The Architecture of the Renaissance in Italy William James Anderson, 1898 "Architecture, Art and Identity in Venice and its Territories, 1450-1750" Nebahat Avcioglu, 2017-07-05 Cities are shaped as much by a repertoire of buildings works and objects as by cultural institutions ideas and interactions between forms and practices entangled in identity formations This is particularly true when seen through a city as forceful and splendid as Venice The essays in this volume investigate these connections between art and identity through discussions of patronage space and the dissemination of architectural models and knowledge in Venice its territories and beyond They celebrate Professor Deborah Howard's leading role in fostering a historically grounded and interdisciplinary approach to the art and architecture of Venice Based on an examination and re interpretation of a wide range of archival material and primary sources the contributing authors approach the notion of identity in its many guises as self representation as strong sub currents of spatial strategies as visual and semantic discourses and as political and imperial aspirations Employing interdisciplinary modes of interpretation these studies offer ground breaking analyses of canonical sites and works of art diverse groups of patrons as well as the life and oeuvre of leading architects such as Jacopo Sansovino and Andrea Palladio In so doing they link together citizens and nobles past and present the real and the symbolic space and sound religion and power the city and its parts Venice and the Stato da Mar the Serenissima and the Sublime Port

Private Lives in Renaissance Venice Patricia Fortini Brown, 2004-01-01 As the sixteenth century opened members of the patriciate were increasingly withdrawing from trade desiring to be seen as gentlemen in fact as well as gentlemen in name The author considers why this was so and explores such wide ranging themes as attitudes toward wealth and display the articulation of

family identity the interplay between the public and the private and the emergence of characteristically Venetian decorative practices and styles of art and architecture Brown focuses new light on the visual culture of Venetian women how they lived within furnished and decorated their homes what spaces were allotted to them what their roles and domestic tasks were how they dressed how they raised their children and how they entertained Bringing together both high arts and low the book examines all aspects of Renaissance material culture **BOOK JACKET** The New Cambridge Modern History: Volume 1, The Renaissance, 1493-1520 G. R. Potter, 1957-01-01 In a preface written for the paperback edition Professor Hay examines some of the changes in Renaissance scholarship since the first publication of this volume in 1957 Successive chapters examine the social and economic structure of a continent about to establish trade and colonies in the New World the intellectual and artistic movements which made up the Renaissance the position of the Church on the eve of the Reformation the political inheritance of the Middle Ages with its rising nation states and the growth of the Ottoman Empire Renaissance Architecture in Venice, 1450-1540 Ralph Lieberman, 1986 **War, Culture and Society in Renaissance Venice** John Rigby Hale, David Chambers, Cecil H. Clough, Michael Mallett, 1993-01-01 While the majority of these essays are about wars fought against Venice's enemies or on the building and defence of Venetian and other fortifications there are also essays on other aspects of Venetian life and art on Giorgione's earliest work on the career of a Venetian pope on the building of the Ca d'Oro and on the Diarii of Marino Sanuto **The Architecture of the Italian Renaissance** Jacob Burckhardt, 1987-07-15 There may not be any book on architecture so delightful to dip into one wishes there were a pocket edition to take on an Italian vacation not only for its information and vision but for such pleasant reminders as that the citizens of Treviso carried Tullio Lombardo's friezes through the town in triumph before they were attached to a building D J R Bruckner New York Times Book Review The new Cambridge modern history, 1957 **The Renaissance in National Context** Roy Porter, Mikulas Teich, 1992 The Renaissance in National Context aims to dispel the commonly held view that the great efflorescence of art learning and culture in the period from c 1350 to 1550 was solely or even primarily an Italian phenomenon These essays address the development of art literacy and humanism across the length and breadth of Europe showing that the Renaissance had many sources independent of Italy meeting numerous local needs and serving diverse local functions specific to the political economic social and religious climates of various regions and principalities The authors show that though the Renaissance was in a fashion backward looking recovering the culture of antiquity it nevertheless served as the springboard for many specifically modern developments including the rise of diplomacy education printing nationalism and the new science The New Cambridge Modern History: The Renaissance, 1493-1520, edited by G.
