Reminiscences Of Edmund Evans Ed Mclean:

The Reminiscences of Edmund Evans, 1967 The reminiscences of edmund evans, edited by ruari mclean Edmund Evans, Ruari (editor) Mclean, 1967 **The Reminiscences** Edmund Evans, 1968 **Serial Revolutions 1848** Clare Pettitt, 2022-02-10 1848 was a pivotal moment not only in Europe but in much of the rest of the world too Marx's scornful dismissal of the revolutions created a historiography for 1848 that has persisted for more than 150 years *Serial Revolutions 1848* shows how far from being the failure that Karl Marx claimed them to be the revolutions of 1848 were a powerful response to the political failure of governments across Europe to care for their people Crucially this revolutionary response was the result of new forms of representation and mediation until the ragged and the angry could see themselves represented and represented as a serial phenomenon such a political consciousness was impossible By the 1840s the developments in printing transport and distribution discussed in Clare Pettitt's *Serial Forms The Unfinished Project of Modernity 1815 1848* Oxford University Press 2020 had made the social visible in an unprecedented way This print revolution led to a series of real and bloody revolutions in the streets of European cities The revolutionaries of 1848 had the temerity to imagine universal human rights and a world in which everyone could live without fear hunger or humiliation If looked at like this the events of 1848 do not seem such poor incidents as Marx described them nor such an embarrassing failure after all Returning to 1848 we can choose to look back on that springtime of the peoples as a moment of tragicomic failure obliterated by the brutalities that followed or we can look again and see it as a prophetic moment of stored potential an extraordinary series of events that generated long distance and sustainable ideas about global citizenship international cooperation and a shared and common humanity which have not yet been fully understood or realised **The Reminiscences of Edmund Evans. Edited and Introduced by Ruari McLean. [With Reproductions, Portraits and Facsimiles.].** Edmund EVANS (Wood-engraver.), 1967 *Visualizing Africa in Nineteenth-Century British Travel Accounts* Leila Koivunen, 2008-11-19 This study provides the first sustained analysis of the process by which images of Africa were transformed into the illustrations of the continent that appeared in nineteenth century European travel books Koivunen examines the actual production process of images and the books in which they were published in order to demonstrate how why and by whom the images were manipulated **Crossing Borders, Crossing Cultures** Massimo Rospocher, Jeroen Salman, Hannu Salmi, 2019-09-23 This volume explores the challenges and possibilities of research into the European dimensions of popular print culture Popular print culture has traditionally been studied with a national focus Recent research has revealed however that popular print culture has many European dimensions and shared features A group of specialists in the field has started to explore the possibilities and challenges of research on a wide European scale This volume contains the first overview and analysis of the different approaches methodologies and sources that will stimulate and facilitate future comparative research This volume first addresses the benefits of a media driven approach focussing on processes of content

Sinnema, 2019-01-04 Originally published in 1998 Dynamics of the Pictured Page provides a critical study of the world s first regularly illustrated newspaper the Illustrated London News founded by Herbert Ingram in 1842 Focusing on the first decade of this enormously influential weekly this book situates the ILN within the publishing history of periodicals arguing not only for a better understanding of those new modes of production engendered by an illustrated newspaper but also for the need to theorize the relations between engraved images and printed text that constituted the ILN which advertised itself as an unprecedented marriage between art and literature Through a series of interpretive interventions that focus on categories that would have had especially powerful reverberations for Victorian readers for example the home the railway the public funeral and serialized literature this book traces the newspaper s complex

strategies of appeal to a middle class English readership This book will appeal to students of nineteenth century literature and history especially those with an interest in publishing history and the history of the press as well as to Victorian studies scholars

The Illustrator and the Book in England from 1790 to 1914 Gordon Norton Ray,1991-01-01 Combines essays bibliographical descriptions and 295 illustrations to chronicle a golden era in the art of the illustrated book Artists range from Blake Turner Rowlandson and Morris to Caldecott Greenaway Beardsley and Rackham

The Making of Women Artists in Victorian England Jo Devereux,2016-08-02 When women were admitted to the Royal Academy Schools in 1860 female art students gained a foothold in the most conservative art institution in England The Royal Female College of Art the South Kensington Schools and the Slade School of Fine Art also produced increasing numbers of women artists Their entry into a male dominated art world altered the perspective of other artists and the public They came from disparate levels of society Princess Louise the fourth daughter of Queen Victoria studied sculpture at the National Art Training School yet they all shared ambition talent and courage Analyzing their education and careers this book argues that the women who attended the art schools during the 1860s and 1870s including Kate Greenaway Elizabeth Butler Helen Allingham Evelyn De Morgan and Henrietta Rae produced work that would accommodate yet subtly challenge the orthodoxies of the fine art establishment Without their contributions Victorian art would be not simply the poorer but hardly recognizable to us today

The years 1830 1914 witnessed a revolution in the manufacture and use of books as great as that in the fifteenth century

Using new technology in printing paper making and binding publishers worked with authors and illustrators to meet ever growing and more varied demands from a population seeking books at all price levels The essays by leading book historians in this volume show how books became cheap how publishers used the magazine and newspaper markets to extend their influence and how book ownership became universal for the first time The fullest account ever published of the nineteenth century revolution in printing publishing and bookselling this volume brings The Cambridge History of the Book in Britain up to a point when the world of books took on a recognisably modern form
