Renaissance Culture A New Sense Of Order:

Renaissance Culture Julian Mates, Eugene Cantelupe, 1966 Anthology of contemporary writings which exemplify the venturesome self discovery in European arts and sciences during the Renaissance period **Renaissance Culture and the Everyday** Patricia Fumerton, Simon Hunt, 2014-06-10 It was not unusual during the Renaissance for cooks to torture animals before slaughtering them in order to render the meat more tender for women to use needlepoint to cover up their misconduct and prove their obedience and for people to cover the walls of their own homes with graffiti Items and activities as familiar as mirrors books horses everyday speech money laundry baskets graffiti embroidery and food preparation look decidedly less familiar when seen through the eyes of Renaissance men and women In Renaissance Culture and the Everyday such scholars as Judith Brown Frances Dolan Richard Helgerson Debora Shuger Don Wayne and Stephanie Jed illuminate the sometimes surprising issues at stake in just such common matters of everyday life during the Renaissance in England and on the Continent Organized around the categories of materiality women and transgression and constantly crossing these categories the book promotes and challenges readers thinking of the everyday While not ignoring the aristocratic it foregrounds the common person the marginal and the domestic even as it presents the unusual details of their existence What results is an expansive variegated and sometimes even contradictory vision in which the strange becomes not alien but a defining mark of everyday life **House of Faith or Enchanted Forest?** Charles W. Hedrick, 2009-01-01 Since The Renaissance of the

fourteenth through seventeenth centuries and particularly since the Enlightenment of the eighteenth century the ancient creeds of faith have been under serious fire and the struggle has not gone well for popular religion in America The rapid advances made by the physical sciences in the nineteenth and twentieth centuries and the corresponding reliance on scientific accomplishments in American life have been matched by the growing influence of reason in the way Americans think about religion Except for pockets of resistance these developments have negatively influenced the practical role of traditional religion in American life These essays published over a twenty year period as newspaper editorials addressed to the general public confront popular beliefs and morals with the challenge of human reason At issue in this meeting of faith and reason is nothing less than the nature of religion in the twenty first century Will faith embrace reason to create a House where both dwell in harmony or will faith ignore the claims of reason and continue to live in an Enchanted Forest Each essay written in the practical language of the streets attempts to dialogue with the general reader and gently provoke critical thinking on sensitive issues of belief Charles Hedrick is a scholar who has come clean From the buckle on the Bible Belt comes this honest intelligent and creative reflection on the struggle between reason and or science and personal faith Charlie s reminder to take our personal absolute truths house of faith a little less seriously and enjoy the diversity of thought and experience enchanted forest is practical powerful and incredibly timely Glenna S Jackson Professor Department of Religion and Philosophy at Otterbein College House of Faith or Enchanted Forest is a personal and lively journey along the

path of faith and doubt Charles Hedrick poses deep questions that for centuries have haunted philosophers historians and theologians alike This book awakens and celebrates critical thinking yet remains warmly accessible and resolutely honest Anyone who wishes to re think life s great questions in light of the changing face of Christianity will find joy in reading this book Here is an excellent resource for discussion groups book clubs and inquiring individuals David Galston Director of the Eternal Spring learning Centre Hamilton Ontario Charlie Hedrick asks a lot of questions in this provocative collection of short essays One specific question that perhaps sums up the others Can a critical thinker also be a person of traditional religious faith Spanning a wide range of topics Hedrick offers readers challenging questions to ponder rather than easy answers to swallow Yet by pondering such questions careful readers will find themselves closer to honest answers than they were before they read this helpful book J Bradley Chance Professor and Chair Department of Religion William Jewell College

Weisberg, 2000-02-22 In this book the first to offer a comprehensive examination of the emerging study of law as literature Guyora Binder and Robert Weisberg show that law is not only a scheme of social order but also a process of creating meaning and a crucial dimension of modern culture They present lawyers as literary innovators who creatively interpret legal authority narrate disputed facts and hypothetical fictions represent persons before the law move audiences with artful rhetoric and invent new legal forms and concepts Binder and Weisberg explain the literary theories and methods increasingly applied to law and they introduce and synthesize the work of over a hundred authors in the fields of law literature philosophy and cultural studies Drawing on these disparate bodies of scholarship Binder and Weisberg analyze law as interpretation narration rhetoric language and culture placing each of these approaches within the history of literary and legal thought They sort the styles of analysis most likely to sharpen critical understanding from those that risk self indulgent sentimentalism or sterile skepticism and they endorse a broadly synthetic cultural criticism that views law as an arena for composing and contesting identity status and character Such a cultural criticism would evaluate law not simply as a device for realizing rights and interests but also as the framework for a vibrant cultural life **Tragic Views of the Human**
