Into the Wild: Beyond the Design Research Lab Alan Chamberlain, Andy Crabtree, 2019-07-03 This edited collection opens up new intellectual territories and articulates the ways in which academics are theorising and practicing new forms of research in wild contexts Many researchers are choosing to leave the familiarity of their laboratory based settings in order to pursue in situ studies in the wild that can help them to better understand the implications of their work in real world settings This has naturally led to ethical philosophical and practical reappraisals with regard to the taken for granted lab based modus operandi of scientific cultural and design based ways of working This evolving movement has led to a series of critical debates opening up around the nature of research in the wild but up until now these debates have not been drawn together in a coherent way that could be useful in an academic context The book brings together applied methodological and theoretical perspectives relating to this subject area and provides a platform and a source of reference material for researchers students and academics to base their work on Cutting across multiple disciplines relating to philosophy sociology ethnography design human computer interaction science history and critical theory this timely collection appeals to a broad range of academics in varying fields of research

Narratives in East Asia and Beyond Elizaveta Priupolina, Tanja Daniela Eckstein, 2023-05-30 In *Narratives in East Asia and Beyond* An Interdisciplinary Perspective on Using Narratives as a Research Method contributors from diverse fields jointly argue for the

interdisciplinary appeal of using narratives as a research method Scholars from the fields of philosophy of narrative ethnographic research linguistics political sciences international relations and area studies reflect on how to approach understand and utilize narratives to comprehend social structures and interactions The volume attempts to reflect on a range of questions including How can narrative studies broaden and deepen the scope of research in other fields What connections exist between narratives and identities individual and collective How does analyzing narratives help us better understand the dynamics of the policy change and the perceptions of self and other The essays range from reflections on the role of narrativity in cognitive processes interview settings and in constructing historical memories to the analysis of narrator and audience perspectives on the Chinese Belt and Road Initiative evaluations of roles and legitimation strategies as well as interpretations of documentary films The authors show the flexibility and fruitfulness of incorporating narratives into research agendas in a wide range of disciplines and highlight the theoretical and empirical research benefits that narrative studies open up

Beyond Hierarchy Sarah Oerton, 2013-10-08 Since the early 1980s there has been a surge of interest in both issues of gender and sexuality in work and organizational life and in the founding and running of co operatives and collectives Since hierarchy rests on divisions which are in part gendered and sexualized and co operatives for the most part operate with flat or non hierarchical structures they could be seen as places where gender and sexuality make little difference to the experiences of workers This text takes issue with the assumption that where there is an absence of formal hierarchy in work and organizational life there is likely to be an absence of gender inequalities It argues that the matter is more complex than the simple equating of less hierarchy with greater gender equality

Research Beyond Borders

Lise-Hélène Smith, Anjana Narayan, 2011-12-28 This collection draws insights from an interdisciplinary group of scholars who specialize in diverse methods ranging from ethnography archival research and oral histories to quantitative data analysis and experiments used in the social sciences and humanities to reflect on the empirical methodological and practical implications of conducting research beyond one's national borders The goal of this book is to help researchers contemplate existing orientations that dominate current research processes and consider the need for transnational multidisciplinary practices that remain aware of the inequalities which continually inform research practices With this focus this collection is also a resourceful initiative that seeks to share experiences as well as extract key ideas and approaches likely to overlap or resonate in different disciplines
