Theological Hermeneutics Werner G. Jeanrond, 1991-06-18 An introduction to the history and scope of interpretation theory in theology It discusses hermeneutical consciousness in Christian thinking from the time of the Church Fathers up to today [Virtue Hermeneutics](#) Robert M. Eby, 2022-03-08 Contemporary hermeneutics is an unavoidable but deeply troubled discipline At the root of the problem is the classic epistemological question What makes an interpretation justifiable Since the beginning of Modernity interpreters have offered multiplied answers to this question Historicity linguistics social constructs and contemporary flashes of revelation are but a few of the proposed solutions but if the question is ultimately epistemological it follows that the answer may emerge from this same place Current research in the field of virtue epistemology has awakened interest in a new path forward for hermeneutics by looking to a time before the emergence of unstable modern frameworks In *Virtue Hermeneutics* a justified understanding of Scripture that engages all of the participants in the interpretive dialogue author text reader and reading community is discovered in the interpretive character of the wise reader From this starting point hermeneutics is able to move forward in a way that is responsive to contemporary challenges to discerning literary meaning Ultimately a justified understanding is one that virtuously engages the author the text and all reading communities The illuminating work of the Holy Spirit in hermeneutics takes on a refreshing and meaning filled place when readers readmit intellectual virtues into the discussion **Dictionary of Biblical Criticism and Interpretation** Stanley E. War Time Preaching and Teaching explores the hermeneutics science of interpretation and homiletics art of preaching of both Rudolf Bultmann and Dietrich Bonhoeffer The book explores the thought and impact of these two theologians primarily within the American debate Both Bultmann and Bonhoeffer are somewhat misunderstood and it seems that they are either totally accepted or rejected depending in many instances on one s personal understanding of their method of biblical interpretation The book attempts to objectively view their methods of biblical interpretation and how they expressed their research in their writings preaching and teaching Both concluded that the presenting of the Gospel in a relevant manner is the ultimate need for humankind today Both lived during a most challenging period of world history but were able to communicate in a captivating manner Certainly the times in which we live today call for those who possess a similar

The Pursuit of Safety Jeremy Lundgren, 2024-10-01 In this constructive theological analysis of safety theologian Jeremy Lundgren addresses the conceptual development of safety through premodern early modern and late modern settings and gives practical guidance on how to faithfully engage the pursuit of safety in the present day

Biblical Theology Prof. Leo Perdue, 2010-10-01 One of the thorniest problems in theological study is the relationship between biblical studies on the one hand and constructive theology on the other Theologians know that the Bible is the core source document for theological construction and hence that they must be in conversation with the best in critical study of Scripture For many biblical scholars the point of what they do is to help the biblical text speak to today's church and world and hence they would do well to be in conversation with contemporary theology Yet too often the two groups fail to engage

each other's work in significant and productive ways. The purpose of the Library of Biblical Theology and this introductory volume is to bring the worlds of biblical scholarship and constructive theology together. It will do so by reviving biblical theology as a discipline that describes the faith of the biblical periods on the one hand and on the other hand articulates normative understandings of modern faith and practice. In this volume the authors begin by providing an overview of the history and possible future of biblical theology. They introduce biblical theology as a fundamentally contrastive discipline, one that is neither dogmatic theology seeking to explain the official teachings of a particular Christian tradition nor is it a purely historical approach to Scripture eschewing questions of the Bible's contemporary message and meaning. Rather, biblical theology takes seriously both the need to understand the message of Scripture in its particular historical context and the need to address that message to questions that confront contemporary human life. *Encyclopedia of Protestantism* J. Gordon Melton, 2005. An illustrated A to Z reference containing over 600 entries providing information on the theology, people, historical events, institutions, and movements related to Protestantism.

New Testament Miracle Stories in Ghanaian Mother-Tongues Abraham Boateng, 2024-08-06. This book examines the translations of selected miracle stories from the Hebrew Bible Septuagint LXX and the Greek New Testament into selected Ghanaian mother tongues, considering possible shifts of meaning that occur in translating. 1 Kings 18:25-38, Mark 9:14-29, and Luke 7:11-17 are used as case studies. The author draws out semiotic hermeneutical nuances of these texts as they are understood in the Ghanaian context and addresses questions in the field of Biblical studies concerning the relevance of intercultural hermeneutics for current trends in Ghanaian Christianity. Particularly important is the high premium placed on miracles in present-day Ghanaian spirituality, making a careful analysis of these stories particularly relevant for the Ghanaian audience. The study also explores several factors that influence the translation process and have a bearing on the reception and use of the text. It follows the growing calls for a shift in African Biblical hermeneutics from the theological heritage of Europe and America to the emerging theological trajectories of Africa. This post-colonial shift re-examines the translated text, moving from what the text might have meant to what the text might mean in Africa.

Karl Barth Karl Barth, Ranked by many among the great theologians of church history, Karl Barth was the leading European theologian in the first half of this century. His 1919 *Romans* signaled the end of the nineteenth-century liberal theology, and his *Church Dogmatics* reconstructed Christian doctrine in a way that was both classical and modern. A champion of the freedom of the Christian community, Barth's theology links the Bible and the newspaper, Christian doctrine with the ethical issues of politics and economics, justice and peace. This volume concentrates on the key texts and ideas in Barth's thought. It presents the essential Barth for students and the general reader. Clifford Green's introductory essay and comments on the selected texts set Barth in his historical context, chart the development of his thought, and indicate the significance of his theology in the development of Christian theology as a whole.

Theology and Contemporary Critical Theory Graham Ward, 1996-09-06. Graham Ward examines the core skills

approaches and concepts employed in the study of theology and relates them to the work of relevant critical theorists Distinguishing theology's concern with representation history ethics and the experience of transcendence the book then reviews the work of two or three particular postmodern thinkers whose ideas challenge the traditional ways theology has handled these concerns The book suggests the way in which the study of theology may be transformed through a developed engagement with contemporary critical theory
