**Remains of a Revolution** Anthony Burton, 1975      *everyman* M Shelly Conner, 2021-07-20 Eve Mann arrives in Ideal Georgia in 1972 looking for answers about the mother who died giving her life A mother named Mercy A mother who for all of Eve s twenty two years has been a mystery and a quest Eve s search for her mother and the father she never knew is a mission to discover her identity her name her people and her home Eve s questions and longing launch a multigenerational story that sprawls back to the turn of the twentieth century settles into the soil of the South the blood and souls of Black folk making love and life and fleeing in a Great Migration into the savage embrace of the North Eve is a young woman coming of age in Chicago against the backdrop of the twin fires and fury of the civil rights and Black Power movements a time when everything and everyone it seems longs to be made anew At the core of this story are the various meanings of love how we love and most of all whom we love everyman is peopled by rebellious Black women straining against the yoke of convention and designated identities explorers announcing their determination to be and to be free There is Nelle Eve s best friend and heart who claims her right both to love women and to always love Eve as a sister and friend Brother Lee Roy professor and mentor gives Eve the tools for her genealogical search while turning away from his own bitter harvest of family secrets Mama Ann the aunt who has raised Eve and knows everything about Mercy offers Eve a silence that she defines as protection and care But it is James and Geneva two strangers whom Eve meets in Ideal who plumb the depths of their own hurt and reconciliations to finally give Eve the gift of her past a reimagined present and finally her name      A Revolution Undone H.A. Hellyer, 2017-03-01 Amid the turbulence of the 2011 Arab uprisings the revolutionary uprising that played out in Cairo s Tahrir Square created high expectations before dashing the hopes of its participants The upheaval led to a sequence of events in Egypt that scarcely anyone could have predicted and precious few have understood five years on the status of Egypt s unfinished revolution remains shrouded in confusion Power shifted hands rapidly first from protesters to the army leadership then to the politicians of the Muslim Brotherhood and then back to the army The politics of the street has given way to the politics of Islamist military d tentes and the undoing of the democratic experiment Meanwhile a burgeoning Islamist insurgency occupies the army in Sinai and compounds the nation s sense of uncertainty A Revolution Undone blends analysis and narrative charting Egypt s journey from Tahrir to Sisi from the perspective of an author and analyst who lived it all H A Hellyer brings his first hand experience to bear in his assessment of Egypt s experiment with protest and democracy And by scrutinizing Egyptian society and public opinion Islamism and Islam the military and government as well as the West s reaction to events Hellyer provides a much needed appraisal of Egypt s future prospects      Daughters of the American Revolution Magazine ,1900      **Returning to Revolution** Thomas Nail, 2012-08-06 An account of the concept of revolution in the work of Deleuze and Guattari outlining the theoretical and practical origins of the return to political revolution and providing the first full length account of Deleuze and Guattari s relationship to a concr      Haitian Revolutionary Fictions

Marlene L. Daut, Grégory Pierrot, Marion C. Rohrleitner, 2022-01-25 The Haitian Revolution 1791 1804 was the first antislavery and anticolonial uprising led by New World Africans to result in the creation of an independent and slavery free nation state The momentousness of this thirteen year long war generated thousands of pages of writing This anthology brings together for the first time a transnational and multilingual selection of literature about the revolution from the beginnings of the conflicts that resulted in it to the end of the nineteenth century With over two hundred excerpts from novels poetry and plays published between 1787 and 1900 and depicting a wide array of characters including Anacaona Makandal Boukman Toussaint Louverture Jean Jacques Dessalines and Henry Christophe this anthology provides the perfect classroom text for exploring this fascinating revolution its principal actors and the literature it inspired while also providing a vital resource for specialists in the field This landmark volume includes many celebrated authors such as Alexandre Dumas Victor Hugo Heinrich von Kleist Alphonse de Lamartine William Wordsworth Harriet Martineau and William Edgar Easton but the editors also present here for the first time many less well known fictions by writers from across western Europe and both North and South America as well as by nineteenth century Haitian authors refuting a widely accepted perception that Haitian representations of their revolution primarily emerged in the twentieth century Each excerpt is introduced by contextualizing commentary designed to spark discussion about the ongoing legacy of slavery and colonialism in the Americas Ultimately the publication of this capacious body of literature that spans three continents offers students scholars and the curious reader alike a unique glimpse into the tremendous global impact the Haitian Revolution had on the print culture of the Atlantic world New World Studies New Perspectives on the Chinese Revolution Tony Saich, Hans J. Van De Ven, 2015-03-04 These essays present fresh insights into the history of the Chinese Communist Party CCP from its founding in 1920 to its assumption of state power in 1949 They draw upon considerable archival resources which have recently become available

most dramatic events in recent years including the current global refugee crisis the Arab uprisings of the 2010s and the ongoing crisis of liberal democracy in the West and beyond Contributors include Keith Breen Joan Cocks Tal Correm Christian J Emden Patrick Hayden Kei Hiruta Anthony F Lang Jr Shmuel Lederman Miriam Leonard Natasha Saunders William Smith and Shiyu Zhang      **Origins of Stalinism: From Leninist Revolution to Stalinist Society** Pavel

Campeanu,2016-07-08 By adopting the ecological process as their major theme the contributors of this volume show how the process of human interaction with the natural environment unfolded in the past and offer perspective on the ecological crises in our world at the beginning of the 21st century      **Lyric Apocalypse** Ryan Netzley,2015-01-22 What s new about the

apocalypse Revelation does not allow us to look back after the end and enumerate pivotal turning points It happens in an immediate encounter with the transformatively new John Milton s and Andrew Marvell s lyrics attempt to render the experience of such an apocalyptic change in the present In this respect they take seriously the Reformation s insistence that eschatology is a historical phenomenon Yet these poets are also reacting to the Regicide and as a result their works explore very modern questions about the nature of events what it means for a significant historical occasion to happen Lyric Apocalypse argues that Milton s and Marvell s lyrics challenge any retrospective understanding of events including one built on a theory of revolution Instead these poems show that there is no after to the apocalypse that if we are going to talk about change we should do so in the present when there is still time to do something about it For both of these poets lyric becomes a way to imagine an apocalyptic event that would be both hopeful and new      Damn the Revolution! Raúl Eduardo

Chao,2016-07-21 All throughout history people have praised revolutions as one of the ways to remedy their lack of freedom and abolish the unearned privileges of others Revolutions however pervert their very aims by bringing uncontrollable anarchy atrocities revenge loss of human talent and destruction of material resources Their attempts to rebuild society in more human terms always fail miserably In practice most revolutions can only be stopped by the emergence of a dictator which brings about more misery lack of freedom and inequality that what caused the upheaval in the first place That s why most people end up disillusioned with the hopeless romance of building a better society by revolting and end up shouting Damn the Revolution      A Text Book of Theory of Machines J. S. Brar,R. K. Bansal,2004      Revolution Beyond the Event

Charlotte Al-Khalili,Narges Ansari,Myriam Lamrani,Kaya Uzel,2023-05-02 Revolution Beyond the Event brings together leading international anthropologists alongside emerging scholars to examine revolutionary legacies from the MENA region Latin America and the Caribbean It explores the idea that revolutions have varied afterlives that complicate the assumptions about their duration pace and progression and argues that a renewed focus on the temporality of radical politics is essential to our understanding of revolution Approaching revolution through its relationship to time the book is a critical intervention into attempts to define revolutions as bounded events that act as sequential transitions from one political system to another It pursues an ethnographically driven rethinking of the temporal horizons that are at stake in revolutionary processes

arguing that linear views of revolution are inextricably tied to notions of progress and modernity Through a careful selection of case studies the book provides a critical perspective on the lived realities of revolutionary afterlives challenging the liberal humanist assumptions implicit in the modern idea of revolution and reappraising the political agency of people caught up in revolutionary situations across a variety of ethnographic contexts **West Point History of the American Revolution**
