Remember Cambodia:

Landscape, Memory, and Post-Violence in Cambodia James A. Tyner, 2016-11-16 Between 1975 and 1979 the Khmer Rouge regime in Cambodia enacted a program of organized mass violence that resulted in the deaths of approximately one quarter of the country's population. Over two million people died from torture, execution, disease, and famine. From the commodification of the killing fields of Choeung Ek to the hundreds of unmarked mass graves scattered across the country, violence continues to shape the Cambodian landscape. *Landscape Memory and Post Violence in Cambodia* explores the ongoing memorialization of violence. As part of a broader engagement with war violence and critical heritage studies, it explores how a legacy of organized mass violence becomes part of a cultural heritage and in the process how this heritage is produced. Existing literature has addressed explicitly the impact of war and armed conflict on cultural heritage through the destruction of heritage sites. This book inverts this concern by exploring what happens when sites of heritage violence are under threat. It argues that the selective memorialization of Cambodia's violent heritage negates the everyday lived experiences of millions of Cambodians and diminishes the efforts to bring about social justice and reconciliation. In doing so, it develops a grounded conceptual understanding of post violence in conflict zones internationally.

Transitional Justice and Memory in Cambodia Peter Manning, 2017-06-26 Memories of violence, suffering, and atrocities in Cambodia are today being pulled in different directions. A range of transitional justice practices have been put to work in the name of redressing, restoring, and renewing memory. At the centre of this stage is the Extraordinary Chambers in the Courts of Cambodia (ECCC), a hybrid tribunal established to prosecute the leaders of the Khmer Rouge regime under which 1.6 million Cambodians died of hunger or disease or were executed. This book unpicks the way memory is reconstructed through appeals to a national memory, the legal reframing and coding of memories as crimes, and bids to locate personal memories within collective biographies. Analysing the techniques and interventions of the ECCC as well as exploring the role of non-governmental organisations (NGOs), the book explores the relationships in which Cambodian communities navigate memories of political violence. This book is essential for understanding transitional justice in Cambodia, in and beyond the courtroom. *Transitional Justice and Memory in Cambodia* shows that the governing logic of transitional justice interventions that societies are unable to deal with memories of atrocity and violence without some form of transitional justice mechanism neglects the complexity of memory and remembering in post-atrocity contexts and the agency of the subjects to which such mechanisms are addressed. Drawing on documentary sources, legal transcripts, interviews, and participant observation data, the book situates transitional justice processes in Cambodia within a wider context of social and cultural memory politics, examining old and new conflicts of memory that have emerged between the varied accounts and uses of the past that exist in Cambodia now. As such, it will appeal to students and scholars in sociology, human rights, law, and criminology.

Memory, History, Nation Susannah Radstone, 2017-09-04 In the last decade, a focus on memory in the human sciences has encouraged new approaches to the

study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent This inter disciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of what we call memory The chapters in this volume offer a complex awareness of the workings of memory and the ways in which different or changing histories may be explained They explore the relation between individual and social memory between real and imaginary event and fantasy history and myth Contradictory accounts or memories in direct contradiction to the historical record are not always the sign of a repressive authority attempting to cover something up The tension between memory as a safeguard against attempts to silence dissenting voices and memory s own implication in that silencing runs throughout the book Topics covered range from the Basque country to Cambodia from Hungary to South Africa from the Finnish Civil War to the cult Jim Jarmusch movie Dead Man from the Rock and Roll Hall of Fame to Australia Part I Transforming Memory is concerned primarily with the social and personal transmission of memory across time and generations Part II Remembering Suffering Trauma and History brings the after effects of catastrophe to the fore Part III Patterning the National Past the relation between nation and memory is the central issue Part IV And Then Silence reflects on the complex and multiple meaning of silence and oblivion wherein amnesia is often used as a figure for the denial of shameful

Cambodia's China Strategy Chanborey Cheunboran, 2021-06-21 This book explores the tensions within Cambodia s foreign policy between a tight alignment with China on the one hand and Cambodia s commitment to the Association of the Southeast Asian Nations ASEAN as well as its delicate foreign policy diversification towards other major powers on the other hand It traces the long history of Cambodia s quest for survival from its bigger and historically antagonistic neighbours the Thai and the Vietnamese and its struggle for security and independence from the two neighbours and external major powers particularly the United States and China It discusses Cambodia s geopolitical predicaments deriving from its location of being sandwiched between powerful neighbours and limited strategic options available for the Kingdom The book also assesses recent developments in Cambodia s relations with its neighbours and their implications for Cambodia s increasingly tight alignment with China in recent years It considers the extent to which the ruling regime in Cambodia depends on strong relations with China for its legitimacy and survival and argues that there are risks and danger for Cambodia in moving towards an increasingly tight alignment with China

(Re)Constructing Memory: Education, Identity, and Conflict Michelle J. Bellino, James H. Williams, 2017-02-08 How do schools protect young people and call on the youngest citizens to respond to violent conflict and division operating outside and sometimes within school walls What kinds of curricular representations of conflict contribute to the construction of national identity and what kinds of encounters challenge presumed boundaries between us and them Through contemporary

and historical case studies drawn from Cambodia Egypt Northern Ireland Peru and Rwanda among others this collection explores how societies experiencing armed conflict and its aftermath imagine education as a space for forging collective identity peace and stability and national citizenship In some contexts the erasure of conflict and the homogenization of difference are central to shaping national identities and attitudes In other cases collective memory of conflict functions as a central organizing frame through which citizenship and national identity are re constructed with embedded messages about who belongs and how social belonging is achieved The essays in this volume illuminate varied and complex inter relationships between education conflict and national identity while accounting for ways in which policymakers teachers youth and community members replicate resist and transform conflict through everyday interactions in educational spaces
