Rules And Reason:

Rules and Reasoning Anna Fensel, Ana Ozaki, Dumitru Roman, Ahmet Soylu, 2023-10-14 This book constitutes the refereed proceedings of the 7th International Joint Conference on Rules and Reasoning RuleML RR 2023 held in Oslo Norway during September 18 20 2023 The 13 full papers and 3 short papers included in these proceedings were carefully reviewed and selected from 46 submissions They focus on all aspects of theoretical advances novel technologies innovative applications knowledge representation reasoning with rules and research development applications of rule based systems Reason, and Self-Knowledge Julia Tanney, 2013-01-08 Tanney challenges not only the cognitivist approach that has dominated philosophy and the special sciences for fifty years but metaphysical empirical approaches to the mind in general Rules Reason and Self Knowledge advocates a return to the world involving circumstance dependent normative practices where the Law, Reason, and Emotion M. N. S. Sellers, 2017-12-28 This book examines the role and rational mind has its home importance of reason and emotion in justice and the law Eight lawyers and philosophers of law consider law s basis in the universal human need for society our innate sense of justice and many other powerful inclinations and emotions including the desire for fairness and even for law itself Human beings are deeply social creatures inspired by social and other emotions which can ennoble support or undermine the law Law gains legitimacy and effectiveness when reason recognizes and embraces human emotions for the benefit of society as a whole This volume explores the power and purposes of reason and emotion in the law A History of English Law: Book IV (1485-1700). The common law and its rivals Sir William Searle Holdsworth, 1924 Comparing Religions Through Law Jacob Neusner, Tamara Sonn, 1999 Comparing Religions Through Law presents an innovative and sometimes controversial study of the comparisons and contrasts between the two religions and offers an example of how comparative studies can lead to mutual understanding Exceptions in International Law Lorand Bartels, Federica Paddeu, 2020 Exceptions to international obligations can be expressed in several ways and be of fundamental practical importance Drawing from legal philosophers and scholars of international law this volume provides theoretical frameworks to the understanding of such exceptions and applies these frameworks to specific areas of The Law Journal Reports ,1916 The Law Times Reports ,1913 international law The Enchantment Of Reason Pierre Schlag, 1998-07-22 The Enchantment of Reason is a lively critique of American legal thought and the American legal system's deification of reason In an attempt to understand the current malaise of American law and the depressed condition of American intellectual life in general Pierre Schlag diagnoses what he believes is an epidemic of pathological reliance on the principle of reason Contending that legal thinkers continually fail to recognize the aesthetic and ethical prejudices of rationalism Schlag creates a genealogy that shows how the call to reason has become a manipulative vehicle of power faith and prejudice In examining the fierce resistance to questioning reason s primacy this renowned critic and professor of American law demonstrates how those who use and study the law perpetuate their own methodological blind spots Claiming

that reason has been endowed with a virtually mystical power to organize social life Schlag unravels the seemingly rational world of judicial opinions statutes doctrines and legal principles In the process he paints a shocking and sure to be controversial picture of the chaos and indeed violence of the American legal tradition This bold commentary on the irrationality of reason in American law and legal studies will interest not only legal scholars and philosophers but also serious thinkers across a broad disciplinary spectrum Select Cases and Other Authorities on the Law of Property John The Albany Law Journal ,1873 Chipman Grav.1891 **Humanism in the contemporary era** Nathan Rotenstreich, 2020-05-18 No detailed description available for Humanism in the contemporary era Reason's Traces Matthew Kapstein, 2001-06-15 Reason's Traces addresses some of the key guestions in the study of Indian and Buddhist thought the analysis of personal identity and of ultimate reality the interpretation of Tantric texts and traditions and Tibetan approaches to the interpretation of Indian sources Drawing on a wide range of scholarship Reason's Traces reflects current work in philosophical analysis and hermeneutics inviting readers to explore in a Buddhist context the relationship between philosophy and traditions of spiritual exercise *Malum* Ingolf U. Dalferth, 2022-05-31 The incursion of evil has always caused people to turn to the divine to gods or to a god in order to reorientate their life Ingolf U Dalferth studies the complexity of this procedure in three thought processes that deal with the central concepts in the Christian understanding of malum as privation a lack of good as evil doing and as a lack of faith In doing so he provides a detailed discussion of theories of the odicy the argument from freedom and the religious turn to God in which the author explores the traces of the discovery of God's goodness justness and love in connection with the malum experiences in ancient mythology and biblical traditions

The Great Art of Government Peter Josephson, 2002 Moving beyond previous scholarship he gives us a Locke as much concerned with the effective functioning of government as with the roots of its moral legitimacy BOOK JACKET De Iure Naturae Et Gentium Dissertationes Samuel Rachel. 1916 The Weekly Law Bulletin and Ohio Law Journal .1896 The Law of Evidence Applicable to British India India, Syed Ameer Ali, Sir John George Woodroffe, 1907 Metaphysics Charles Larmore, 2021-06-17 In this book Charles Larmore develops an account of morality freedom and reason that rejects the naturalistic metaphysics shaping much of modern thought Reason Larmore argues is responsiveness to reasons and reasons themselves are essentially normative in character consisting in the way that physical and psychological facts facts about the world of nature count in favor of possibilities of thought and action that we can take up Moral judgments are true or false in virtue of the moral reasons there are We need therefore a more comprehensive metaphysics that recognizes a normative dimension to reality as well Though taking its point of departure in the analysis of moral judgment this book branches widely into related topics such as freedom and the causal order of the world textual interpretation the nature of the self self knowledge and the concept of duties to ourselves **Bentham and the Common** Law Tradition Gerald J. Postema, 2019 Pr sentation de l diteur This second edition of a classic in Anglo American legal

philosophy reopens the dialogue between Bentham's work and contemporary legal philosophy Gerald J Postema revisits the themes of the first edition in light of the latest scholarly criticism and provides new insights into the historical philosophical roots of international law
