Religious Thought Of Chu Hsi:

The Religious Thought of Chu Hsi Julia Ching, 2000-08-24 Recognized as one of the greatest philosophers in classical China Chu Hsi 1130 1200 is known in the West primarily through translations of one of his many works the *Chin ssu Lu* In this book Julia Ching offers the first book length examination of Chu Hsi s religious thought based on extensive reading of both primary and secondary sources Ching begins by providing an introduction to Chu s twelfth century intellectual context She then examines Chu s natural philosophy looking in particular at the ideas of the Great Ultimate and at spirits and deities and the rituals that honor them Next Ching considers Chu s interpretation of human nature and the emotions highlighting the mystical thrust of the theoretical and practical teachings of spiritual cultivation and meditation She discusses Chu s philosophical disputes with his contemporaries in particular Lu Chiu yuan and examines his relationship to Buddhism and Taoism In the final chapters Ching looks at critiques of Chu during his lifetime and after and evaluates the relevance of his thinking in terms of contemporary needs and problems This clearly written and highly accessible study also offers translations of some of Chu s most important philosophical poems filling a major gap in the fields of both Chinese philosophy and religion

Chu Hsi and His Masters Joseph Percy Bruce, 1923 *Ritual Opera and Mercantile Lineage* Qitao Guo, 2005 Focusing on the Confucian transformation of Mulian opera and especially on the interplay between the civilizing effect of ritual performance and the rise of gentrified mercantile lineages in sixteenth century Huizhou prefecture this book develops a radically novel interpretation of both Chinese popular culture and the Confucian tradition in late imperial China

Interrelatedness in Chinese Religious Traditions Diana

Arghirescu,2022-11-17 The study of religions is essential for understanding other cultures building a sense of belonging in a multicultural world and fostering a global intercultural dialogue Exploring Chinese religions as one interlocutor in this dialogue Diana Arghirescu engages with Song dynasty Confucian and Buddhist theoretical developments through a detailed study of the original texts of the Chan scholar monk Qisong 1007 1072 and the Neo Confucian master Zhu Xi 1130 1200 Starting with these figures she builds an interpretive theory focusing on ethical interrelatedness and proposes it as a theoretical tool for the study of the Chinese religious traditions By actively engaging with other contemporary theories of religion and refusing to approach Chinese religions with Western frameworks Arghirescu s comparative perspective makes it possible to uncover differences between the various Western and Chinese cultural presuppositions upon which these theories are built As such this book breaks new ground in the methodology of religious studies comparative philosophy and furthers our understanding of the Confucian Buddhist interaction

Spirit, Qi, and the Multitude Hyo-Dong Lee,2013-11-11

We live in an increasingly global interconnected and interdependent world in which various forms of systemic imbalance in power have given birth to a growing demand for genuine pluralism and democracy As befits a world so interconnected this book presents a comparative theological and philosophical attempt to construct new underpinnings for the idea of democracy by bringing the Western concept of spirit into dialogue with the East Asian nondualistic and nonhierarchical notion of qi The book follows the historical adventures of the idea of qi through some of its Confucian and Daoist textual histories in East Asia mainly Laozi Zhu Xi Toegye Nongmun and Su un and compares them with analogous conceptualizations of the ultimate creative and spiritual power found in the intellectual constellations of Western and or Christian thought namely Whitehead s Creativity Hegel s Geist Deleuze s chaosmos and Catherine Keller s Tehom The book adds to the growing body of pneumatocentric Spirit centered panentheistic Christian theologies that emphasize God s liberating equalizing and pluralizing immanence in

the cosmos Furthermore it injects into the theological and philosophical dialogue between the West and Confucian and Daoist East Asia which has heretofore been dominated by the American pragmatist and process traditions a fresh voice shaped by Hegelian postmodern and postcolonial thought This enriches the ways in which the pluralistic and democratic implications of the notion of qi may be articulated In addition by offering a valuable introduction to some representative Korean thinkers who are largely unknown to Western scholars the book advances the study of East Asia and Neo Confucianism in particular Last but not least the book provides a model of Asian contextual theology that draws on the religious and philosophical resources of East Asia to offer a vision of pluralism and democracy A reader interested in the conversation between the East and West in light of the global reality of political oppression economic exploitation and cultural marginalization will find this book informative engaging and enlightening

Can Different Cultures Think the Same Thoughts? Kenneth Dorter, 2018-04-30 A welcome contribution to the burgeoning multicultural revolution in philosophy persuasively shows that ethics cannot be innocent of metaphysics Bryan W Van Norden author of Introduction to Classical Chinese Philosophy Kenneth Dorter's *Can Different Cultures Think the Same Thoughts* is a study of fundamental issues in metaphysics and ethics across major philosophical traditions of the world including the way in which metaphysics can be a foundation for ethics as well as the importance of metaphysics on its own terms Dorter examines such questions through a detailed comparison of selected major thinkers and classic works in three global philosophical traditions those of India China and the West In each chapter Dorter juxtaposes and compares two or more philosophers or classic works from different traditions from Spinoza and Shankara to Confucius and Plato to Marcus Aurelius and the Bhagavad Gita In doing so he explores different perspectives and reveals limitations and assumptions that might otherwise be obscure The goal of Dorter's cross cultural approach is to consider how far works from different cultures can be understood as holding comparable philosophical views Although Dorter reveals commonalities across the different traditions he makes no claim that there is such a thing as a universal philosophy Clearly there are fundamental disagreements among the philosophers and works studied Yet in each of the case studies of a particular chapter we can discover a shared or at least analogous way of looking at issues across different cultures All those interested in metaphysics ethics Indian philosophy Chinese philosophy and comparative philosophy will find much of interest in this book

Returning to Zhu Xi David Jones, Jinli He, 2015-11-20 A reconsideration of Zhu Xi known as the great synthesizer of Confucianism which establishes him as an important thinker in his own right Zhu Xi 1130-1200 the chief architect of neo Confucian thought affected a momentous transformation in Chinese philosophy His ideas came to dominate Chinese intellectual life including the educational and civil service systems for centuries Despite his influence Zhu Xi is known as the great synthesizer and rarely appreciated as a thinker in his own right This volume presents Zhu Xi as a major world philosopher one who brings metaphysics and cosmology into attunement with ethical and social practice Contributors from the English and Chinese speaking worlds explore Zhu Xi's unique thought and

offer it to the Western philosophical imagination Zhu Xi's vision is critical intellectually rigorous and religious telling us how to live in the transforming world of li the emergent immanent and coherent patternings of natural and human milieu **The Philosophy of Qi** Kaibara Ekken, 2007-03-20 The Record of Great Doubts emphasizes the role of qi in achieving a life of engagement with other humans with the larger society and with nature as a whole Rather than encourage transcendental escapism or quietism Ekken articulates a philosophy of material force as a basis of living a life of commitment to the world In this spirit moral cultivation is not an isolated or a self centered preoccupation but an activity that occurs within the dynamic forces of nature and amid the rigorous demands of society In this context a vitalism of qi is an emergent force not only providing the philosophical grounding for this vibrant interaction but also giving a basis for an investigation of the natural world that plumbs the principle within things Ekken thus aimed to articulate a creative and dynamic milieu for moral education political harmony social coherence and agricultural sustainability The Record of Great Doubts embodies Ekken's profound commitment to Confucian ideas and practices as a method for establishing an integrative ethical vision one he hoped would guide Japan through a new period of peace and stability A major philosophical treatise in the Japanese Neo Confucian tradition The Record of Great Doubts illuminates a crucial chapter in East Asian intellectual history

Panentheism Across the World's Traditions Loriliai Biernacki, Philip Clayton, 2014 Not to be confused with pantheism the ancient Greek notion that God is everywhere an animistic force in rocks and trees the concept of panentheism suggests that God is both in the world immanent and also beyond the confines of mere matter transcendent One of the fundamental premises of this groundbreaking collection of essays is that panentheism despite being unlabeled until the nineteenth century is not merely a modern Western invention The contributors examine a number of the world's established and ancient religious traditions Christianity Hinduism Buddhism Judaism and others to draw out the panentheistic dimensions of these traditions and the possibilities they suggest Panentheism is not only an esoteric potentially heretical and deeply mystical vision of the world's great religious pasts it is also a key feature of contemporary global spirituality As this volume demonstrates the metaphors and practices associated with modern panentheism speak powerfully to the realities of our evolving species and our evolving technological world Panentheism's enticingly heretical vision of the relationship between the divine and matter has historically been denied a serious place in scholarship As Panentheism across the World's Traditions shows the dynamism between matter and spirit that panentheism offers has had a profound influence in the modern world *Angelo Zottoli, a Jesuit Missionary in China (1848 to 1902)* Antonio De Caro, 2022-07-22 This book offers a study of the cosmogonic works by Fr Angelo Zottoli S.J. a Jesuit missionary who has received relatively little attention by modern scholars but who deserves a special recognition for his theological and philosophical ideas More generally the book aims to shed light on the importance of cosmogony in the cross cultural and interdisciplinary environment of Xujiahui the area in modern Shanghai where Zottoli flourished It shows how through Zottoli's teaching and sermons he was able to

reimagine his own cosmogonic ideas his personality and his relationship with local Chinese converts Among Zottoli s most famous students was Ma Xiangbo 1840 1939 and Zottoli played a crucial role in Ma s intellectual formation A wider familiarity with Zottoli s works is not only interesting in and of itself but also paves the way to future studies on the complex and multifaceted relationship between European missionaries and Chinese students in Shanghai during the nineteenth century

Religious Organizations and Democratization Tun-jen Cheng, Deborah A. Brown, 2015-03-26 Since the terrorist attacks on 9 11 the political roles of religious institutions and groups have captured international attention This book examines how religious institutions and organizations in various Asian countries are influencing democratic development and the shaping of government policies Religious Organizations and Democratization covers Taiwan Hong Kong Mainland China Korea Thailand the Philippines Malaysia Indonesia and Japan The chapters specifically address the engagement of Christian Buddhist Muslim and other religious organizations in the advancement and or hindrance of democratization in the region The contributors consider such questions as Why have some religious organizations played a decisive role in democratic transitions while others remained politically dormant and other still acted in conservative alliances to block democratic development Why did some religious organizations that once were active and instrumental to democratic change lose their political vitality as soon as civil liberties were successfully introduced And why did other religious organizations irrespective of their roles in the process of democratic transition emerge as key political forces in the civil society

The Hermeneutical Self and an Ethical Difference Paul S Chung, 2012-07-26 Incorporating a tour of the past and a proposition for the future Chung presents a fascinating study of inter civilizational hermeneutics that embraces our modern times and suggests the liberative potential of hermeneutical study Adopting a subtle approach that stays clear of trying to impose upon the reader a simplistic understanding of hermeneutical discourses Chung instead draws on a host of classical and modern scholars in search of a new and refreshing global hermeneutical theory

The Holy Spirit and Ch'i (Qi) Koo Dong Yun, 2012-03-02 This book articulates a contextual pneumatology from a perspective of the Eastern idea of ch i ki in Korean Rather than understanding the Spirit from a Westernized philosophical perspective this book utilizes East Asian categories rooted in the I Ching and Asian religions in dialogue with such prominent Western theologians as Barth Pannenberg Moltmann and Harvey Cox The result is an exciting interaction between the Bible traditions of the West and experiences of the Spirit rooted in East Asia Yun argues that the formal dimension of the Spirit sangjeok is present and active in all cultures and religions while the material dimension of the Spirit muljeok is categorically revealed and embodied through the life of Jesus Christ the event of Pentecost and Charisms given to the church In making his case he mediates a creative balance between countercultural and exclusivist models on the one hand and pluralistic and anthropocentric models on the other

The Politics of Peace Te-Li Lau, 2009-12-07 Although scholarship has noted the thematic importance of peace in Ephesians few have examined its political character in a sustained manner throughout the entire letter This book addresses this lacuna comparing Ephesians with Colossians Greek political texts Dio Chrysostom s Orations and the Confucian Four Books in order to ascertain the rhetorical and political nature of its topos of peace Through comparison with analogous documents both within and without its cultural milieu this study shows that Ephesians can be read as a politico religious letter concerning peace within the church Its vision of peace contains common political elements such as moral education household management communal stability a universal humanity and war that are subsumed under the controlling rubric of the unity and cosmic summing up of all things in Christ
