Rules Of Sociological Method And Selected Texts On Sociology And Its Method:

Rules of Sociological Method Emile Durkheim, 1982-12 First published in 1895 Emile Durkheim's masterful work on the nature and scope of sociology now with a new introduction and improved translation by leading scholar Steven Lukes The Rules of the Sociological Method is among the most important contributions to the field of sociology still debated among scholars today Through letters arguments and commentaries on significant debates Durkheim confronted critics clarified his own position and defended the objective scientific method he applied to his study of humans This updated edition offers an introduction and extra notes as well as a new translation to improve the clarity and accessibility of this essential work In the introduction Steven Lukes author of the definitive biography Emile Durkheim His Life and Work spells out Durkheim's intentions shows the limits of Durkheim's view of sociology and presents its political background and significance Making use of the various texts in this volume and Durkheim's later work Lukes discusses how Durkheim's methodology was modified or disregarded in practice and how it is still relevant today With substantial notes on context this user friendly edition will greatly ease the task of students and scholars working with Durkheim's method a view that has been a focal point of sociology since its original publication The Rules of the Sociological Method will engage a new generation of readers with Durkheim's rich contribution to the field

The Rules of Sociological Method Emile Durkheim, 2014-02-25 First published in 1895 this book represents Emile Durkheim's manifesto for sociology He argues for the objective scientific and methodological underpinnings of sociology as a discipline and establishes guiding principles for future research Amazon.com

[The Rules of Sociological Method, and Selected Texts on Sociology and Its Method](#) Émile Durkheim, 1982 [The Rules of Sociological Method and Selected Texts on Sociology and Its Method. Edited with an Introduction by Steven Lukes](#) Emile Durkheim, 1982

Society and Its Metaphors Jose Lopez, 2003-02-01 Both classical and contemporary social theorists have created a range of frameworks to formulate and develop concepts of social structure Focusing on the work of the key theorists Emile Durkheim Karl Marx Max Weber Talcott Parsons and Louis Althusser Society and its Metaphors maps the linguistic basis of different theories of social structure

The Promise of Sociology Rob Beamish, 2016-01-01 The second edition of this award winning introduction to sociology has been substantially revised throughout including improved connections between the discussion of millennials and Mills's concept of the sociological imagination

Philosophy of the Social Sciences Patrick Baert, 2016-01-08 In this ground breaking new text Patrick Baert analyses the central perspectives in the philosophy of social science critically investigating the work of Durkheim Weber Popper critical realism critical theory and Rorty's neo pragmatism Places key writers in their social and political contexts helping to make their ideas meaningful to students Shows how these authors views have practical uses in empirical research Lively approach that makes complex ideas understandable to upper level students as well as having scholarly appeal

Methodology in Sports History Wray Vamplew, Dave Day, 2018-12-07 The process of converting the past into history involves engagement with a multitude of

different sources and methods and sports historians inevitably participate in the same debates over approaches and methodologies as their counterparts in other historical disciplines At its heart history remains a genre of empirical knowledge that is based upon the remains of the past and without suitable evidence there can be no sports history A burgeoning range of sources has stimulated new ways of thinking and a significant expansion in the sports historian's evidentiary base as textual sources have been supplemented by photos films and cartoons uniforms architecture maps and landscapes and material culture more generally This book deals with some of these innovations It is divided into two sections the first offering chapter length studies of particular methodologies and the second brief responses from experts in their fields to the question what can sports historians learn from other disciplines

Individual and Society: Understanding the Sociology of Émile Durkheim N. Jayaram, 2024-12-10 This comprehensive volume explores the foundational contributions of the eminent French sociologist Emile Durkheim It delves into his writings in political sociology and the sociology of education It discusses the seminal contributions of Emile Durkheim to the development of sociology as a positivist social science It offers an in depth analysis of Durkheim's methodological rules for studying social facts exploring critical topics like the division of labor education political society state religion secular morality socialism and suicide Chapter by chapter the book unfolds Durkheim's life and milieu providing insights into the background and context that fueled his conceptualization of sociology and the creation of his seminal works From portraying sociology as an empirical science of human society to dissecting the moral basis of social order and delving into the pathology of suicides it navigates Durkheim's multifaceted contributions The book explores Durkheim's groundbreaking analyses of the interplay between society religion politics and education It highlights his pioneering contributions to the subdisciplines of the sociology of religion political sociology and the sociology of education It underscores the contemporary relevance of Durkheim's sociological legacy This book is highly relevant for postgraduate students and researchers in sociology social anthropology and social sciences in understanding Emile Durkheim's work in sociology

Virtue in Political Life Lafon, Patrick, 2017-09-26 Yves R Simon 1903-1961 one of the greatest contemporary philosophers gives a modern formulation for many classical philosophical concepts such as authority the common good and natural law These topics have received extensive attention from scholars Simon also discusses the nature of human virtue moral and intellectual but this topic has been less studied until now The idea of virtue and in our case virtue in political life runs through Simon's works Through a close study of Simon's works and the relevant secondary literature this book explores Simon's definition of virtue in order to highlight its originality and show how he weaves the need for it into the fabric of three facets of political life namely the common good the virtue of the ruler and the ruled and the law These ideas are important for the ruler ship of any country and especially of developing nations which are populated by sit tight dictators Philosophy can be dry and abstract yet in this case we deal with one of its more practical manifestations

Core Sociological Dichotomies Chris Jenks, 1998-07-08 In

this sociology text the contributors provide an introduction to the subject without over simplifying or writing down to their audience The book aims to furnish undergraduates with the knowledge that will help them to understand and practice sociology and also to develop a self-perpetuating sociological imagination to enable them to think through new issues and new problems It consists of a series of specially commissioned chapters around binary or dichotomous themes Although many sociologists are critical of dichotomous models of sociological theory and research the device crops up again and again in the history and practice of the subject Jenks and his colleagues use the dichotomies to situate students in current sociological arguments and topical debates For example by examining contradictory pairs of concepts like structure agency local global continuity change students are introduced to alternative explanations for aspects of human conduct over a whole series of issues

Sociological Theory Beyond the Canon Syed Farid Alatas, Vineeta Sinha, 2017-05-27 This book expands the sociological canon by introducing non Western and female voices and subjects the existing canon itself to critique Including chapters on both the founding fathers of sociology and neglected thinkers it highlights the biases of Eurocentrism and androcentrism while also offering much needed correctives to them The authors challenge a dominant account of the development of sociological theory which would have us believe that it was only Western European and later North American white males in the nineteenth and early twentieth century who thought in a creative and systematic manner about the origins and nature of the emerging modernity of their time This integrated and contextualised account seeks to restructure the ways in which we theorise the emergence of the classical sociological canon This book's global scope fills a significant lacuna and provides a unique teaching resource to students of classical sociological theory

The Reading of Theoretical Texts

Peter Ekegren, 2002-01-04 Since the structuralist debates of the 1970s the field of textual analysis has largely remained the preserve of literary theorists Social scientists while accepting that observation is theory laden have tended to take the meaning of texts as given and to explain differences of interpretation either in terms of ignorance or bias In this important contribution to methodological debate Peter Ekegren uses developments within literary criticism philosophy and critical theory to reclaim this study for the social sciences and to illuminate the ways in which different readings of a single text are created and defended

Emile Durkheim W. S. F. Pickering, 2001 A five volume collection of scholarly journal articles and chapters from books covering the subject of Emile Durkheim's work The five volumes are thematically organized in the following sections Volume I 1 Durkheim The man himself 2 General sociology Volume II 3 Religion 4 Epistemology and the philosophy of science Volume III 5 Morality and ethics 6 Political sociology Volume IV 7 Suicide and anomie 8 Division of labour and economics 9 Education

Ubuntu Philosophy for the New Normalcy Jahid Siraz Chowdhury, Haris Abd Wahab, Mohd Rashid Mohd Saad, Golam M. Mathbor, Mashitah Hamidi, 2023-01-01 The book is about Ubuntu loosely translated I am because we are or our common humanity in Zulu about Unity and global solidarity It proves again how alike and universal we are as societies across the globe despite this deadly pandemic On a personal and social basis each of the six

chapters is a call to action to find commonality and this is the third book of Jahid's amelioration on Covid 19 Trilogy And the Appendix is something special for the readership Ubuntu tells us about the Indigenous healing keys empathy compromise learning non violence change forgiveness restorative justice love spirituality and hope The book was written by a highly diverse team of contributors both from the Global South and North and is multidisciplinary in nature and attempting of Commoning the Communities The authors hail from the fields of social work anthropology and education and have been working with local communities in the ongoing struggle to identify and address complicit oppression and inequalities Offering a beacon of hope for today and tomorrow the book will appeal to social science researchers policy planners and the general public alike Social Research and Disability Ciaran Burke, Bronagh Byrne, 2020-12-29 Social Research and Disability argues that the contemporary rules of sociological methods outlined in numerous research methods texts make a number of assumptions concerning the researcher including ambivalence sight hearing and speech In short the disabled researcher is not considered when outlining the requirements of particular methods Drawing upon these considerations the volume emphasizes how disabled researchers negotiate the empirical process in light of disability whilst retaining the scientific rigour of the method It also considers the negative consequences arising from disabled researchers' attempts at passing and the benefits that can emerge from a reflexive approach to method This innovative and original text will for the first time bring together research active academics who identify as being disabled to consider experiences of being disabled within a largely ableist academy as well as strategies employed and issues faced when conducting empirical research The driving force of this volume is to provide the blueprints for bringing how we conduct social research to the same standards and vision as how the social world is understood multi faceted and intersectional To this end this edited collection advocates for a sociological future that values the presence of disabled researchers and normalises research methods that are inclusive and accessible The interdisciplinary focus of Social Research and Disability offers a uniquely broad primary market This volume will be of interest not only to the student market but also to established academics within the social sciences

Carnal Spirit Matthew W. Maguire, 2019-07-19 It is rare for a thinker of Charles P. Guy's considerable stature and influence to be so neglected in Anglophone scholarship The neglect may be in part because so much about P. Guy is contestable and paradoxical He strongly opposed the modern historicist drive to reduce writers to their times yet he was very much a product of philosophical currents swirling through French intellectual life at the turn of the twentieth century He was a passionate Dreyfusard who converted to Catholicism but was a consistent anticlerical He was a socialist and an anti Marxist and at once a poet journalist and philosopher P. Guy 1873-1914 rose from a modest childhood in provincial France to a position of remarkable prominence in European intellectual life Before his death in battle in World War I he founded his own journal in order to publish what he thought most honestly and urgently needed to be said about politics history philosophy literature art and religion His writing and life were animated by such questions as Is it possible to affirm universal

human rights and individual freedom and find meaning in a national identity How should different philosophies and religions relate to one another What does it mean to be modern A voice like P guy s according to Matthew Maguire reveals the power of the individual to work creatively with the diverse possibilities of a given historical moment Carnal Spirit expertly delineates the historical origins of P guy s thinking its unique trajectory and its unusual position in his own time and shows the ways in which P guy anticipated the divisions that continue to trouble us

The Blackwell Companion to Major Classical Social Theorists George Ritzer,2008-04-15 The Blackwell Companion to Major Classical Social Theorists provides a comprehensive review of classical social theory Containing original essays especially commissioned for this volume leading experts and practitioners examine the life and work of 12 major theorists Includes 12 original essays by leading scholars on major classical social theorists Covers the key figures who shaped social theory such as Marx Weber and Durkheim as well as additional classical theorists such as Harriet Martineau and W E B Du Bois Essays include biographical sketches the social and intellectual context and the impact of the thinker s work on social theory generally Includes bibliographies of the theorist s most important works as well as key secondary works Can be used in conjunction with The Blackwell Companion to Major Contemporary Social Theorists edited by George Ritzer for a complete reference source in social theory

Religion, Realism and Social Theory Philip A Mellor,2004-10-18 This book challenges those contemporary sociologists who argue that the notion of society is an outmoded basis for sociological analysis and instead revitalizes the idea that sociology is truly the study of society Mellor returns the human and religious aspects of social life to the centre of social theory

The Wisdom of the Liminal Celia Deane-Drummond,2014-09-09 A sophisticated theological anthropology that takes into account evolutionary theories and our relationships to other animals In this book Celia Deane Drummond charts a new direction for theological anthropology in light of what is now known about the evolutionary trajectories of humans and other animals She presents a case for human beings becoming fully themselves through their encounter with God after the pattern of Christ but also through their relationships with each other and with other animals Drawing on classical sources particularly the work of Thomas Aquinas Deane Drummond explores various facets of humans and other animals in terms of reason freedom language and community In probing and questioning how human distinctiveness has been defined using philosophical tools she engages with a range of scientific disciplines including evolutionary biology biological anthropology animal behavior ethology and cognitive psychology The result is a novel deeply nuanced interpretation of what it means to be distinctively human in the image of God
