

Religious Views Of President John F Kenn

Paul Merkley

Religious Views Of President John F Kenn:

Religious Views of President John F. Kennedy in His Own Words John Fitzgerald Kennedy,1965 John F. Kennedy and the Politics of Faith Patrick Lacroix,2021-01-29 In *John F Kennedy and the Politics of Faith* Patrick Lacroix explores the intersection of religion and politics in the era of Kennedy s presidency In doing so Lacroix challenges the established view that the postwar religious revival disappeared when President Eisenhower left office and that the contentious election of 1960 which carried John F Kennedy to the White House struck a definitive blow to anti Catholic prejudice Where most studies on the origins of the Christian right trace its emergence to the first battles of the culture wars of the late 1960s and early 1970s echoing the Christian right s own assertion that the secular sixties was a decade of waning religiosity in which faith based groups largely eschewed political engagement Lacroix persuasively argues for the Kennedy years as an important moment in the arc of American religious history Lacroix analyzes the numerous ways in which faith based engagement with politics and politicians efforts to mobilize denominational groups did not evaporate in the early 1960s Rather the civil rights movement major Supreme Court rulings events in Rome and Kennedy s own approach to recurrent religious controversy reshaped the landscape of faith and politics in the period Kennedy lived up to the pledge he made to the country in Houston in 1960 with a genuine commitment to the separation of church and state with his stance on aid to education his willingness to reverse course with the Peace Corps and the Agency for International Development and his outreach to Protestant and Jewish clergy The remarks he offered at the National Prayer Breakfast and in countless other settings had the cumulative effect of diminishing long standing anxieties about Catholic power In his own way Kennedy demanded of Protestants that they live up to their own much vaunted commitment to church state separation This principle could not mean one thing for Catholics and something entirely different for other people of faith American Protestants could not consistently oppose public funding for religious schools because those schools were overwhelmingly Catholic while defending religious exercises in public schools Lacroix reveals how close the country came during the Kennedy administration to a satisfactory solution to the fundamental religious challenge of the postwar years the public accommodation of pluralism as Kennedy came to embrace a nascent religious left that supported his civil rights bill and the nuclear test ban treaty Religious Views of President John F. Kennedy Nicholas A. Schneider,1965 **The Afterlife of John Fitzgerald Kennedy** Michael J. Hogan,2017-03-03 This book analyzes the social construction of John Fitzgerald Kennedy s memory in the arts literature and in the many monuments erected in his honor **John F. Kennedy in His Own Words** John Fitzgerald Kennedy,2005 A powerful far reaching collection of Kennedy s words revealing a broad picture not only of the man but the great reach of his ideas often obscured by the drama of history A Pulitzer Prize winning journalist and a clinical psychologist collect examples of Kennedy s thinking on diverse issues distilled from formal addresses speeches newspaper and magazine articles and presidential debates as well as private correspondence with friends and aides conversations and his college diary *John F. Kennedy and American*

Catholicism Lawrence H. Fuchs, 1967 Religion in the Oval Office Gary Scott Smith, 2015-02-27 In his highly praised book *Faith and the Presidency* Gary Scott Smith cast a revealing light on the role religion has played in presidential politics throughout our nation's history offering comprehensive even handed examinations of the role of religion in the lives politics and policies of eleven presidents Now in *Religion in the Oval Office* Smith takes on eleven more of our nation's most interesting and influential chief executives John Adams James Madison John Quincy Adams Andrew Jackson William McKinley Herbert Hoover Harry Truman Richard Nixon George H W Bush Bill Clinton and Barack Obama Drawing on a wide range of sources and paying close attention to historical context and America's shifting social and moral values he examines their religious beliefs commitments affiliations and practices and scrutinizes their relationships with religious leaders and communities The result is a fascinating account of the ways in which religion has helped shape the course of our history From John Quincy Adams treatment of Native Americans to Harry Truman's decision to recognize Israel to Bill Clinton's promotion of religious liberty and welfare reform to Barack Obama's policies on poverty and gay rights Smith shows how strongly our presidents religious commitments have affected policy from the earliest days of our nation to the present Together with *Faith and the Presidency* *Religion in the Oval Office* provides the most comprehensive examination of the inseparable and intriguing relationship between faith and the American presidency This book will be invaluable to anyone interested in the presidency and the role of religion in politics **John F. Kennedy, Catholic and Humanist** Albert J. Menendez, 1978 **The Faiths of the Postwar Presidents** David L. Holmes, 2012-04-25 Impressively balanced accounts of such matters as Nixon's betrayal of Billy Graham's trust and Obama's connection to Jeremiah Wright An interesting take Booklist From the author of *The Faiths of the Founding Fathers* an acclaimed account of the spiritual beliefs of such iconic Americans as Franklin Washington and Jefferson this is a measured look at the role of faith in the lives of twelve presidents who have served since the end of World War II David Holmes examines not only the beliefs professed by each president but also the variety of possible influences on their religious faith such as their upbringing their education and the faith of their spouse In each profile close observers such as clergy family members friends and advisors recall churchgoing habits notable displays of faith or lack of it and the influence of their faiths on policies concerning abortion the death penalty Israel and other controversial issues Whether discussing John F Kennedy's philandering and secularity or Richard Nixon's betrayal of Billy Graham's naive trust during Watergate Holmes includes telling and often colorful details not widely known or long forgotten We are reminded for instance how Dwight Eisenhower tried to conceal the background of his parents in the Jehovah's Witnesses and how the Reverend Cotesworth Lewis's sermonizing to Lyndon Johnson on the Vietnam War was actually not a left but a right wing critique An admirable and colorful yet balanced look at our recent Presidents and their religious beliefs It will have wide appeal for all readers and particularly for those interested in presidential history Library Journal A Documentary History of Religion in America Since 1877 Edwin S. Gaustad, Mark A. Noll, 2003-09-19 A richly

variegated selection of short documents illustrative of the history of religion in America The best source book available to contemporary students and general readers **American Presidents, Religion, and Israel** Paul Merkley, 2004-07-30

Shortly after the end of the Second World War President Harry S Truman declared his support for the creation and maintenance of the modern state of Israel basing that support on religious and theological grounds This is the first book to explore the connection between the religious backgrounds and beliefs of U S presidents in relation to their policies toward Israel From Truman to Ford U S presidents relied in part on their religious and moral commitments to support their policies and views toward Israel Beginning with Carter however presidents have abandoned the role of champions of Israel to become champion of the Peace Process stressing peace and a secular approach that rises above the religious and theological fray And yet even in the context of this attempted fair mindedness U S presidents reveal their personal religious and moral beliefs in their responses to the issue of Israel Today George W Bush one of the most vocally religious presidents seems poised to take up the tradition once again of relying on his religious convictions to justify his positions toward the Arab Israeli conflict Here Merkley argues that while faith alone does not determine action or that it even has a controlling influence religious belief does play a role in the policies that U S presidents and the nation adopt toward Israel When Truman declared I am Cyrus he was emphatically grounding his support of the modern state of Israel in his belief in the Bible Referring to the Persian king who allowed the Jews to return to Israel and to build the Second Temple Truman revealed his religious commitments and supported his policies on biblical grounds Bringing to the fore neglected evidence of the role of religious belief in policies toward Israel Merkley explores an overlooked aspect of presidential decision making suggesting that religion while not the only factor is at least among the influences that determine a president's view of the Arab Israeli conflict From Truman to Ford policies often reflected the Evangelical traditions that dictated unyielding support of Israel but with Carter's commitment to the peace process above all else the trend turned toward moral absolutes and more general religious beliefs that could sustain arguments for a negotiated peace George W Bush thus far however has clearly demonstrated his personal religious beliefs and may in the end reclaim the mantle of Cyrus

Investigation of the Assassination of President John F. Kennedy, 1964 *Religion and Nationalism in Global Perspective* J. Christopher Soper, Joel S. Fetzer, 2018-10-11 It is difficult to imagine forces in the modern world as potent as nationalism and religion Both provide people with a source of meaning each has motivated individuals to carry out extraordinary acts of heroism and cruelty and both serve as the foundation for communal and personal identity While the subject has received both scholarly and popular attention this distinctive book is the first comparative study to examine the origins and development of three distinct models religious nationalism secular nationalism and civil religious nationalism Using multiple methods the authors develop a new theoretical framework that can be applied across diverse countries and religious traditions to understand the emergence development and stability of different church state arrangements over time The work combines public opinion constitutional and content

analysis of the United States Israel India Greece Uruguay and Malaysia weaving together historical and contemporary illustrations **From the Bottom Up** Kent Greenawalt, 2016 Constituting a collection of essays written over the last five decades about a wide range of topics Kent Greenawalt's *From the Bottom Up* addresses vital ties between the law and political and moral philosophy Its overarching theme is that in all these domains when people and judges face different debatable issues the wisest approach needs to focus on particular contexts not simply broad abstract generalization Faith and the Presidency From George Washington to George W. Bush Gary Scott Smith, 2006-10-12 Publisher description *All Politics Is Religious* Rabbi Dennis S. Ross, 2012-03-01 Faith grows when we uphold its vision for a better world and speak of it in the public square while keeping church and state separate Dealing with a splintered media with its new opportunities and challenges requires being able to mix the facts with the feelings in appropriate measures for the audience you are trying to reach Reading this book will not make you as glib as your favorite newscaster who is probably reading a teleprompter or as dashing or beautiful as a Hollywood celebrity but it will make you less fearful better trained and more likely to be used as a source again from the Foreword by Rev Barry W Lynn A practical and empowering resource It provides ideas and strategies for expressing a clear forceful and progressive religious point of view that is all too often overlooked and under represented in public discourse It identifies the religious themes in today's great debates gay rights the needs of children and families church state separation and reproductive rights including access to sex education contraception and abortion care and presents new language and methods for effective communication with the media policy makers and community It steers away from the polemics and jargon of politics left right liberal conservative socialist and instead relies on factual historical examples current events and personal stories to illustrate the best ways to communicate the positive role faith can play in personal and public life by reinforcing the separation of church and state Religion and Politics in America Frank J. Smith, 2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students *The*

Routledge Handbook of Religion and Journalism Kerstin Radde-Antweiler, Xenia Zeiler, 2020-10-29 The Routledge Handbook of Religion and Journalism is an outstanding reference source to the key topics challenges past and present global issues and debates in this exciting subject The first collection of its kind this volume comprises over 25 chapters by a team of international contributors This Handbook is divided into five parts each taking global developments in the field into account Theoretical Reflections Power and Authority Conflict Radicalization and Populism Dialogue and Peacebuilding Trends Within these sections central issues debates and developments are examined including religious and secular press ethics globalization gender datafication differentiation journalistic religious literacy race and religious extremism This volume is essential reading for students and researchers in journalism and religious studies This Handbook will also be very useful for those in related fields such as sociology communication studies media studies and area studies Critical Issues in American Religious History Robert R. Mathisen, 2001 On many occasions Americans as a religious people have experienced tension and indecision as they have wrestled with a variety of critical issues crossing their paths How to implement their religious creeds and ideals in an ever changing society is recorded in the religious language of the people as they have sought to articulate their identity and destiny Critical Issues in American Religious History identifies fifteen key chronologically arranged issues that have prompted considerable debate and discussion over the years The distinctive element of this work is the singular thematic thread which runs from cover to cover America s religious experience reflects four interrelated dimensions of religious tension The carefully selected primary and secondary materials speak to the tension between the secular and sacred beliefs and behaviors inclusion and exclusion and conflict and consensus Each chapter theme is woven around a particular critical issue pertaining to one or more of these four tensions Ideally suited for classroom use Mathisen s work enlarges the reader s critical thinking through an examination of primary and secondary sources of America s religious past Special features in each chapter include Introductory commentary Primary and secondary source readings Questions for reflection and discussion Suggested readings for further study **Religion in Plain View** Sally M. Promey, 2024-11-18 A revelatory critique of public display in the United States In Religion in Plain View Sally M Promey analyzes religion s visible saturation of American public space and the histories that shaped this exhibitionary aesthetics In street art vehicle d cor signs monuments architecture zoning policy and more Promey exposes American display s merger of evangelicalism capitalism and imperialism From this convergence display materializes a distinctly American drive to advertise claim territory invalidate competitors and fabricate a tractable national heritage Charting this aesthetics strategic work as a Protestant technology of White nation formation Religion in Plain View offers a dynamic critique of the ways public display perpetuates deeply ingrained assumptions about the proper shape of life and land in the United States
