**I Am Wind, You are Fire** Annemarie Schimmel,1992 See **Rumi's World** Annemarie Schimmel,2001-05-22 This book previously published as I Am Wind You Are Fire celebrates the extraordinary career of Persia s great mystical poet Rumi 1207 1273 through the story of his life along with an enlightening examination of his ecstatic verse Rumi lived the quiet life of a religious teacher in Anatolia until the age of thirty seven when he came under the influence of a whirling dervish Shams Tabriz and was moved to a state of mystical ecstasy One of the results of this ecstasy was a prodigious output of poems about the search for the lost Divine Beloved whom Rumi identified with Shams To symbolize this search Rumi also invented the famous whirling dance of the Melevi dervishes which are performed accompanied by the chanting of Rumi s poems Professor Schimmel illuminates the symbolism and significance of Rumi s vast output and offers her own translations of some of his most famous poems **Rumi's world** Annemarie Schimmel,2003 800th birth anniversary of Rumi 2007 A D **Rumi** Annemarie Schimmel,2015-02-19 Jalaluddin Rumi 1207 1273 can only be described through superlatives For Rumi is the best known and arguably the greatest exponent of the mystical tradition in Islam The Masnavi Rumi s longest and most fully realised poetic work remains in the eastern lands of Islam the most extensively read and revered text after the Qur an Perhaps more surprisingly at least to those still unfamiliar with his writings Rumi is also often cited as the most widely read poet today in the United States The richness of his language and his penetrating spiritual insights about the divine mean that Rumi has an enduring capacity to transport readers from within any culture Islamic or otherwise Annemarie Schimmel was for many years one of Rumi s most sensitive western interpreters Her masterfully concise and readable book now published for the first time in English discusses the religious and cultural background of Rumi s Sufism and the dominant strands of his imagery Schimmel shows how Rumi s work while timeless and with enduring cross cultural appeal must finally be understood as part of a wider Islamic mystical tradition albeit an expression of that tradition which remains unsurpassed for its beauty and profundity The Sufi Doctrine of Rumi William C. Chittick,2005-06-16 There are almost no authoratative books readily available for the general reader that provide in clear and accessible language an introduction to the spiritual perspective illuminating Rumi s magical poetry In this beautifully illustrated work William C Chittick a leading scholar of Sufism and Rumi opens doors that give us access to the inner sanctum of Rummi s thought **Design Realities** Stuart Walker,2018-10-16 Design Realities explores a wide range of topics on creativity design and spiritual well being Using critique rational inquiry and personal reflection Stuart Walker looks squarely at our contemporary condition demonstrates how current assumptions and material expectations are becoming untenable and most importantly offers constructive new directions that are feasible spiritually enriching and hopeful Comprising short essays lyrical pieces photo studies and longer discourses this book takes us on a highly readable and enjoyable journey through some of the most pressing issues of our time The innovative intuitive format makes these topics readily accessible while providing much food for thought about the

changing nature of creativity in today's world Written by a leading thinker in the field this highly original book offers readers something to ponder discuss contest and build upon **Writing in Red** Nergis Ertürk, 2024-05-21 The republic of Turkey and the Soviet Union both emerged from the wreckage of empires surrounding World War I and pathways of literary exchange soon opened between the two revolutionary states Even as the Turkish government pursued a friendly relationship with the USSR it began to persecute communist writers Whether going through official channels or fleeing repression many Turkish writers traveled to the Soviet Union during the 1920s and 1930s publishing original work editing prominent literary journals and translating both Russian classics and Soviet literature into Turkish Writing in Red traces the literary and exilic itineraries of Turkish communist and former communist writers examining revolutionary aesthetics and politics across Turkey and the Soviet Union from the mid 1920s through the 1960s Nergis Ertürk considers a wide range of texts spanning genres such as erotic comedy historical fiction and film and socialist realist novels and theater by writers including Nâzım Hikmet Vâflı Nureddin Nizamettin Nazif Suat Dervi and Abidin Dino She argues that these works belong simultaneously to modern Turkish literature a transnational Soviet republic of letters and the global literary archive of world revolution alongside those of other writers who made the magic pilgrimage to Moscow Exploring how Turkish communist writers on the run produced a remarkable transnational literature of dissent Writing in Red offers a new account of global revolutionary literary culture The Common Ground Shiv Talwar, 2019-10-01 People today have a fragmented view of the world seeing its diversity but not the unity that underlies it This fragmentation writes Shiv D Talwar is at the root of ethnic conflict environmental degradation and other problems To address it he proposes a radical new form of education directed towards unity in diversity To get there he draws both on ancient spiritual wisdom including the Vedas and Upanishads from India the creation story in the biblical book of Genesis the ninety nine names of God in Islam Jewish mysticism and the writings of Lao Tzu and modern physical and biological science Religions are many but their wisdom is one and that wisdom converges with the findings of science as well Beyond natural science and social science there is also a spiritual science which Dr Talwar outlines in this book Through spiritual science humanity can develop its consciousness of infinite and infinitesimal ultimate reality A second volume will address spiritual technology the application of spiritual science to individual health and harmony

Genghis Khan and the Quest for God Jack Weatherford, 2017-10-03 A landmark biography by the New York Times bestselling author of Genghis Khan and the Making of the Modern World that reveals how Genghis harnessed the power of religion to rule the largest empire the world has ever known Throughout history the world's greatest conquerors have made their mark not just on the battlefield but in the societies they have transformed Genghis Khan conquered by arms and bravery but he ruled by commerce and religion He created the world's greatest trading network and drastically lowered taxes for merchants but he knew that if his empire was going to last he would need something stronger and more binding than trade He needed religion And so unlike the Christian Taoist and Muslim conquerors who came before him he gave his

subjects freedom of religion Genghis lived in the 13th century but he struggled with many of the same problems we face today How should one balance religious freedom with the need to reign in fanatics Can one compel rival religions driven by deep seated hatred to live together in peace A celebrated anthropologist whose bestselling *Genghis Khan and the Making of the Modern World* radically transformed our understanding of the Mongols and their legacy Jack Weatherford has spent eighteen years exploring areas of Mongolia closed until the fall of the Soviet Union and researching *The Secret History of the Mongols* an astonishing document written in code that was only recently discovered He pored through archives and found groundbreaking evidence of Genghis s influence on the founding fathers and his essential impact on Thomas Jefferson *Genghis Khan and the Quest for God* is a masterpiece of erudition and insight his most personal and resonant work [The Buddhist I Ching](#) Chih-hsu Ou-i,2001-06-12 For centuries the I Ching has been used as a basic map of conscious development containing the underlying principles of all religions and highly prized by followers of Buddhism Chih hsu Ou i uses the concepts of Tianti Buddhism to elucidate the I Ching concentration and insight calmness and wisdom and various levels of realization Skillfully translated by Thomas Cleary this work presents the complete text of the I Ching plus the only Buddhist interpretation of the oracle *Abu Al-Ḥasan Al-Shushtarī* ‘Alī ibn ‘Abd Allāh Shushtarī,2009 Mystic and poet Ab al Hasan al Shushtar 1212 1269 remains a towering figure in North African Sufism His verses are still well loved and often recited and his songs are arguably the most vibrant element of Islamic Spain s cultural legacy He is crucial to an understanding of the history of mysticism in Islamic Spain and North Africa Yet he is overlooked by Western scholars and few of his poems have been translated This book seeks to correct this deficit by 1 setting Shushtar and his work in the political and intellectual contexts of his time 2 introducing his thought to an English speaking audience through a presentation of his poetry Each of the chapters that presents the poetry starts with a thematic introduction that explores the symbolic poetic and doctrinal import of the material that follows Sensuous and spiritual erotic and ethereal this selection of works will delight everyone whether or not they are devotees of Islamic literature *Ecotheology and Love* Bahar Davary,2022-06-01 In *Ecotheology and Love* The Converging Poetics of Sohrab Sepehri and James Baldwin Bahar Davary points to the interrelation of religion poetry and ecology from a comparative perspective with an emphasis on decoloniality This work shows how authors Sohrab Seperhi and James Baldwin sought social justice by building their work on love and an authentic way of knowing the world based on an interconnected knowledge of the self The layers of depth in Sepehri and Baldwin s works and their immediacy for our time has yet to be fully understood but through *Ecotheology and Love* Davary takes a significant step towards achieving such a fuller understanding **Hospitality and Islam** Mona Siddiqui,2015-10-15 Considering its prominent role in many faith traditions surprisingly little has been written about hospitality within the context of religion particularly Islam In her new book Mona Siddiqui a well known media commentator makes the first major contribution to the understanding of hospitality both within Islam and beyond She explores and compares teachings within the various Muslim traditions over the

centuries while also drawing on materials as diverse as Islamic belles lettres Christian reflections on almsgiving and charity and Islamic and Western feminist writings on gender issues Applying a more theological approach to the idea of mercy as a fundamental basis for human relationships this book will appeal to a wide audience particularly readers interested in Islam ethics and religious studies Toward a True Kinship of Faiths Dalai Lama, 2011-09-06 A must read The Huffington Post May the effort of this book be of benefit to the emergence of a genuine understanding between the world's great religions and may it foster in us deep reverence toward each other The Dalai Lama In perhaps his most important book the Dalai Lama shares his hopeful yet realistic views on how humanity must step into the future In our daily lives today no one is untouched by what happens in the rest of the world New technology environmental problems economic gain and loss nuclear weapons and instant communication have all created unprecedented familiarity among the world's many cultures With this historic development the Dalai Lama understands that the essential task of humanity in the twenty first century is to cultivate peaceful coexistence Many believe in the inevitability of an escalating clash of civilizations Peaceful coexistence has long been problematic between religions and while previous conflicts over religious differences may have been significant and regrettable they did not threaten the very survival of humanity Now when extremists can persuade followers with the immense emotional power of faith and have access to powerful technological resources a single spark could ignite a powder keg of frightening proportions Yet the Dalai Lama shows how the challenges of globalization can also move us in another direction to a deeper plane where nations cultures and individuals connect through their shared human nature All major religions confront the same perennial questions each have distinct forms of expression But this marvelous diversity of insight has the potential for inspiring dialogue which can enrich everyone's pursuit of wisdom In Toward a True Kinship of Faiths the Dalai Lama also explores where differences between religions can be genuinely appreciated instead of becoming sources of conflict Creating genuine harmony does not depend on accepting that all religions are fundamentally the same or that they lead to the same place Many fear that recognizing the value of another faith is incompatible with having devotion to the truth of one's own Nevertheless the Dalai Lama shows how a sincere believer can with integrity be a pluralist in relation to other religions without compromising commitment to the essence of the doctrinal teachings of their own faith An issue of central importance for the Dalai Lama personally and for the entire world in general Toward a True Kinship of Faiths offers a hopeful yet realistic look at how humanity must step into the future **Meaning, Madness and Political Subjectivity** Sadeq Rahimi, 2015-02-20 This book explores the relationship between subjective experience and the cultural political and historical paradigms in which the individual is embedded Providing a deep analysis of three compelling case studies of schizophrenia in Turkey the book considers the ways in which private experience is shaped by collective structures offering insights into issues surrounding religion national and ethnic identity and tensions modernity and tradition madness gender and individuality Chapters draw from cultural psychiatry medical anthropology and political theory to produce a model for

understanding the inseparability of private experience and collective processes The book offers those studying political theory a way for conceptualizing the subjective within the political it offers mental health clinicians and researchers a model for including political and historical realities in their psychological assessments and treatments and it provides anthropologists with a model for theorizing culture in which psychological experience and political facts become understandable and explainable in terms of rather than despite each other Meaning Madness and Political Subjectivity provides an original interpretative methodology for analysing culture and psychosis offering compelling evidence that not only normal human experiences but also extremely abnormal experiences such as psychosis are anchored in and shaped by local cultural and political realities

*Mother Persia* Zhinia Noorian, Brian Griffith, 2024-08-13 This book tells the story of Iranian women's accomplishments and struggles over the course of history spanning from ancient Elam to the present day It explores the evolving conditions of women's lives in each era and how women's choices and initiatives have shaped Persian civilization In the process it presents a cast of unique often brilliant individuals and refutes the traditional assumption that men were always the authors of Iranian culture business law religion art education literature agriculture science architecture philosophy social mores and the writing of history It shows how Iranian women have always been creative influential players in these fields and how their contributions have enriched the world

**Shari`a in the Secular State** Russell Powell, 2016-06-10 Words in both law and religion can shape power relationships and are often highly disputed Shari'a lies within the overlap of these two spheres and provides a unique subject for the study of meaning in that liminal space This book contributes important insights related to Islamic jurisprudence and secularism in the Turkish context and regarding the role of language in contested legal and religious contexts The study begins by providing a historical framework for the ideas and terms covered including concepts of religion in general Shari'a in particular and secularism in the Turkish state It goes on to examine empirical research to describe and analyze contemporary Turkish understandings of religion and Shari'a The author's research indicates that there is often a disconnect between supporting the adoption of Shari'a and supporting the regulation of everyday behavior through civil codes Thus Shari'a seems to have taken on new meanings as groups have sought either to appropriate or criticize it It is a quintessential example of fractured and contextual meaning at the center of both religious and legal traditions This book is essential reading for both academics and those interested in law linguistics history political science anthropology sociology religious studies or Near Eastern studies
