previous editions the focus in ESSENTIAL MATHEMATICS with APPLICATIONS remains on the Aufmann Interactive Method AIM Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems Student engagement is crucial to success Presenting students with worked examples and then providing them with the opportunity to immediately solve similar problems helps them build their confidence and eventually master the concepts Simplicity is key in the organization of this edition as in all other editions All lessons exercise sets tests and supplements are organized around a carefully constructed hierarchy of objectives Each exercise mirrors a preceding objective which helps to reinforce key concepts and promote skill building This clear objective based approach allows students to organize their thoughts around the content and supports instructors as

they work to design syllabi lesson plans and other administrative documents New features like Focus on Success Apply the Concept and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success The Ninth Edition also features a new design enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow Available with InfoTrac Student Collections <http://www.cengage.com/infotrac>

Anthropologists and the Rediscovery of America, 1886-1965 John S. Gilkeson, 2010-09-20 This book examines the intersection of cultural anthropology and American cultural nationalism from 1886 when Franz Boas left Germany for the United States until 1965 when the National Endowment for the Humanities was established Five chapters trace the development within academic anthropology of the concepts of culture social class national character value and civilization and their dissemination to non anthropologists As Americans came to think of culture anthropologically as a complex whole far broader and more inclusive than Matthew Arnold's the best which has been thought and said so too did they come to see American communities as stratified into social classes distinguished by their subcultures to attribute the making of the American character to socialization rather than birth to locate the distinctiveness of American culture in its unconscious canons of choice and to view American culture and civilization in a global perspective Frontiers in
