East Asia Beyond the History Wars Tessa Morris-Suzuki, 2013 East Asia is now the world's economic powerhouse but ghosts of history continue to trouble relations between the key countries of the region particularly between Japan China and the two Koreas Unhappy legacies of Japan's military expansion in pre war Asia prompt on going calls for apologies while conflicts over ownership of cultural heritage cause friction between China and Korea and no peace treaty has ever been signed to conclude the Korean War For over a decade the region's governments and non government groups have sought to confront the ghosts of the past by developing paths to reconciliation Focusing particularly on popular culture and grassroots action East Asia beyond the History Wars explores these East Asian approaches to historical reconciliation This book examines how Korean historians from North and South exchange ideas about national history how Chinese film makers reframe their views of the war with Japan and how Japanese social activists develop grassroots reconciliation projects with counterparts from Korea and elsewhere As the volume's studies of museums monuments and memorials show East Asian public images of modern history

are changing but change is fragile and uncertain This unfinished story of East Asia's search for historical reconciliation has important implications for the study of popular memory worldwide Presenting a fresh perspective on reconciliation which draws on both history and cultural studies this book will be welcomed by students and scholars working in the fields of Asian history Asian culture and society as well as those interested in war and memory studies more generally The Korean War and Postmemory Generation Dong-Yeon Koh, 2021-07-30 This pioneering volume navigates cultural memory of the Korean War through the lens of contemporary arts and film in South Korea for the last two decades Cultural memory of the Korean War has been a subject of persistent controversy in the forging of South Korean postwar national and ideological identity Applying the theoretical notion of postmemory this book examines the increasingly diversified attitudes toward memories of the Korean War and Cold War from the late 1990s and onward particularly in the demise of military dictatorships Chapters consider efforts from younger generation artists and filmmakers to develop new ways of representing traumatic memories by refusing to confine themselves to the tragic experiences of survivors and victims Extensively illustrated this is one of the first volumes in English to provide an in depth analysis of work oriented around such themes from 12 renowned and provocative South Korean artists and filmmakers This includes documentary photographs participatory public arts independent women's documentary films and media installations The Korean War and Postmemory Generation will appeal to students and scholars of film studies contemporary art and Korean history *We Are What We Remember* Laura Mattoon D'Amore, Jeffrey Meriwether, 2013-01-16 Commemorative practices are revised and rebuilt based on the spirit of the time in which they are re created Historians sometimes imagine that commemoration captures history but actually commemoration creates new narratives about history that allow people to interact with the past in a way that they find meaningful As our social values change race gender religion sexuality class our commemorations do too *We Are What We Remember The American Past Through Commemoration* analyzes current trends in the study of historical memory that are particularly relevant to our own present our biases our politics our contextual moment and strive to name forgotten overlooked and denied pasts in traditional histories Race gender and sexuality for example raise questions about our most treasured myths where were the slaves at Jamestowne How do women or lesbians protect and preserve their own histories when no one else wants to write them Our current social climate allows us to question authority and especially the authoritative definitions of nation patriotism and heroism and belonging How do we un commemorate things that were mis commemorated in the past How do we repair the damage done by past commemorations The chapters in this book contributed by eighteen emerging and established scholars examine these modern questions that entirely reimagine the landscape of commemoration as it has been practiced and studied before A Companion to the War Film Douglas A. American Literature and Culture in an Age of Cold War Steven Belletto, Daniel Grausam, 2012-10-01 The time is right for a critical reassessment of Cold War culture both because its full cultural impact remains unprocessed and because some of the chief paradigms for understanding that culture confuse rather than clarify. A collection of the work of some of the best cultural critics writing about the period, *American Literature and Culture in an Age of Cold War* reveals a broad range of ways that American cultural production from the late 1940s to the present might be understood in relation to the Cold War. Critically engaging the reigning paradigms that equate postwar U.S. culture with containment culture, the authors present suggestive revisionist claims. Their essays draw on a literary archive including the works of John Updike, Joan Didion, Richard E. Kim, Allen Ginsberg, Edwin Denby, Alice Childress, Frank Herbert, and others strikingly different from the one typically presented in accounts of the period. Likewise, the authors describe phenomena such as the FBI's surveillance of writers, especially African Americans, biopolitics, development theory, struggles over the centralization and decentralization of government, and the cultural work of Reaganism that open up new contexts for discussing postwar culture. Extending the timeline and expanding the geographic scope of Cold War culture, this book reveals both the literature and the culture of the time to be more dynamic and complex than has been generally supposed.

Cuisine, Colonialism and Cold War Katarzyna J. Cwiertka, 2013-06-01 When you consider the size of Korea's population and the breadth of its territory, it's easy to see that this small region has played a disproportionately large role in twentieth-century history. The peninsula has experienced colonial submission at the hands of Japan, occupation by the United States and the Soviet Union, war, and a national division that continues today. *Cuisine, Colonialism and Cold War* traces these developments as they played out in an unusual sphere: Korea's national cuisine, which is savored for its diversity of ingredients and flavor. Katarzyna J. Cwiertka shows that many foods and dietary practices identified as Korean have been created or influenced by its colonial encounters, and she uncovers how the military and the Cold War had an impact on diet in both the North and South. Surveying the manufacture and consumption of rice and soy sauce, the rise of restaurants, wartime food, and the 1990s famine that still affects North Korea, Cwiertka illuminates the persistent legacy of Japanese rule and the consequences of armed conflicts and the Cold War. Bringing us closer to the Korean people and their daily lives, this book shines new light on critical issues in the social history of this peninsula.
