The First Green Wave Ryan O'Connor,2014-11-15 In The First Green Wave Ryan O Connor traces the rise of the environmental movement in Toronto home to one of Canada s earliest and most dynamic communities of environmental activists from the mid 1960s to the mid 1980s At the heart of the story is Pollution Probe an organization founded in 1969 by students and faculty at the University of Toronto Living up to its motto Do it in its first year of operation Pollution Probe confronted Toronto s City Hall over its use of pesticides Ontario Hydro over air pollution and the detergent industry over pollution of the Great Lakes The organization s successes inspired the founding of other environmental organizations across Canada and led to the development of initiatives now taken for granted such as waste reduction and energy policy This book describes the heady days of Canada s early environmental movement and examines the forces that reshaped the activist landscape in the 1980s

Future Survey Annual 1992 Michael Marien,1993-01-30

Icy Battleground Donald Barry,2005 Icy Battleground is the first comprehensive account of the forty year political controversy over the seal hunt With a foreword by the Honourable John C Crosbie it traces the rise of the anti sealing protests the emergence of the International Fund for Animal Welfare its vigorous and unrelenting campaign to end commercial sealing and its strategies in mobilising pressure in Canada and abroad It also assesses the Canadian gove ment s counter strategies to continue the hunt as well as the challenges that emotionally targeted campaigns like the seal hunt pose for gove ment decision makers

In Defence of Home Places Mark R. Leeming,2017-06-07 As environmental deterioration became a major political issue near the end of the twentieth century activists in Nova Scotia stood together to defend the places they called home They cooperated to protect local environments and economies but they disagreed about the causes of environmental problems the role of humanity in nature and the place of environmentalists in the political process In Defence of Home Places examines the diversity of environmental activism in Nova Scotia illustrating how radicals and conservatives combined efforts to achieve early legislative and social success It also chronicles the debates and disagreements over fundamental principles

that then weakened and divided the powerful environmental movement Placing the evolution of Nova Scotian environmental activism within a broader theoretical framework Mark R Leeming considers its development in national and international contexts examining the environmental movement itself along with the choices and tactics that brought about its greatest successes and failures

The Voice of the Past Paul Thompson, 2017-02-24 Oral history gives history back to the people in their own words And in giving a past it also helps them towards a future of their own making Oral history and life stories help to create a truer picture of the past and the changing present documenting the lives and feelings of all kinds of people many otherwise hidden from history It explores personal and family relationships and uncovers the secret cultures of work It connects public and private experience and it highlights the experiences of migrating between cultures At the same time it can bring courage to the old meaning to communities and contact between generations Sometimes it can offer a path for healing divided communities and those with traumatic memories Without it the history and sociology of our time would be poor and narrow In this fourth edition of his pioneering work fully revised with Joanna Bornat Paul Thompson challenges the accepted myths of historical scholarship He discusses the reliability of oral evidence in comparison with other sources and considers the social context of its development He looks at the relationship between memory the self and identity He traces oral history through its own past and weighs up the recent achievements of a movement which has become international with notably strong developments in North America Europe Australia Latin America South Africa and the Far East despite resistance from more conservative academics This new edition combines the classic text of *The Voice of the Past* with many new sections including especially the worldwide development of different forms of oral history and the parallel memory boom as well as discussions of theory in oral history and of memory trauma and reconciliation It offers a deep social and historical interpretation along with succinct practical advice on designing and carrying out a project *The Voice of the Past* remains an invaluable tool for anyone setting out to use oral history and life stories to construct a more authentic and balanced record of the past and the present

The John A. Livingston Reader John Livingston, 2013-03-05 Canada's pioneering radical naturalist now back in print John A Livingston is Canada's Rachel Carson His cogent brilliant writing on the effects of man on nature has defined an entire generation of environmentalists and is required reading for anyone who wants to understand the underpinnings of today's issues Radical when first published in the early 1970s and 1980s Livingston's arguments that we must find new approaches to our perception of nature and our place within it or face the irreversibility of our destruction of nature now reads prophetically The Reader brings two of Livingston's poetic and provocative books back into print for a new generation of readers and features an appreciation by Graeme Gibson

Working for Wildlife Janet Foster, 1998-01-01 Foster shows how a small band of dedicated civil servants transformed their own goals of preserving endangered animals into active government policy The definitive history of the beginnings of wildlife conservation in Canada

Manufacturing National Park Nature J. Keri Cronin, 2011-07-01 National parks occupy a prominent place in the Canadian imagination yet

we are only beginning to understand how their visual representation has shaped and continues to inform our perceptions of ecological issues and the natural world J Keri Cronin draws on historical and modern postcards advertisements and other images of Jasper National Park to trace how various groups and the tourism industry have used photography to divorce the park from real environmental threats and instead package it as a series of breathtaking vistas and adorable looking animals Manufacturing National Park Nature demonstrates that popular forms of picturing nature can have ecological implications that extend far beyond the frame of the image How Ottawa Spends, 1991-1992 Frances Abele, 1991-05-15 This volume is the twelfth in the series on federal government spending and policy performance compiled by Carleton University's School of Public Administration This edition assesses the future of Canada in the post Meech post free trade era Four articles concentrate on the increasing fragmentation of Canada after the failure of the Meech Lake Accord and each of the others ponders various topics in the context of an era when the nature of the federation seems very much in questions Authors from western Canada the Atlantic region and Quebec explore the changing political landscapes in their areas while others consider the shifting realities in aboriginal state relations Abortion race relations federal grants to interest groups benefits to the elderly and telecommunications policy are all reviewed as aspects of the mature agenda of the Progressive Conservative party in power Taken as a group these articles provide a multifaceted and sometimes surprising evaluation of government performance **Eco-facts and Eco-fiction** William H. Baarschers, 2013-04-15 Ozone friendly recyclable zero waste elimination of toxic chemicals such environmental ideals are believed to offer solutions to the environmental crisis Where do these ideals come from Is the environmental debate communicating the right problems Eco Facts and Eco Fiction examines serious errors in perceptions about human and environmental health Drawing on a wealth of everyday examples of local and global concerns the author explains basic concepts and observations relating to the environment Removing fear of science and technology and eliminating wrong perceptions lead to a more informed understanding of the environment as a science a philosophy and a lifestyle By revealing the flaws in today's environmental vocabulary this book stresses the urgent need for a common language in the environmental debate Such a common language encourages the effective communication between environmental science and environmental decision making that is essential for finding solutions to environmental problems

Environmental Consciousness Stephen Hussey, Paul Richard Thompson, 2004 Across the globe environmental questions feature more and more in today's social and political agendas In Western countries environmental campaigns target issues at home and abroad They have a special urgency which draws in an astonishing range of field campaigners from young militants to rebel aristocrats This book examines the roots of contemporary environmental consciousness and action in terms of both popular experience and tradition The global reach of this book reflects the character of contemporary environmentalism It examines a geographically and thematically diverse range of case studies including British environmental campaigners in the Brazilian rainforest ecocriticism and literature the environmental movement in Kazakhstan

and medieval church iconography The common theme linking each chapter is that environmental consciousness and activism are shaped through people's life stories and that their memories are shaped not only through individual experience but also through myth tradition and collective memory Containing a wealth of empirical source material Environmental Consciousness will be invaluable for sociologists and historians alike It offers a cutting edge illustration of how narrative and oral history can illuminate our understanding of an uncertain present Stephen Hussey is a research associate at the School of Education at the University of Cambridge His previous publications include *Childhood in Question* and his next publication will be a book for the wider market entitled *Headline History* Paul Thompson is research professor in sociology and director of Qualidata at the University of Essex He is also founder of the National Life Story Collection at the British Library National Sound Archive and founder editor of *Oral History* His previous publications include *The Voice of the Past* *The Edwardians* and *The Work of William Morris*

The Nature of Canada Colin M. Coates, Graeme Wynn, 2019-05-01 Intended to delight and provoke these short beautifully crafted essays enlivened with photos and illustrations explore how humans have engaged with the Canadian environment and what those interactions say about the nature of Canada Tracing a path from the Ice Age to the Anthropocene some of the foremost stars in the field of environmental history reflect on how we as a nation have idolized and found inspiration in nature even as fishers fur traders farmers foresters miners and city planners have commodified it or tried to tame it They also travel lesser known routes revealing how Indigenous people listened to glaciers and what they have to tell us and how even the nature we can't see the smallest of pathogens has served the interests of some while threatening the very existence of others *The Nature of Canada* will make you think differently not only about Canada and its past but quite possibly about Canada and its future Its insights are just what we need as Canada attempts to reconcile the opposing goals of prosperity and preservation

Cape Bretoniana Beaton Institute of Cape Breton Studies, 2005-01-01 Nova Scotia's Cape Breton Island is a beautiful region with a unique community whose history and ethnic composition have resulted in the evolution of a powerful sense of identity and place While outsiders may think only of the island's perennial economic woes and long economic dependence on coal mining and steel production it is also the home of a rich vibrant and distinct culture Brian Douglas Tennyson's *Cape Bretoniana* is the first bibliography to gather together all known publications relating to the history culture economy and politics of Cape Breton Island With more than 6000 entries it not only provides a comprehensive listing of publications and post graduate theses but also detailed annotations on the listings Each entry lists the author title place of publication publisher date of publication volume and issue number in the case of periodicals and page references followed by a brief description of the item Cape Breton has never been so thoroughly documented This bibliography will help to ensure that even in a world becoming increasingly homogenized by the forces of globalization unique cultural identities like Cape Breton's can be preserved and nurtured

The Subjugation of Canadian Wildlife Max Foran, 2018-04-10 Hardly a day goes by without news of the extinction or endangerment of yet another animal

species followed by urgent but largely unheeded calls for action. An eloquent denunciation of the failures of Canada's government and society to protect wildlife from human exploitation. Max Foran's *The Subjugation of Canadian Wildlife* argues that a root cause of wildlife depletions and habitat loss is the culturally ingrained beliefs that underpin management practices and policies. Tracing the evolution of the highly contestable assumptions that define the human wildlife relationship, Foran stresses the price wild animals pay for human self-interest. Using several examples of government oversight at the federal, provincial, and territorial levels from the Species at Risk Act to the Biodiversity Strategy Protected Areas Network and provincial management plans, this volume shows that wildlife policies are as much or more about human needs, priorities, and profit as they are about preservation. Challenging established concepts including ecological integrity, adaptive management, sport hunting as conservation, and the flawed belief that wildlife is a renewable resource, the author compels us to recognize animals as sentient individuals and as integral components of complex ecological systems. A passionate critique of contemporary wildlife policy, *The Subjugation of Canadian Wildlife* calls for belief change as the best hope for an ecologically healthy, wildlife-rich Canada.

Unveiling the Whale Arne Kalland, 2009. Whaling has become one of the most controversial environmental issues. It is not that all whale species are at the brink of extinction, but that whales have become important symbols to both pro and anti-whaling factions and can easily be appropriated as the common heritage of humankind. This book, the first of its kind, is therefore not about whales and whaling per se, but about how people communicate about whales and whaling. It contributes to a better understanding and discussion of controversial environmental issues: Why and how are issues selected? How is knowledge on these issues produced and distributed by organizations and activists? And why do affluent countries like Japan and Norway still support whaling, which is of insignificant economic importance? Basing his analysis on fieldwork in Japan and Norway and at the International Whaling Commission, the author argues how an image of a superwhale has been constructed and how this image has replaced meat and oil as the important whale commodity. He concludes that the whaling issue provides an arena where NGOs and authorities on each side can unite, swapping political legitimacy and building personal relations that can be useful on issues where relations are less harmonious.

Ecology of a Managed Terrestrial Landscape Ajith H. Perera, David L. Euler, Ian D. Thompson, 2011-11-01. The growing popularity of the broad landscape-scale approach to forest management represents a dramatic shift from the traditional stand-based focus on timber production. *Ecology of a Managed Terrestrial Landscape* responds to the increasing need of forest policy developers, planners, and managers for an integrated, comprehensive perspective on ecological landscapes. The book examines the big picture of ecological patterns and processes through a case study of the vast managed forest region in Ontario. The contributors synthesize current landscape ecological knowledge of this area and look at gaps and future research directions from several points of view: spatial patterns, ecological functions and processes, natural disturbances, and ecological responses to disturbance. They also discuss the integration of landscape ecological knowledge into policies of forest management.

policies particularly with respect to Ontario's legislative goals of forest sustainability Ecology of a Managed Terrestrial Landscape is the first book to describe the landscape ecology of a continuously forested landscape in a comprehensive manner It is written for instructors and students in forest management wildlife ecology and landscape ecology and for forest managers planners and policy developers in North America **Understanding Canada** Wallace Clement, 1997 The new Canadian political economy has emerged from its infancy and is now regarded as a respected and innovative field of scholarship Understanding Canada furthers this tradition by focusing on current issues in an accessible and informative way
