MPs' Roles and Representation Federico Russo,2021-11-29 This book examines the content of MPs activities through which parliamentarians generate representative claims Challenging the idea that studying individual representation is a futile exercise this book shows that looking at the opinions and behavioural patterns of parliamentarians can shed light on some important questions What are the interests represented in parliament How important are electoral incentives in shaping the role of representatives What is the impact of parliamentarians personal characteristics Focussing on the role played by Italian members of the Chamber of Deputies across a period of more than 20 years the study applies role analysis to connect the normative debates on political representation to empirical studies and is underpinned by a rich data set of parliamentary activities and surveys on parliamentarians attitudes and opinions The book will be of key interest to scholars and students of legislative studies European politics Italian studies politics and more broadly to comparative politics

Representation From Above Peter Esaiasson,Sören Holmberg,2017-07-05 This book uses Sweden as a test case to analyze how parliament and elected representatives function in a representative democracy Despite the status of Scandinavian countries as perhaps the world s most egalitarian societies the book argues that the best summary characterization of Swedish representative democracy is an elitist system run from above The book also argues that an individualist representational model is relevant to the Swedish setting and most likely to other settings as well Representative democracy is not just party based democracy not even in a country with strong and disciplined parties The book takes a broad approach to the study of political representation It integrates into a single analytical framework concepts and theories from neighbouring traditions such as legislative behaviour opinion formation and interest organizations The study is based on a comprehensive set of data including three surveys of the Members of the Swedish Parliament corresponding voter surveys and content analysis of mass media and parliamentary records
