Running Away To School:

Runaway Adolescents Brenda K. Melson,1995 **Runaway Youth** Deborah Klein Walker,1975 Runaway Kids and Teenage Prostitution R. Barri Flowers,2001-06-30 This concise and accessible new text examines the correlations between runaway children and teenage prostitution in the United States from a criminological sociological and psychological perspective The author takes a systematic approach to defining and describing the differences between youth who run away from home and those who leave institutional settings and distinguishes the difference between runaway and throwaway children A careful examination of teenage prostitution among girls and boys helps to illuminate the special problems faced by children who have run away In addition the author discusses laws related to runaways teenage prostitution and the sexual exploitation of minors as well as the criminal justice response to the problems Runaways and prostitution involving youth in other countries is also explored The text s findings support current conclusions on the characteristics of runaways the relationship between runaways and teen prostitution and the implications of running away from home *Runaway Kids and Teenage Prostitution* is divided into five parts Part I examines the scope and dynamics of running away and differentiates between runaways and throwaways Part II explores teenage prostitution and provides information on girl and boy prostitutes and the people who exploit them Child sexual abuse and child pornography as correlates to the problem are studied in Part III and Part IV reviews the law that attempts to combat teenage prostitution Part V is devoted to an examination of the scope and significance of the problem in other countries Together these chapters provide readers with a clear picture of the problem of runaways and teenage prostitution in the United States and around the world **Runaway Youth** United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate Juvenile Delinquency,1972 **Running Away from Foster Care** Michael R. Pergamit,2011-05-17 A sizable fraction of older youth in foster care run away from their placement at least once many run multiple times Estimates vary but indicate a serious problem Unlike other runaways youth who run away from foster care are generally not trying to escape from abuse or neglect although they may experience conflict with caregivers Having been separated from their families and friends youth who run away from foster care are sometimes seen as running to something rather than running away While away from their placement youth may have need of shelter medical care counseling and other services This report is based on interviews with a sample of youth who ran away from foster care placements in Chicago and L A The information they provide help us to understand better why they run away and what can be done to prevent youth from running away from foster care We also learn where these youth go when they run away This is a print on demand report **Canada's Residential Schools: The History, Part 2, 1939 to 2000** Commission de vérité et réconciliation du Canada,2016-01-01 Between 1867 and 2000 the Canadian government sent over 150 000 Aboriginal children to residential schools across the country Government officials and missionaries agreed that in order to civilize and Christianize Aboriginal children it was necessary to separate them from their parents and their home

communities For children life in these schools was lonely and alien Discipline was harsh and daily life was highly regimented Aboriginal languages and cultures were denigrated and suppressed Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self sustaining Child neglect was institutionalized and the lack of supervision created situations where students were prey to sexual and physical abusers Legal action by the schools former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008 The product of over six years of research the Commission s final report outlines the history and legacy of the schools and charts a pathway towards reconciliation Canada s Residential Schools The History Part 2 1939 to 2000 carries the story of the residential school system from the end of the Great Depression to the closing of the last remaining schools in the late 1990s It demonstrates that the underfunding and unsafe living conditions that characterized the early history of the schools continued into an era of unprecedented growth and prosperity for most Canadians A miserly funding formula meant that into the late 1950s school meals fell short of the Canada Food Rules Overcrowding poor sanitation and a failure to adhere to fire safety rules were common problems throughout this period While government officials had come to view the schools as costly and inefficient the churches were reluctant to countenance their closure It was not until the late 1960s that the federal government finally wrested control of the system away from the churches Government plans to turn First Nations education over to the provinces met with opposition from Aboriginal organizations that were seeking Indian Control of Indian Education Following parent led occupation of a school in Alberta many of the remaining schools came under Aboriginal administration The closing of the schools coincided with a growing number of convictions of former staff members on charges of sexually abusing students These trials revealed the degree to which sexual abuse at the schools had been covered up in the past Former students who came to refer to themselves as Survivors established regional and national organizations and provided much of the leadership for the campaign that led to the federal government issuing in 2008 an apology to the former students and their families

Family-Focused Trauma Intervention Patricia Pernicano, 2010-03-18 Treatment of abuse and neglect needs to be family focused in order to reduce troubling symptoms address family risk and relapse potential treat cross generational patterns and remediate attachment deficits Evidence based practices are available for child and family abuse treatment including Trauma Focused CBT but new intervention strategies are needed that reduce family and client denial lower defensiveness and prevent re traumatization during the treatment process Family Focused Trauma Intervention Using Metaphor and Play with Victims of Abuse and Neglect translates issues central to abuse and neglect recovery into metaphorical stories and family based interventions Each chapter provides a summary of an issue or theme one or more pertinent stories and parallel family group and individual interventions These stories and family focused interventions help clients regulate affect in order to reduce frequency and intensity of troubling symptoms This volume is the missing link in the current literature on therapy and metaphor as it focuses specifically on parent child interaction and trauma The content of

this book which may be used within any theoretical framework provides a wide variety of practitioners with a needed bridge between theory and practice

Education at the Edge of Empire John R. Gram, 2015-06-01 For the vast majority of Native American students in federal Indian boarding schools at the turn of the twentieth century the experience was nothing short of tragic Dislocated from family and community they were forced into an educational system that sought to erase their Indian identity as a means of acculturating them to white society However as historian John Gram reveals some Indian communities on the edge of the American frontier had a much different experience even influencing the type of education their children received Shining a spotlight on Pueblo Indians interactions with school officials at the Albuquerque and Santa Fe Indian Schools Gram examines two rare cases of off reservation schools that were situated near the communities whose children they sought to assimilate Far from the federal government s reach and in competition with nearby Catholic schools for students these Indian boarding school officials were in no position to make demands and instead were forced to pick their cultural battles with nearby Pueblo parents who visited the schools regularly As a result Pueblo Indians were able to exercise their agency influencing everything from classroom curriculum to school functions As Gram reveals they often mitigated the schools assimilation efforts and assured the various pueblos cultural social and economic survival Greatly expanding our

understanding of the Indian boarding school experience Education at the Edge of Empire is grounded in previously overlooked archival material and student oral histories The result is a groundbreaking examination that contributes to Native American Western and education histories as well as to borderland and Southwest studies It will appeal to anyone interested in knowing how some Native Americans were able to use the typically oppressive boarding school experience to their advantage
