

THE FIVE RULES OF RECOVERY

1 CHANGE YOUR LIFE

You can only recover by creating a new life that makes it easier to avoid using your substance of choice.

2 BE COMPLETELY HONEST

In recovery, it is critical to be real with yourself and carefully monitor your behavior.

3 ASK FOR HELP

It is common for people to start the recovery process by themselves, hoping to prove that they have complete control over cravings. Unfortunately, this usually proves unsuccessful and only further proves how isolating SUD can be.

4 PRACTICE SELF-CARE

Self-care is important to a happy and healthy life, so those on the road to recovery must discover effective and healthy self-care alternatives.

5 DON'T BEND THE RULES

If you half-heartedly participate in your recovery plan, you allow opportunities for self-sabotage.

The authors present a boldly comprehensive brilliant new theory to explain the comparative underdevelopment of the U.S. welfare state among advanced industrial nations. Their conceptual framework promises to shape the debate within current and future administrations as they attempt to rethink the welfare system and its role in American society. Uncompromising and provocative. By mixing history, political interpretation, and sociological analysis, Piven and Cloward provide the best explanation to date of our present situation. No future discussion of welfare can afford to ignore them. Peter Steinfels, The New York Times Book Review
