Sannazaro 1456-1530 is most famous for having written the first pastoral romance in European literature the *Arcadia* 1504. But after this work he devoted himself entirely to Latin poetry modeled on his beloved Virgil. In addition to his epic *The Virgin Birth* 1526 he also composed *Piscatory Eclogues* an adaption of the eclogue form.

Neo-Latin Poetry in the British Isles, 2013-03-14 Investigation of the Latin poetry produced by British poets from the sixteenth century onwards affords an indispensable insight into a dominant strand in the intellectual cultural and educational life of the British Isles during this period. At this time the composition of Latin poetry was a regular feature of school curricula and a popular leisure time activity of the educated elite. Such examination also sheds light on the poetic principles and practice of major British poets such as Campion, Cowley, Herbert and Milton who penned a large quantity of neo Latin verse in addition to their better known vernacular works.

The Legacy of Rome Richard Jenkyns, 1992 Long considered the standard introduction to Rome's influence on later centuries the original was published in 1923 this completely new edition of the classic work brings together the latest scholarship in the field. Unlike the previous version which focused on such narrow topics as commerce and administration the new edition broadens the spectrum of influence showing the impact for example of Roman literature art politics law and language on western civilization. With 24 pages of plates. Annotation copyrighted by Book News Inc Portland OR.

The Neo-Latin Epigram Susanna de Beer, K. A. E. Enenkel, David Rijser, 2009 The epigram is certainly one of the most intriguing while at the same time most elusive genres of Neo Latin literature. From the end of the fifteenth century almost every humanist writer who regarded himself a true poeta had composed a respectable number of epigrams. Given our sense of poetical aesthetics be it idealistic postidealistic modern or postmodern the epigrammatic genre is difficult to understand. Because of its close ties with the historical and social context it does not fit any of these aesthetic approaches. By presenting various epigram writers collections and subgenres from the fifteenth to the seventeenth century this volume offers a first step toward a better understanding of some of the features of humanist epigram literature.

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud. Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights

the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil s Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Latin Epics of the New Testament Roger P. H. Green, 2006-11-23 Latin Epics of the New Testament is about the growth of Christianity and in particular the challenge of engaging with the Roman intellectual elite and its highly sophisticated Graeco Roman tradition In this culture epics like those of Vergil and Lucan were highly valued for their language their heroic themes and their Rome centred ideologies Roger Green examines each of these epics in detail showing how the three authors Juvenius Sedulius and Arator repackaged the New Testament as epic and try to make a bridge between two very different cultures He explores the fascinating questions of how these authors exploit epic themes such as gods

heroes war and fate without playing down the very real theological concerns of their times All these poets were popular in the Middle Ages and later and are the pioneers of poetry that leads to Renaissance epic and the famous poems of John Milton

Architectonics of Imitation in Spenser, Daniel, and Drayton David Ian Galbraith, 2000-01-01 Exploring the boundaries between poetry and history on three of England's epic literary works Galbraith argues that they enter into a dialogue with classical and contemporary predecessors with implications for understanding the English Renaissance *Humanistica Lovaniensia* Gilbert Tournoy, 1980 Volume 29

Reading Sulpicia Mathilde Skoie, 2002 Focusing on the representation of the Augustan poet Sulpicia in commentaries this book investigates the interpretative strategies involved in the reading of an ancient text Mathilde Skoie discusses a selection of commentaries from the Renaissance to the present day combining the history of classical scholarship philology feminist literary theory and reception theory A Guide to Neo-Latin Literature Victoria Moul, 2017-01-16 Latin was for many centuries the common literary language of Europe and Latin literature of immense range stylistic power and social and political significance was produced throughout Europe and beyond from the time of Petrarch c 1400 well into the eighteenth century This is the first available work devoted specifically to the enormous wealth and variety of neo Latin literature and offers both essential background to the understanding of this material and sixteen chapters by leading scholars which are devoted to individual forms Each contributor relates a wide range of fascinating but now little known texts to the handful of more familiar Latin works of the period such as Thomas More's Utopia Milton's Latin poetry and the works of Petrarch and Erasmus All Latin is translated throughout the volume
