executives this versatile resource offers an insider's perspective on creating and maintaining affordable housing in any real estate market. Features: Covers topics including community design, development, policy, tax credits, land use planning, development rights, historic buildings, adaptive reuse, tax increment financing, and gentrification. Presents interviews with development professionals in asset and property management, commercial real estate brokerage, and local housing authorities and government agencies. Highlights winning case studies from a student competition to inspire similar classroom activities. Includes a glossary of CRED specific terminology to help readers master the language of affordable housing. Contains diverse examples, planning tools, and programs to make numbers work with a companion website available. Blending the latest academic research with hard won insights from the field, *Community Real Estate Development* prepares the next generation of affordable housing professionals to continue the work of its pioneering authors and editors. The Oxford Handbook of the Economics of Poverty Philip N. Jefferson, 2012-11-05 Poverty is a pressing and persistent problem. While its extent varies across countries, its presence always represents the diminution of human capacity. Therefore, it seems natural to want to do something about it. Have countries made progress in mitigating poverty? How do we determine who is poor and who is not poor? What intuitions or theories guide the design of anti-poverty policy? Is overall labor market performance the key to keeping the poverty rate low? Or does it matter how well connected an individual is to those who know about the availability of jobs? Does being an immigrant increase the odds of being poor? Are there anti-poverty policies that work? For whom do they work? If I'm poor, will I have access to health care and housing? Am I more likely to be obese, polluted upon, incarcerated, unbanked, and without assets if I'm poor? Is poverty too hard a problem for economic analysis? These are some of the questions that a distinguished group of scholars have come together to confront in this Handbook. The Handbook is written in a highly accessible style that encourages the reader to think critically about poverty. Theories are presented in a rigorous but not overly technical way; concise and straightforward empirical analyses enlighten key policy issues. The volume has six parts: Poverty in the 21st Century; Labor Market Factors; Poverty Policy; Poverty Dynamics; Dimensions of Poverty; and Trends and Issues in Anti-Poverty Policy. A goal of the Handbook is to stimulate further research on poverty. To that end, several chapters challenge conventional thinking about poverty and in some cases present specific proposals for the reform of economic and social policy. **Segregation, Inequality, and Urban Development** Sara Dehkordi, 2020-07-07 In present day South Africa, urban development agendas have inscribed doctrines of desirable and undesirable life in city spaces and the public that uses the space. This book studies the ways in which segregated city spaces, displacement of people from their homes, and criminalization practices are structured and executed. Sara Dehkordi shows that these doctrines are being legitimized and legalized as part of a discursive practice and that the criminalization of lower class members are part of that practice, not as random policing techniques of individual security forces but as a technology of power that attends to the body, zooms in on it, screens it, and interrogates it. *Urban Friendships and Community Youth Practice* Melvin Delgado, 2017

Urban Youth Friendships and Community Practice breaks new ground in identifying and capturing the importance of friendships and the role that community practitioners and scholars can play to enhance them      *Psychology and Race* Peter Watson, Since the problems of race relations are worldwide the international origins and perspectives of this excellent and timely book are especially advantageous More research has been done in the United States than elsewhere on the psychology of race relations so it is appropriate that a plurality of the chapters of this book are by American authors a stellar group that includes leading contributors to our contemporary knowledge of the topic Contributors from the English speaking Commonwealth countries are next in number followed by authors from the United Kingdom where race related issues have only recently become a salient concern of politics and social ethics The editor has assigned topics to his carefully chosen author experts not by country or region but by matching the expertise of each author against a need for coherent analysis of the important aspects of psychology and race Psychology and Race is divided into two major parts The first half of the book looks at the interracial situation itself The first section concentrates on the majority or dominant group and describes the development and measurement of racial awareness and prejudice and techniques for reducing prejudice the second section focuses on the reactions of subordinate or minority groups and the third deals with specific aspects of interpersonal interaction attitudes behavior and performance when the people concerned are of different races The book also looks at those areas of life where race is relevant and where psychology can help in an understanding of the situation The scope of this volume the distinction of its authors and the hardheaded sense of reality it brings to the discussion of these extremely complex issues will make it an invaluable resource not only for teachers and students but also for everyone concerned in any way with this most pressing issue of our times Peter Watson was deputy editor of The New Society and spent a total of four years with The London Sunday Times as part of their Insight Team He has written several books and since 1998 has been Research Associate at the Illicit Antiquities Research Centre located at the McDonald Institute for Archaeological Research at the University of Cambridge United Kingdom
