Congress,1970 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 From State to Market? Vivien A. Schmidt,1996-04-26 The Mitterrand years saw the transformation of business and its relationship to government From State to Market first published in 1996 details the governmental policies toward business that went from nationalization to privatization deregulation and ever increasing European integration bringing with them the move from a dirigiste or state directed economy to a more market oriented one Professor Schmidt profiles the players the interpenetrating elite of top business and government officials who share common state educational history and career track and who as the beneficiaries of the all pervasive culture of the state have managed not only to maintain their hold in the ministries but also to colonize industry This book which spans the fields of public policy and political economy contains both empirical information the results of over forty interviews with top business and government officials and a theoretical framework that sets French state society relations in comparative perspective The Creation of Kazakh National Identity Dmitry V. Shlapentokh,2023-10-31 This monograph utilizes three theoretical models to explain Kazakhstan s emergence as an independent state and its changing relationships with the broader world particularly Russia since the beginning of the twentieth century The book first explores the construction of Kazakh national identity and the ways in which intellectuals appealed to history to substantiate their claims about Kazakhstan s future Secondly the narrative demonstrates that not all segments of totalitarian machinery work in unison While terror reached its peak in the 1930s cultural and ideological control was not as rigid as it would become in the late 1940s and early 1950s Most importantly the work is grounded in the study of the social universe The book introduces the notion of cosmos the peculiar connections between social economic and political forces While not necessarily directly dependent on each other they nevertheless created a unique interplay among the segments of societal structures and the state s relationship with the wider universe Taking this framework as the point of departure this research analyzes Kazakhstan s multi vectorism as uniquely fit to contemporary global arrangements when no global power dominates and the lines between friend and foe are blurred This compelling approach to Kazakhstan s history

will appeal to postgraduate students and scholars in Russian history and world history **Stanlinism** Nick Lampert,2016-09-16 Although scholars have devoted much attention to the impact of technology on society they have tended to slight the question of how technology is affected by social systems The authors of this volume take precisely this approach in their examination of the Soviet model of development The Clash of Empires Lydia He. LIU, Lydia He Liu,2009-06-30 What is lost in translation may be a war a world a way of life A unique look into the nineteenth century clash of empires from both sides of the earthshaking encounter this book reveals the connections between international law modern warfare and comparative grammar and their influence on the shaping of the modern world in Eastern and Western terms The Clash of Empires brings to light the cultural legacy of sovereign thinking that emerged in the course of the violent meetings between the British Empire and the Qing Dynasty 1644 1911 Lydia Liu demonstrates how the collision of imperial will and competing interests rather than the civilizational attributes of existing nations and cultures led to the invention of China the East the West and the modern notion of the world in recent history Drawing on her archival research and comparative analyses of English and Chinese language texts as well as their respective translations she explores how the rhetoric of barbarity and civilization friend and enemy and discourses on sovereign rights injury and dignity were a central part of British imperial warfare Exposing the military and philological and almost always translingual nature of the clash of empires this book provides a startlingly new interpretation of modern imperial history **"Chrono" Series , The Time of the Tribes** Michel Maffesoli,1996-02-27 In this exciting book Michel Maffesoli argues that the conventional approaches to understanding solidarity and society are deeply flawed He contends that mass culture has disintegrated and that today social existence is conducted through fragmented tribal groupings organized around the catchwords brand names and sound bites of consumer culture The book provides a rich backcloth against which to consider the rise of identity politics and the proliferation of lifestyle cultures Chris Marker Catherine Lupton,2005 A critical study of the work of film maker and media artist Chris Marker **La Jetée** Chris Darke,2017-10-24 Chris Marker s La Jet e is 28 minutes long and almost entirely made up of black and white still images Since its release in 1964 the film which Marker described as a photo novel has haunted generations of viewers and inspired writers artists and film makers Its spiralling narrative of post nuclear war time travel narrative has influenced many other films including the Terminator series and Terry Gilliam s Hollywood remake Twelve Monkeys 1995 But as Marker rarely gave interviews little is really known about the origins of La Jet e or the ideas behind it In this groundbreaking study Chris Darke draws on rare archival material including previously unpublished correspondence and production documents to examine the making of the film He explores how Marker s only fiction film was influenced both by his early work as a writer and by Alfred Hitchcock s Vertigo 1958 and considers how La Jet e s imagery can be seen to echo throughout Marker s extraordinarily diverse oeuvre **Memory, Memorization, and Memorizers** Marcel Jousse,2018-07-18 This book is about the spoken word It is about words spoken in the first century of our era and

later put down in writing as confirmation of what had been said and done Here Marcel Jousse answers his own fundamental question How did the human being placed at the heart of the countless actions of the universe set about to conserve within him the memory of these actions and to transmit this memory faithfully to his descendants from generation to generation To all oral societies tradition is memory and of all oral societies ancient Galilee perhaps more so than any other developed ways and means of capacitating memory to levels we no longer fathom This book is about how Ieshua s deeds and sayings were first faithfully recorded in the memory as and when they happened how they were then faithfully transmitted orally within and without Palestine and how they were finally faithfully literally recorded anew as oral tradition put in writing
