Renewal Through Internal Development:

Renewal Through Internal Development Esbjörn Segelod,1995 *Project Cost Overrun* Esbjörn Segelod,2017-11-23
Cost overrun is common in public and private sector projects Costs tend to grow plans fail and financial problems follow but how can we approve the right projects if we cannot estimate their true cost This book for academics in project management management accounting and corporate finance as well as for managers in the public and private sectors offers a new way of thinking about the causes and consequences of cost overrun for firms and society It demonstrates that there is a logic behind cost growth and overrun identifies projects and situations that are more vulnerable and examines the effects of increased costs It further identifies the negative and positive consequences of cost overrun analyses how and why preconditions for cost overrun differ when the logic governing private firms dominates versus the logic of the political sector and explains why cost can sometimes be of lesser importance to decision makers *Strategic Renewal* Aybars Tuncdogan,Adam Lindgreen,Henk Volberda,Frans van den Bosch,2019-03-15 Strategic Renewal is an original research anthology offering insight into a subject area which although critical for the sustained success of organizations has received relatively little attention as distinct from the more general phenomenon of strategic change Firstly by providing a summary of the literature this research anthology helps graduate students and new researchers grasp the current state of affairs in the field Secondly this research anthology will help update the knowledge base of the existing researchers in the field By bringing together various studies the research anthology determines the core concepts of the field and elucidates the key gaps and future research areas Through contributions building on the knowledge bases of other disciplines this research anthology develops an interdisciplinary research agenda giving the reader an in depth understanding of the mediating moderating and antecedent variables concerning strategic renewal Strategic Renewal aims to provide a state of understanding to the subject as well as a clear picture of the cross disciplinary landscape that informs the subject Thus this research anthology is essential reading for managers consultants and other practitioners as well as students and scholars of business *Innovation and Knowledge-Intensive Service Activities* OECD,2006-03-15 This study shows how knowledge intensive services activities KISAs contribute to the acquisition and growth capabilities of firms and public sector organisations **The 19th International Conference on Industrial Engineering and Engineering Management** Ershi Qi,Jiang Shen,Runliang Dou,2013-06-03
The International Conference on Industrial Engineering and Engineering Management is sponsored by the Chinese Industrial Engineering Institution CMES which is the only national level academic society for Industrial Engineering The conference is held annually as the major event in this arena Being the largest and the most authoritative international academic conference held in China it provides an academic platform for experts and entrepreneurs in the areas of international industrial engineering and management to exchange their research findings Many experts in various fields from China and around the world gather together at the conference to review exchange summarize and promote their achievements in the fields of

industrial engineering and engineering management For example some experts pay special attention to the current state of the application of related techniques in China as well as their future prospects such as green product design quality control and management supply chain and logistics management to address the need for amongst other things low carbon energy saving and emission reduction They also offer opinions on the outlook for the development of related techniques The proceedings offers impressive methods and concrete applications for experts from colleges and universities research institutions and enterprises who are engaged in theoretical research into industrial engineering and engineering management and its applications As all the papers are of great value from both an academic and a practical point of view they also provide research data for international scholars who are investigating Chinese style enterprises and engineering management

Insaiddoo,2007-08-08 In this thought provoking book the author takes a critical retrospective glance at the political development of Ghana from its colonial past to the attainment of her sovereignty and highlights the insidious fundamental flaws in the governance of the new nation He unequivocally asserts that the creation of a dysfunctional totalitarian governmental system where a cadre of unseasoned politicians systematically arrogated all power to themselves and zealously prosecuted their political adversaries into oblivion constituted the most fatal fundamental flaw in the governance of the nation He points out that the militarys delusional belief in their self appointed messianic role of liberating and redeeming Ghana from the odious dictatorship imposed on the people opened up the nation to the Pandoras box of bureaucratic ineptitude gross power abuses poorly conceived and haphazardly implemented programs which precipitated political instability stagnation and decay of the institutions of state leading to the exodus of Ghanaians abroad The dominant theme that permeates throughout the book revolves around the prevalence of the underlying institutional malaise inherited from colonialpolitical structureswhich concentrate too much raw political powers in the hands of the presidency This accumulation of near absolute power elevates our presidents to the status of benevolent dictators and sotheir policies go virtually unchallenged This lack of checks and balances in our political system enabled the colonialists to totally exploit our people andwhen our Ghanaian leaders governed our new nation in this same odious system they got the opportunity like the colonial masters to exploit and arrogate power to themselves while utilizing the legal system as a weapon to harass their political opponents and silenced them The author argues that this incompatibility of the colonial system with the political development of modern Ghana is the root cause of our political polarization endemic instability and pervasive poverty
