Social Work Research for Social Justice Beth Humphries, 2008-04-28 Students of social work need to understand the contribution of research as part of this evidence base to effective practice This textbook introduces students to a range of research methods at a practical level and sensitises them to the political dimension of research **Research Methods for Social Workers** Bonnie L. Yegidis, Robert W. Weinbach, 2002 This research methods text for social work is accessible to students in level and writing style and its paperback format makes it less expensive than most texts on the market The authors are social work instructors who understand the realities of social work practice and have included many social work practice examples The text is ideal for a one semester or quarter research methods course for undergraduate or graduate students with little or no prior knowledge of research In response to reviewers and students the fourth edition infuses content in three major areas First qualitative research methods are discussed and appropriate examples are offered throughout the book not just in a single chapter Secondly research to evaluate practice while still the focus of the last two chapters is discussed alongside research for building a professional knowledge base at many points throughout the text Third discussion of ethical issues appears in many other places besides Chapter 2 It receives special emphasis in the discussions of program evaluations and single system research **Working with People with Learning Disabilities** David Thomas, Honor Woods, 2003 The authors bring together the relevant theory for social workers nurses teachers and others working with people with learning disabilities Using jargon free explanations and case examples they present the information needed to inform good practice Research Methods for Community Change Randy Stoecker, 2005-02-15 Everyone is a member of a community and every community is continually changing To successfully manage that change community members need information Research Methods for Community Change A Project Based Approach is an in depth review of all of the research methods that communities use to solve problems develop their resources and protect their identities With an engaging friendly style and numerous real world examples author Randy Stoecker shows readers how to use a project based research model in the community The four features of the model are Diagnosing a community condition Prescribing an intervention for the condition Implementing the prescription Evaluating its impact At every stage of this model there are research tasks from needs and assets assessments at the diagnosis stage to process and outcome studies at the evaluation stage Readers will also learn the importance of involving community members at every stage of the project and in every aspect of the research making the research part of the community building process Research Methods for Community Change is perfectly suited as a text for undergraduate and graduate research methods courses across the social sciences including sociology social work and public health Community service workers professional researchers and consultants will

also find this an invaluable guide to effecting change in their communities At last A concise insightful and highly useful book on research methods for community action and social change Drawing from his own rich experiences as well as from broader literature and examples Stoecker demonstrates that valuable research is not the monopoly of professional researchers but can be used by people anywhere as a tool for organizing and developing their communities Highly readable grounded in analysis and full of practical approaches this book will be an important resource for activists students scholars policy makers and community development practitioners who seek to use research for more effective and sustainable change John Gaventa Fellow Institute for Development Studies Sussex U K Drawing from his own experiences and from case studies from across the nation Stoecker offers an empowering and remarkably accessible discussion of how project based research models build community and democracy by redistributing both power and responsibility It is an informative and valuable text that makes a convincing case that research must become daily practice for all who are committed to working for effective social change Stephen L Fisher Director Appalachian Center for Community Service Emory Henry College Stoecker s highly readable book is a great leap forward in expanding the definition and practice of research and documentation through collaboration between academics and community activists He makes project based research accessible to readers through lively real examples that involve creative and strategic use of sources and resources Stoecker shows how good quality research can make meaningful differences in people s lives The book is perfect for use in both classrooms and nonprofit organizations Kathleen Staudt University of Texas at El Paso At last a book that demystifies research for both novice and experienced community workers who want to make a difference Randy Stoecker presents a refreshingly innovative and accessible challenge to more conventional texts Linda Briskman Associate Professor of Social Work RMIT University Australia

*Practical Research and Evaluation* Lena Dahlberg, Colin McCaig, 2010-05-05 This book is a starter DIY text for practitioners who are looking to conduct evaluation studies and research as part of their own professional practice The growing emphasis on evidence based practice means that there is an increasing need for practitioners to have at least a basic understanding of research be aware of methodological pitfalls and to be updated on new methods This book provides a practical user friendly guide to social science research methods for professionals who have benefited from little if any formal research methods training but find themselves in a role that requires them to read and understand complex research findings and carry out their own research as part of their professional practice Practical Research and Evaluation is aimed at practitioners working in education health social care and community work Many in this market are non graduates or are those whose study did not contain a research element but are required to know how research works This book has three main aims which will benefit this audience to enable readers to carry out small scale research projects of their own provide them with the basic understanding necessary to commission research and enable them to better understand and evaluate critically research reports This book is designed specifically for Do it Yourself researchers working in the public or voluntary

sectors It is accessible and relevant to practitioners uses non technical language wherever possible and employs grounded examples practical tips checklists and readings lists throughout

**Research Methods for Community Change: A Project-Based Approach** Randy Stoecker,2013 Research Methods for Community Change A Project Based Approach Second Edition is an in depth review of all of the research methods that communities can use to solve problems develop their resources protect their identities and build power With an engaging writing style and numerous real world examples Randy Stoecker shows how to use a project based research model in the community to diagnose a community condition prescribe an intervention for the condition implement the prescription and evaluate its impact At every stage of this model there are research tasks from needs and assets assessments to process and outcome studies Readers also learn the importance of involving community members at every stage of the project and in every aspect of the research making the research part of the community building process

**Social Work Concerns and Challenges in the 21st Century** V. V. Devasia,Ajit Kumar,2009 Choice of themes and the manner in which they are dealt with is a noteworthy feature of this book Seven out of the twenty articles are on women A striking feature is that out of the seven articles four of them discuss the daily work undertaken by women

**Modern Social Work Practice** Mark Doel,2017-03-02 Modern Social Work Practice is an interactive book designed to provide readers with an opportunity to engage with key aspects of current social work practice It also provides an excellent digest of the significant literature Each chapter is introduced with an activity or exercise designed to aid student learning in discrete aspects of practice building up to a complete curriculum for practice learning The book builds upon the success and style of Social Work Practice 1993 and The New Social Work Practice 1998 Mark Doel and Steven M Shardlow have shaped the book to take account of the National Occupational Standards for Social Work aiming to provide a creative practical and up to date resource for teaching and learning in line with current practices

**Evaluation and Social Work Practice** Ian Shaw,Joyce Lishman,1999-05-19 Evaluation and Social Work Practice offers a comprehensive treatment of the central issues confronting evaluation in social work that links theory and method to practical applications Evaluation is an integral part of social work and social care provision for both practice and service delivery Evaluation can improve effectiveness and increase accountability and help develop new models of practice and service delivery The authors argue that evaluation should not just be applied to practice but should be a direct dimension of practice Appealing to the student researcher and practitioner Evaluation and Social Work Practice will become the standard reference source on evaluation in social work XX
