this led us to realize that it was time to give an editorial collocation to YIS that can be more consistent with the interest it has raised and that can ulteriorly raise FPG does not put constraint on this perspective being aware and agreed of the necessity of a worldwide context for the YIS s development Moreover there are no constraints in the possibility of going on in using the label YIS starting from Volume 4 The Series addresses a quite large potential public students and researchers interested to theoretical and methodological development of psychology and more in general social science Persons engaged with qualitative dynamic informed models of analysis will find YIS a precious tool as well as a context enabling to develop a worldwide network of practices and cultures of research The first three volumes TOC witness how large and constantly increasing is the interest around the scientific project *Culture and Political Psychology* Thalia Magioglou, 2014-03-01 This book is perhaps the first systematic treatment of politics from the perspective of cultural psychology Politics is a complex that psychology usually fails to understand as it assumes a position in society that attempts to be free of politics itself Politics is associated both with an everyday practice and the dynamics of globalization with the way group conflicts ideologies social representations and identities are lived and co constructed by social actors The authors of the book address these issues through their research grounded in different parts of the world on democracy and political order the social representation of power gender studies the use of metaphors and symbolic power in political discourse social identities and methodological questions The book will be used by social and political psychologists but is also of interest to the other social sciences political scientists sociologists anthropologists educationalists and it is at a level where sophisticated lay public would be able to appreciate its coverage Its use in upperlevel college teaching is possible and expected at graduate postgraduate levels
