Domesticity Under Siege Mark Taylor, Georgina Downey, Terry Meade, 2022-12-15 Theories of the domestic stemming from the 19th century have focused on the home as a refuge and place of repose for the family a nurturing environment for children and a safe place for visitors Under this conception domestic space is positioned as nurturing and private a refuge and place of retreat which gave rise to theories of home as haven While arguably some social conditions might suggest this is the case Domesticity Under Siege exposes a different world one in which the boundaries of nurturing domesticity collide with both outside and inside agents Whether

these agents are external military forces psychological trauma or familial violence they re position meta narratives of domesticity not through identity politics or specialized subgroup experience but relative to the actions of the world around an inhabited domain That is when home is constituted as a private realm a place where individuals or groups can reside in safety and comfort it is argued as a place in which the individual exercises control or power However there are many occasions when forces act upon the home and threaten aspects of safety and comfort often through such things as ruination violence mortality and infestation Organised around four thematic sections Microbes Animals and Insects Human Agents Wars and Disasters as Agents and Hauntings Eeriness and the Uncanny chapters provide a range of approaches to the home which challenge notions of haven and reflect major causes that have played an important role in undermining the modern home Examples and case studies explore the domestic screen hoarding hauntings violence and imprisonment in the home wartime interior art the Hanover Merzbau and Wolfgang Staudte s 1946 film *Die Mörder sind unter uns* The Murderers are Among Us

Kurt Schwitters Megan R. Luke, 2014-02-14 German artist Kurt Schwitters 1887 1948 is best known for his pioneering work in fusing collage and abstraction the two most transformative innovations of twentieth century art Considered the father of installation art Schwitters was also a theorist a Dadaist and a writer whose influence extends from Robert Rauschenberg and Eva Hesse to Thomas Hirschhorn But while his early experiments in collage and installation from the interwar period have garnered much critical acclaim his later work has generally been ignored In the first book to fill this gap Megan R Luke tells the fascinating even moving story of the work produced by the aging isolated artist under the Nazi regime and during his years in exile Combining new biographical material with archival research Luke surveys Schwitters s experiments in shaping space and the development of his Merzbau describing his haphazard studios in Scandinavia and the United Kingdom and the smaller quieter pieces he created there She makes a case for the enormous relevance of Schwitters s aesthetic concerns to contemporary artists arguing that his later work provides a guide to new narratives about modernism in the visual arts These pieces she shows were born of artistic exchange and shaped by his rootless life after exile and they offer a new way of thinking about the history of art that privileges itinerancy over identity and the critical power of humorous inversion over unambiguous communication Packed with images Kurt Schwitters completes the narrative of an artist who remains a considerable force today

Nothing but the Clouds Unchanged Gordon Hughes, Philipp Blom, 2014-11-25 Much of how World War I is understood today is rooted in the artistic depictions of the brutal violence and considerable destruction that marked the conflict *Nothing but the Clouds Unchanged* examines how the physical and psychological devastation of the war altered the course of twentieth century artistic Modernism Following the lives and works of fourteen artists before during and after the war this book demonstrates how the conflict and the resulting trauma actively shaped artistic production Featured artists include Georges Braque Carlo Carr Otto Dix Max Ernst George Grosz

Ernst Ludwig Kirchner Oskar Kokoschka K the Kollwitz Fernand L ger Wyndham Lewis Andr Masson L szl Moholy Nagy Paul Nash and Oskar Schlemmer Materials from the Getty Research Institute s special collections including letters popular journals posters sketches propaganda books and photographs situate the works of the artists within the historical context both personal and cultural in which they were created The volume accompanies a related exhibition on view at the Getty Research Institute Gallery from November 25 2014 to April 19 2015 **The Frame and the Mirror** Thomas P.

Brockelman,2001 If the postmodern is a collage as some critics have suggested or if collage is itself a kernel of the postmodern what does this mean for our way of understanding the world The Frame and the Mirror uses this question to probe the distinctive character of the postmodern situation and the philosophical problem of representation Brockelman s work is itself a collage of sorts using juxtapositions of critics and art historical figures to conduct a debate between such figures as Karsten Harries Gianni Vattimo Rosalind Krauss Immanuel Kant Jean Francois Lyotard Slavo Zizek and Le Corbusier about issues such as truth in art perspectivism theatricality the sublime psychoanalytic theory politics and urbanism More than an introduction to the postmodern The Frame and the Mirror advances our understanding of the contemporary world by relating its features to the peculiar characteristics of collage Ultimately Brockelman shows how collage demands that we reinterpret modernity conceiving of it as suspended between a loss of certainty and a new kind of knowledge about the human condition In doing so his work challenges many of the claims made in the name of postmodernism and offers in their place a new and ironic view of the cultural space in which contemporary and historical events occur **Bibliographic Guide to Art and Architecture** New York Public Library. Division,1982 *Nell Walden, Der Sturm, and the Collaborative Cultures of Modern Art* Jessica Sjöholm Skrubbe,2021-12-30 Based on hitherto overlooked archival material this book reveals Nell Walden s significant impact on the Sturm organisation through a feminist reading of supportive labour that highlights the centrality of collaborative work within the modern art world This book introduces Walden as an ardent collector of modern and indigenous art and critically contextualises her own art production in relation to expressionist concepts of art and to gendered ideas on abstraction and decoration Visual analyses highlight how she collaborated with professional and experimental women photographers during the Weimar era and how the circulation of these photographs served as a means to intervene in the public sphere of culture in interwar Germany Finally the book provides an analysis of Walden s continuing work for Der Sturm after her voluntary exile from Germany to Switzerland in 1933 and highlights the importance of women s supportive labour for the canonisation and institutionalisation of modern art in museums and archives The book will be of interest to scholars working in art history visual studies and gender studies Hannoversches biographisches Lexikon ,2002 Kurt Schwitters Kurt Schwitters,2004
