**Feminist Democratic Representation** Karen Celis, Sarah Childs, 2020-09-10 Popular consensus has long been that if enough women are present in political institutions they will represent women's interests Yet many believe that differences among women women disagreeing about what is in their interest fatally undermine both the principle and the practice of women's group representation In this book Karen Celis and Sarah Childs redress women's poverty of political representation with a new feminist account of democratic representation Rather than giving up on women's group representation Celis and Childs re think and re design representative institutions taking women's differences both ideological and intersectional as their starting point Feminist Democratic Representation considers a broad spectrum of contemporary problematics abortion prostitution sex work Muslim women's dress and Marine Le Pen to discuss women's under and misrepresentation and the good bad and the ugly representative As problem driven scholars firmly grounded in feminist and democratic empirical and theoretical political science Celis and Childs imagine what good representation for women in all their diversity could look like representation as it should be To realize this ideal in today's established representative democracies they present a second generation feminist design for parliaments and legislatures underpinned by a re thinking of feminist and democratic principles Celis and Childs conceive of representation as a m lange of dimensions

and they shift the focus in women's group representation from feminist outcome to feminist process Inclusive responsive and egalitarian representation for all women demands a new category of representatives in parliaments the affected representatives of women who are epistemologically and experientially close to differently affected women Affected representatives passionately advocate within political institutions and publicly hold elected representatives to account Feminist processes of representation have wide effects and deepen relationships between women and their democratic institutions Against the more fashionable tide of post representative politics Feminist Democratic Representation argues not simply for more but significantly better representation

*Representation of Gender* Emanuela Lombardo, Petra Meier, 2016-02-24 What is symbolic representation Since Hanna Pitkin's seminal *The Concept of Representation* the symbolic has been the least studied dimension of political representation Innovatively adopting a discursive approach this book the first full length treatment of symbolic representation focuses on gender issues to tackle important questions such as What are women and men symbols of and how is gender constructed in policy discourse It studies what functions symbolic representation fulfils in the construction of gender what social roles get legitimized in policy discourse and how this affects power constellations ultimately revealing much about the relation between symbolic descriptive and substantive representation Emanuela Lombardo and Petra Meier draw on theories of symbolic representation and gender as well as rich primary material about political debates on labour and care issues partnership and reproductive rights gender violence and quotas Using this original data the authors show that reconsidering symbolic representation from a discursive perspective makes explicit issues of inequality embedded within particular constructions as well as their consequences for political representation and gender equality This important exploration raises relevant new questions regarding the representation of gender that form valuable contributions to the fields of political science political theory sociology and gender studies

**Women's Representation in African Politics** Zainab Monisola Olaitan, 2024-12-11 Does the election of more and more women into political offices mean that women s interests will be better protected This question forms the background upon

which this book is written as it forms a timely intervention concerning the clamour for increased women's representation in African politics. The book examines the relationship between gender quotas and gender focused legislative policy outcomes in the national Parliaments of South Africa and Botswana. By investigating the utility of gender quotas to ensure the substantive representation of women in African politics, the book engages the assumption that increased women's political participation will automatically improve the qualitative well being of African women. The book is intended for both academic and non academic audiences with differing purposes. It contributes to scholarly debates on the transcending relevance of quotas beyond numbers. For non academics it provides opportunities to engage gender quotas as a policy tool to ensure the qualitative well being of African women.
