Mingo Sweeney, 2019-10-24 Halifax Nova Scotia 1941 The sudden death of seventeen year old Canadian Patrick MacQueen's little sister has wrecked his idyllic world and tore his family apart Still clinging to his boyhood ideals of honor and glory he lies about his age to enlist and go off to war He never could have imagined what lay ahead The Broken Sword opens with Patrick MacQueen fighting to keep his head above water as a fledgling signaller in the Canadian Army An accident on the firing range dashes his hopes and he returns to the sultry shores of his Bermuda home to recover There he falls under the spell of a seductive Nazi sympathizer Lady Lemonton and just as things begin to spin out of control he gets a second chance to get back into the war Commissioned a Royal Canadian Navy lieutenant he plunges into vicious battles with German U boats on the icy North Atlantic But even as he struggles for sanity and survival his journey takes another unexpected turn when he meets Lady Lemonton while on leave in Ireland who promises him glory and riches and herself if only he will join the enemy Does he have the strength to resist What will become of his boyhood ideals And where do his loyalties really lie when he emerges as a key conspirator in an attempted coup d'état to defend the Dominion of Newfoundland's sovereignty from a transatlantic power play Inspired by the author's own wartime experiences The Broken Sword is a riveting coming of age story that offers a never before seen worm's eye view of the chaotic underbelly of a nation hopelessly unprepared for war and its destructive aftermath A novel told with Norman Mailer muscle and F Scott Fitzgerald flair MacQueen's arresting saga plumbs the uncharted waters of a world struggling to survive the ruthless machinations of the great powers and lifts the veil on untold histories **Laboratory Dogs Rescued** Ellie Hansen, 2021-12-03 Animal testing is a controversy that has raged for hundreds of years Some people view experiments on dogs as necessary for human medical progress while others argue that the practice is barbaric When the author adopted Marty a beagle rescued from a research laboratory she found herself rehabilitating a terrified dog with a traumatic past She soon discovered the well kept secret of painful and often fatal testing on dogs This book details what the author has learned about the past and present of laboratory testing on dogs life after laboratories and the hope for a future without animal testing Interviews with rescue organizers and adoptive families reveal the struggles of removing dogs from laboratories and acclimating them to daily life Scientists discuss the ethics of dog
