Rulership In France 15th 17th Centuries Variorum Collected Studies Series:

Rulership in France, 15th-17th Centuries Ralph E. Giesey, 2024-08-07 The common theme of these essays is the emergence of the modern state in late medieval and renaissance France They examine on the one hand how the image of the king was enhanced in a variety of royal ceremonials as well as in the political writings of Jean Bodin and Cardin le Bret The limits of the sovereign s authority on the other hand were forcefully enunciated in the works of Fran ois Hotman and Th odore de B ze The stability of the monarchy was maintained by the noblesse de robe a new form of hereditary nobility that virtually owned the high judicial and administrative offices they held The last two articles are devoted first to the author s view of the concept of the French king s two bodies and second to the life of his mentor Ernst H Kantorowicz who wrote the seminal work *The King s Two Bodies*

Ritual, Ceremony and the Changing Monarchy in France, 1350-1789 Lawrence M. Bryant, 2024-08-01 This collection of articles explores changes in images of the French monarchy propagated in ceremonies that townspeople and officials created for their kings Bryant looks at royal entr es as massive processional and street theaters in which members of the kingdom both discoursed with and exalted the king in a multiplicity of ritual forms symbolism and public art These ceremonies personalized the idea of the state as embodied in the king and they publicized rights and authority new historical or mythological themes innovative styles of monumental architecture and art and theories of ideal and shared government

Francis I and Sixteenth-Century France Robert J. Knecht, 2023-05-31 The reputation of Francis I king of France 1515-47 has fluctuated over the centuries Acclaimed as noble and great in the sixteenth century he came to be unfairly denigrated under the Bourbon kings and the republic But in the twentieth century research based on archival material has restored his standing as one of the most important rulers of his age The present volume brings together seventeen articles by Robert Knecht published over several decades on particular aspects of the reign with three specially translated from French into English They examine the period in more depth than was possible in the author s 1994 biography of Francis I and include studies of the Concordat of 1516 with the papacy the Field of Cloth of Gold in 1520 the lit de justice of 1527 and the visit to France of the Emperor Charles V in 1540 Other articles consider the king s attitude to the Reformation his court his relations with Paris and visits to Aquitaine his patronage of architecture as demonstrated by his building of the ch teau of Fontainebleau and his relations with his mother Louise of Savoy and sister Marguerite d Angoul me The king s love of books and the political advice he received from scholars are also considered as well as the extent of his absolutism Two articles compare the English and French Reformations and the nobilities of the two countries The volume is intended as a contribution to the celebration of the 500th anniversary of Francis I s accession

Feuding and Peace-Making in Eleventh-Century France Stephen D. White, 2024-10-28 The essays in this volume discuss feuding and peacemaking in France during a period extending from the mid 10th to the early 12th century They treat various aspects of so called dispute processing a term coined by legal anthropologists to refer to the political processes and discursive practices

through which conflict is mediated politically socially legally and culturally Each of the essays can be read both as one element in a larger critique of the theory that a feudal revolution in c 1000 initiated a century long era of feudal anarchy in France and as a study on a particular topic in medieval European legal and political history These include feuding violence the emotional dimensions of conflicts among lites the role of norms and normative argument in disputes the uses of unilateral ordeals and judicial duels in litigation and alternative strategies for terminating disputes

The Drama of Coronation

Alice Hunt,2008-09-25 The coronation was and perhaps still is one of the most important ceremonies of a monarch s reign This book examines the five coronations that took place in England between 1509 and 1559 It considers how the sacred rite and its related ceremonies and pageants responded to monarchical and religious change and charts how they were interpreted by contemporary observers Hunt challenges the popular position that has conflated royal ceremony with political propaganda and argues for a deeper understanding of the symbolic complexity of ceremony At the heart of the study is an investigation into the vexed issues of legitimacy and representation which leads Hunt to identify the emergence of an important and fruitful exchange between ceremony and drama This exchange will have significant implications for our understanding both of the period s theatre and of the cultural effects of the Protestant Reformation

Krieg und Kunst

Julia Crispin,2018-07-23 Die Zeit der englischen Besatzung Frankreichs in der letzten Phase des Hundertj hrigen Krieges wurde bisher vor allem in Bezug auf politische und milit rische Entwicklungen untersucht Hiervon weitestgehend unabh ngig wurde die Kunstproduktion der Zeit erforscht In ihrer fach bergreifend zwischen politischer Kulturgeschichte und Kunstgeschichte angelegten Studie befasst sich Julia Crispin erstmalig mit der Nutzung von Kunst zur Visualisierung politischer Anspr che durch die Repr sentanten der englischen Krone in Frankreich Sie nimmt hierzu sowohl den Bestand erhaltener Kunstwerke insbesondere illuminiertes Handschriften als auch die schriftliche berlieferung zu bildlichen Inszenierungen politischer Vorstellungen im Rahmen politischer Zeremonien und Entr es in den Blick und erschlie t eine F lle von bisher unbeachtetem Quellenmaterial Dabei fragt sie zum einen danach welche Motive und Traditionen man sich bediente und welche Botschaften man konkret zum Ausdruck brachte und zum anderen welches Publikum man jeweils erreichen wollte und tats chlich erreichte Ihre Arbeit leistet somit einen wichtigen Beitrag zur Erforschung der politischen Geschichte wie auch der Kunst und Kulturgeschichte des Sp tmittelalters

The British National Bibliography Arthur James

Wells,2006 American Book Publishing Record ,2003 Le Moyen âge Albert Marignan,Jean Georges Platon,Maurice Wilmotte,Maurice Prou,2005 Each number includes the section Livres nouveaux 1896 1904 Bibliographie paged separately 1905 Zeitschrift für historische Forschung ,2006 Revue historique de droit français et étranger ,2005

Biographisch-bibliographisches Kirchenlexikon Friedrich Wilhelm Bautz,Traugott Bautz,2009 **Liturgy and Society**

in Early Medieval Rome John F. Romano,2016-05-06 The liturgy the public worship of the Catholic Church was a crucial factor in forging the society of early medieval Rome As the Roman Empire dissolved a new world emerged as Christian

bishops stepped into the power vacuum left by the dismantling of the Empire Among these potentates none was more important than the bishop of Rome the pope The documents archaeology and architecture that issued forth from papal Rome in the seventh and eighth centuries preserve a precious glimpse into novel societal patterns The underexploited liturgical sources in particular enrich and complicate our historical understanding of this period They show how liturgy was the social glue that held together the Christian society of early medieval Rome and excluded those who did not belong to it This study places the liturgy center stage filling a gap in research on early medieval Rome and demonstrating the utility of investigating how the liturgy functioned in medieval Europe It includes a detailed analysis of the papal Mass the central act of liturgy and the most obvious example of the close interaction of liturgy social relations and power The first extant Mass liturgy the First Roman Ordo is also given a new presentation in Latin here with an English translation and commentary Other grand liturgical events such as penitential processions are also examined as well as more mundane acts of worship Far from a pious business with limited influence the liturgy established an exchange between humans and the divine that oriented Roman society to God and fostered the dominance of the clergy

The Monarchy, the Estates and the Aristocracy in Renaissance France J. Russell Major, 2024-10-28 Professor Major's aim in these articles has been to stimulate new assessments of the political constitutional and social history of France in the 15th-17th centuries The first group examines the nature of the Renaissance monarchy its strengths and its weaknesses and lack of effective controls The next group explores the issue of why the Estates General and some of the provincial estates failed to develop in France in marked contrast to the triumph of representative government in England Finally the author turns to the question of how the nobles succeeded in remaining the dominant social class On the one hand he traces the evolution of a patron-client relationship which compensated for the decay of the feudal ties of the Middle Ages on the other he challenges assumptions made of a decline in nobles' incomes and contends that so long as they held on to their lands and could escape the depredations of war for most of the period they actually benefited from a marked increase in real income

Absolutism and Society in Seventeenth-Century France William Beik, 1985 This analysis of the provincial reality of absolutism argues that the relationship between the regional aristocracy and the crown was a key factor in influencing the traditional social system of seventeenth-century France

The Ascendancy of France, 1598-1715 Henry Offley Wakeman, 2023-07-18 This book is a comprehensive history of France during the late 16th and early 17th centuries a period of great political and cultural change The book provides a detailed account of the reigns of Henry IV Louis XIII and Louis XIV as well as the intellectual and artistic movements of the time It also includes maps illustrations and biographical information about key figures of the period The book is an essential resource for anyone interested in the history of France and Europe This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as

no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant

French Society Sharon Kettering, 2017-06-28 Covering the reigns of the first three Bourbon kings this book explores the upheavals in French society between 1589 and 1715 by examining the bonds which tied classes together rank honour and reputation family household and kinship faith and the Church state and obedience to the King *Culture and society in 17th century France* David Maland, 1970

Ritual, Ceremony and the Changing Monarchy in France, 1350-1789 Lawrence M. Bryant, 2010 Each title in this series brings together a selection of articles by a leading authority on a particular subject These studies are reprinted from a vast range of learned journals conference proceedings and more They make available research that is scattered even inaccessible in all but the largest libraries Richelieu and Mazarin David Sturdy, 2003-09-24 Drawing upon recent research and past studies David J Sturdy presents a concise up to date analysis of the private and public careers of two of the most influential ministers in seventeenth century France Richelieu and Mazarin adopts a broadly chronological approach interspersed with passages at relevant points which compare and contrast the key achievements of the two Cardinals examines such central themes as the internal government of France the ministers conduct of foreign policy and the nature of elite and popular resistance to their policies explores the political ideas and strategies of Richelieu and Mazarin the relations between the ministers and the Crown and the patronage they exercised The book concludes with a comparative assessment of the significance of the two figures for the history of France
