## **Ruling Your World Ancient Strategies For Modern Life:**

**Ruling Your World** Sakyong Mipham, 2005-10-25 You're stuck in the airport security line late for a flight. The line isn't moving. You're angry at the security personnel for taking so long, you're irritated at the other passengers for having so much stuff, you're mad at your boss for sending you on this trip in the first place. By the time you get to your gate, you're angry, deflated, and exhausted. Then someone cuts in front of you in the line to board, and you snap. There's a line you know. Is that really you standing in an airport yelling at a stranger, emotions raging? It happens to most of us more than we'd like to admit. In an instant, our lives seem out of control and overwhelming. It's always something, isn't it? But what if you could approach every part of your life from the smallest decisions to life's biggest setbacks with total confidence, clarity, and control? According to Sakyong Mipham, we all have that power. The secret is simple. If you just stop thinking about yourself all the time, happiness and confidence will come naturally. It sounds absurd, and what's more, impossible. But in *Ruling Your World*, Sakyong Mipham shares ancient secrets on how to take control of our lives and be successful while cultivating compassion for others and confidence in our own intelligence and goodness. The key to this well-being lies in the ancient strategies of the warrior kings and queens of Shambhala. The kingdom of Shambhala was an enlightened kingdom of benevolent kings and queens and fiercely trained warriors. No one knows for sure whether this kingdom was real or mythical, but there are ancient guidebooks to this land and practical instructions for creating a Shambhala in your own world, bringing peace, purpose, and perspective into your life and environment. Sakyong Mipham, the descendant of a warrior king, has inherited these teachings and gives us the lessons and myths of the great rulers and warriors of Shambhala. He makes these teachings relevant to our twenty-first-century lives in a fresh and witty voice and helps us all to realize our potential for power and control in a seemingly uncontrollable world. For the first time ever, revered spiritual leader Sakyong Mipham brings the lessons of the ancient Shambhala warriors and rulers to the Western world and shows us how to live our lives with confidence. Most of us are living in a haze, sometimes helping others, sometimes helping ourselves, sometimes happy, sometimes sad. We don't feel in control of our own lives. The ancient teachings of Shambhala rulership show us that we all have the ability to rule our own world and live with confidence. To do this, we need to use our daily lives to be strong, as opposed to aggressive, and to act with wisdom and compassion. This may sound difficult, but when we begin to mix this ancient wisdom of rulership into our everyday life, we have both spiritual and worldly success. We don't need to abandon our life and become an ascetic or a monk in order to gain confidence and achieve this success. We can live in the world as a ruler, no matter what we are doing. **The Spiritual Power of Nonviolence** George W. Wolfe, 2010-09-29 Religion and violence—the two concepts seem incompatible, given the emphasis in religion on virtue, love, forgiveness, and compassion. Yet many scriptures contain martial images and stories of God-inspired military conquest. The Spiritual Power of Nonviolence confronts this theological contradiction, arguing that martial images and symbols found in religious texts are often meant to be interpreted as metaphors for an inner spiritual struggle and should never be used as a justification for war. The analysis is undertaken from an interfaith perspective that explains many of the paradoxical concepts found in theories of nonviolence. Professor Wolfe also presents a compelling case for the sustainability paradigm and for offering peace education.

and interreligious dialogue on a global scale He probes the scriptures of the world proving that nonviolence is a shared virtue and that the real enemy we must battle against and ultimately defeat is actually within us An excellent introduction to spiritually based principled nonviolence Professor Wolfes blend of different wisdom traditions is especially useful Dr Michael Nagler Professor Emeritus University of California at Berkeley George Wolfe has put the blame for proliferating violence in the world where it belongs on the crass interpretation of religion A thought provoking book Arun Gandhi President Gandhi Institute for Nonviolence Truly an enlightening book Judy O'Bannon Former First Lady of Indiana

**Towards Professional Wisdom** Cecelia Clegg, 2016-02-24 People professions such as social work teaching nursing ministry and counselling are at heart ethical or moral enterprises Much recent theorizing has been concerned to show that effective professional deliberation and judgement cannot be reduced either to technical rationality or to simple obedience to general occupational procedures or prescriptions

Professional judgement would seem to require the development of a distinctive mode of practical ethical reflection or wisdom perhaps along the lines of Aristotle's phronesis or practical wisdom. Reflection is required to address such key professional concerns as: What is the impact of official prescription and regulation on professional judgement? How should conflicts of professional judgement and public political accountability be resolved? How might one reconcile tensions between universal justice and equality and particular client need? What is the role of emotion and or affect in people professional practice? This ground breaking work addresses in a thoroughly multidisciplinary way the central question of the nature of professional judgement and deliberation that has recently come to the fore in the academic literature of profession and professionalism. It proposes a marked shift in theory practice and policy making away from technical rational approaches to professional decision making in favour of reflection and deliberation informed by responsible moral judgement. This reflects a significant progressive trend in this literature by taking practical wisdom rather than technical rationality to lie at the heart of professional judgement. It is unique in bringing together key authors from different professional fields to address the issue of professional wisdom in a cross professional and multidisciplinary way.
