**Countless Blessings** Barbara M. Cooper, 2019-07-01 A study of pregnancy and childbirth customs in Niger and how it has both a high fertility rate and high rates of maternal and infant mortality How do women in Niger experience pregnancy and childbirth differently from women in the United States or Europe Barbara M Cooper sets out to understand childbirth in a country with the world's highest fertility rate and an alarmingly high rate of maternal and infant mortality Cooper shows how the environment slavery and abolition French military rule and the rapid expansion of Islam have all influenced childbirth and fertility in Niger from the nineteenth century to the present day She sketches a landscape where fear of infertility generates intense competition between communities ethnicities and co wives and creates a culture where concerns about infertility dominate concerns about overpopulation where illegitimate children are rejected and where the education of girls is sacrificed in the name of avoiding shame Given a medical system poorly adapted to women's needs a precarious economy and a political context where it is impossible to address sexuality openly Cooper discovers that it is little wonder that pregnancy and birth are a woman's greatest pride as well as a source of grave danger Beautifully written insightful and full of empathy A must read for anyone seeking to understand the damaging consequences of neglecting women's and infants health Johanna Schoen author of *Abortion after Roe* Few experiences are more potent than reproduction *Countless Blessings* brilliantly unwinds the full import of this potency tracing a history of demography bodily peril parental joy and social religious and political meaning Cooper's tremendous skill and creativity as a scholar enable us to see the political stakes of reproduction even as they are grounded in the intimacies of embodied experience Julie Livingston author of *Self Devouring Growth A Planetary Parable as Told from Southern Africa* *Countless Blessings* shows how women in Niger and in West Africa have long navigated the various states of social value personhood spirituality and childbirth and it paints a remarkable picture of how contested and embodied the social and material concerns of childbirth remain for women today Ampson Hagan University of North Carolina Chapel Hill IJAHs

**The Jaguar Within** Rebecca R. Stone,2012-09-21 An important new way of viewing the prehistoric art of the Americas The Jaguar Within demonstrates that understanding a work of art s connection with shamanic trance can lead to an appreciation of it as an extremely creative solution to the inherent challenge of giving material form to nonmaterial realities and states of being Shamanism the practice of entering a trance state to experience visions of a reality beyond the ordinary and to gain esoteric knowledge has been an important part of life for indigenous societies throughout the Americas from prehistoric times until the present Much has been written about shamanism in both scholarly and popular literature but few authors have linked it to another significant visual realm art In this pioneering study Rebecca R Stone considers how deep familiarity with and profound respect for the extra ordinary visionary experiences of shamanism profoundly affected the artistic output of indigenous cultures in Central and South America before the European invasions of the sixteenth century Using ethnographic accounts of shamanic trance experiences Stone defines a core set of trance vision characteristics including enhanced senses ego dissolution bodily distortions flying spinning and undulating sensations synaesthesia and physical transformation from the human self into animal and other states of being Stone then traces these visionary characteristics in ancient artworks from Costa Rica and Peru She makes a convincing case that these works especially those of the Moche depict shamans in a trance state or else convey the perceptual experience of visions by creating deliberately chaotic and distorted conglomerations of partial inverted and incoherent images
