meanings of which we have nothing to do The expression Religious Thought may be also more or less widely interpreted but on any interpretation it leaves outside much belonging to religion and its life and movement in the world It leaves outside for example not only the large field of practical Christian action but also that of ecclesiastical and politico ecclesiastical parties About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
